

"ORDER OF KING" FOR A REPORTER

Distinguished Honor Conferred
Upon Chicago Tribune
Representative.

MARK FOR FAITHFULNESS.

Preparing to Build Largest Battleship
On the Surface of the Seas—
New American Navy.

Special Correspondence.

Washington, D. C., April 5.—"If this mania for covering Americans with decorations keeps up for a few years longer, at least one of our American newspaper men will put us all in the shade when it comes to a diplomatic reception at the White House," said a member of the diplomatic corps. Asked for an explanation he said: "At the command of King Victor Emmanuel, the Italian ambassador has just conferred the ribbon of the 'Order of the King' upon Mr. J. Callan O'Laughlin, of the staff of the Chicago Tribune, and in addition to the insignia he may now wear the Maltese cross bearing the arms of Italy upon its face suspended around his neck from a red and white ribbon."

"Call" O'Laughlin, as everybody calls him, is a newspaper specialist. He began his career about thirteen years ago as a cub reporter and stenographer on newspaper news. At that time he didn't know the difference between the Grand Lama of Tibet and the king of the Matchless. But he soon caught on. He was employed for ten years on the Washington staff of the New York Herald and was assigned to the work of "keeping tabs" on the state department. This duty brought him into close touch with the members of the foreign embassies and legations, and it was not long before "Call" was persona grata in the office of the study and the parlor of every diplomat in Washington. He was an apt scholar of diplomatic ways, and it took him but a short time to win the confidence of the corps.

The foreign representatives soon discovered that the utmost reliance might be placed upon the integrity and the discretion of the young man, and he was able to secure for the Herald columns of valuable inside information.

So well was he thought of by the diplomats with whom he came into contact that upon the recommendation of Ambassador Count Casati the ear conferred upon him the "Order of Stanislaus," as an evidence of the appreciation of the Russian government of the accuracy with which Mr. O'Laughlin had discussed European affairs, and particularly matters affecting Russia.

HE WAS ASKED TO RESIGN.

But the decoration jarred upon the nerves of Mr. Bennett, proprietor of the Herald, and he called from Paris, "Refuse that decoration, or resign from the Herald staff," O'Laughlin called back: "My resignation herewith," and that settled it.

Then he started out to see something of the world for himself. He just happened to be in Caracas when President Castro was "just out" of cigarettes.

"Call" had a supply of a very fine brand and he made the president a present of a generous quantity. They

do say that the donation accounts for the fact that he won the decoration and is recorded in Caracas as a member of the "Order of Bolivar." But whether that yarn is true or not it is a fact that the young man was right on hand just when and where he was wanted at the time of the blockade by the French, German and Italian fleets and that Press association found him just the man they were looking for. He did good work then just as he always has done (except when he first began to write short-hand and then he was a holy terror). Since those days Mr. O'Laughlin has traveled all over Europe and has added to his knowledge of foreign affairs as an expert that he is today regarded as the best posted newspaper man in Washington, or in the country for that matter, when it comes to an understanding of European politics.

He is now connected in the Washington bureau of the Chicago Tribune, and he still maintains his position—persons grating—his every foreign legation. Now he is a "cavalier" of the Order of the King of Italy, and he will probably learn to get rid of spaghetti and garlic with the same ease as he puts away the contents of a Samovar. He says that it is always to be found at the front when it is a diplomatic "hen on the nest."

RED HOT FOR ARCHBISHOP.

The reports from Europe to the effect that the wife of former Ambassador Storer has been actively engaged in trying to secure a seat on the train which will carry out a very funny little story in connection with the investment of Cardinal Gibbons of Baltimore two years ago. A gentleman connected with the house of representatives tells the story. "I happened to be in Frederick, Maryland, with a friend when the cardinal was due to make his first official visit to that city. A local paper played a very queer trick on the train upon which his eminence was to arrive was delayed several hours, and the band, after treating the cardinal to a very good lunch, adjourned to a nearby saloon to freshen up. Suddenly the train pulled in without warning. The leader of the band and a few of his men were standing near the depot entrance prepared for the arrival of the eminent prelate. As the train pulled in the leader waived his hand and yelled at his few bandmen to play 'Welcome to the cardinal' and the five hundred struck up that then popular air, 'Where Did You Get That Hat.' The situation was so funny that it struck the cardinal as a heap of fun. He looked most heartily at any other person in the audience."

THE LARGEST BATTLESHIP.

The house committee on naval affairs has decided to provide for the construction of one new battleship, when it is proposed shall, when completed, be the largest ship of war on the surface of the sea. The new battleship is to exceed the displacement of the Dreadnought, at present the heaviest battleship in the world, by about 1,400 tons.

It is to be armed with 16-inch guns, and its armor will be of the heaviest type. The new battleship is to be the forerunner of a new American navy, and the type of all future battleships.

HABIT-FORMING MEDICINES AND DRUGS.

Whatever may be the fact as to many of the so-called patent medicines containing injurious ingredients as broadly published in some journals and magazines, this publicity has certainly been of great benefit in arousing needed attention to this subject. It has, in a considerable measure, resulted in the most intelligent people avoiding such foods and medicines as may be fairly suspected of containing the injurious ingredients complained of. Recognizing this fact some time ago Dr. Pierce, of Buffalo, N. Y., took time by the forelock, as it were, and published broadcast all the ingredients of which his popular medicines are composed. He has completely forestalled all harping critics and all opposition that might otherwise be urged against his medicines, because they are now or have been, in the hands of the public, from the formula printed on every bottle wrapper. It will be seen that these medicines contain no alcohol or other habit-forming ingredients, and that they contain any narcotics or injurious agents, their ingredients being purely vegetable, extracted from the roots of medicinal plants growing in the depths of our American forests and of well recognized curative virtues.

Instead of alcohol, which even in small portions long continued, as in obstinate cases of disease, becomes highly objectionable from its tendency to produce a craving for stimulants, Dr. Pierce employs chemically pure, triple refined glycerine, which of itself is a valuable remedy in many cases of chronic disease, being a superior demulcent, anti-septic, anti-fertile and supporting nutritive. It enhances the curative action of the Golden Seal root, Stone root, Black Cherry bark and Bloodroot, contained in "Golden Medical Discovery," in all bronchial, throat and lung affections attended with severe coughs. As will be seen from the writings of the eminent Dr. Grover Coe, of New York; Bartholow, of Jefferson Medical College, Philadelphia; Scudder, of Cincinnati; Ellingwood, of Chicago; Hale, of Chicago, and others who stand as leaders in their several schools of practice, the foregoing agents are the very best ingredients that Dr. Pierce could have chosen to make up his famous "Discovery" for the cure of not only bronchial, throat and lung affections, but also of chronic catarrh in all its various forms in whatever part of the system located.

By reading the writings of these eminent medical men contained in the little booklet recently compiled by Dr. R. V. Pierce, of Buffalo, N. Y., which will be sent free, on request by postal card or letter, addressed to him as above, the reader will find that all the several native, medicinal roots entering into the "Golden Medical Discovery," as also into Dr. Pierce's Favorite Prescription, for woman's weaknesses and peculiar ailments, are very highly recommended and praised as cures for diseases for which Dr. Pierce advises these famous medicines of his preparation.

Dr. Killingsworth says of Golden Seal root, which is an important ingredient in both "Golden Medical Discovery" and "Golden Medical Discovery": "It is an important remedy in disorders of the female system, especially in catarrh, relaxation and general debility, it is useful." Prof. Scudder, leader of Cincinnati, says of Golden Seal root, in relation to its general effect on the system: "There is no medicine in use about which there is such general unanimity of opinion. It is universally regarded as the tonic, useful in all debilitated states."

Dr. Bartholow says that Golden Seal root is "valuable in uterine hemorrhage, bleeding, menorrhagia (flooding) and congestive dysmenorrhea (painful menstruation)."

DOWIE READY TO CONFRONT LEADERS FROM CHURCH

He Leaves City of Mexico to Meet
Accusers and Refute
Charges.

SAYS VOLIVA IS UNFAITHFUL.

Ridicules Attempt of Younger Men
Left in Charge of Zion City to
Depose Him.

Mexico City, April 5.—John Alexander Dowie, the first apostle of the Christian Catholic Apostolic church in Zion, left here with his party tonight for Chicago, where he will confront the local leaders who have attempted a revolt against him. Dr. Dowie was in good health and spirits and indignant at the conduct of the men who, according to letters in his possession, were professing loyalty to him within the past week.

In an interview with the Associated Press representative, given at his hotel this afternoon, he reviewed the history of the Zion church and spoke of its spread not only in the United States but in Europe. He had, he said, received many telegrams of loyal assurance from England and the United States, and others of doubtful aid or support. These telegrams were very gratifying to Dowie, who spoke freely regarding those who have in his absence organized a movement to depose him, which he ridiculed as preposterous.

Dowie said he had selected as his best man Wilbur Glenn Voliva, who had proved unfaithful. This was out to be a climax as a result in part of his Mexican undertaking. His wife and son agreed with those who made objections. He added that his son, although he had not, did not walk in his (Dowie's) ways. He said that his followers thought he was going to die, and in fact, seemed a little sorry that he did not, and now opposed his returning to Zion City.

Dr. Dowie spoke at length concerning the telegram of April 1, received Monday, April 2, in which charges were made against him and in which was mentioned the action that caused his immediate preparations to return to Zion City. He warmly refuted the charge that he had been extravagant in declaring that he owned today the majority of shares in the Zion City bank, and declared with much earnestness that when the accounts were adjusted he would have a goodly balance to his credit.

He then took up the charge brought against him of tyranny, and remarked that, like all business employers, he did not and would not tolerate incompetency. He had been charged with injustice, but he said he had, during the last two years, from his own personal resources, given to his people as much as \$200,000. It was said he was extravagant when he had not drawn from Zion City's funds \$1,000 during the past six months, but on the contrary he had loaned Zion City from outside resources \$10,000.

Dowie then took up the charges of mismanagement brought against him, and stated that the creation of assets over and above all liabilities of \$20,000,000 in four years was hardly to be considered a stupendous failure. Land which had cost him less than \$20 an acre, he had never sold at less than \$3,000 an acre, and some as high as \$12,000.

Concerning the charges of polygamy, Dr. Dowie stated that in none of his literature published was there any support of this doctrine. He said he was a sincere monogamist and had not contemplated introducing polygamy into his Mexican colonies.

Dr. Dowie went into a discussion of this matter from a biblical standpoint and insisted that he had never upheld anything but the strictest monogamy. He ridiculed the attempts of his younger men left in charge of Zion City to depose him, and speaking of this matter, showed his accustomed fire and force. Nothing, he said, could keep him from going to Chicago to face criminal or other charges which had not the slightest basis in fact. He humorously remarked that his position arrived in Mexico on April 1, or April 10's day. He appeared anxious to confront his opponents, and felt confident of the loyalty of the great mass of his adherents. He took the Mexican National train at 9 o'clock and will stop over one day for rest at San Antonio, Tex.

During the afternoon at the hotel he received a letter from Voliva, who was with him, but he was busy arranging for his northward journey. He seemed in far better health than when he arrived in the country. He says he is fond of Mexico and feels grateful to the authorities for their kindness to him, and fully expects to return here.

NATIONAL HOME FOR CONSUMPTIVE MAIL CARRIERS.

Chicago, April 5.—Plans have been formulated by the National Association of Mail Carriers to build a national home for consumptive members of the association, in Colorado Springs, Colo., according to an announcement made today by members of a committee of the association who are attending the convention of the National Association for the Prevention of Tuberculosis, which is being held in this city.

"The Business Men's association of Colorado Springs has donated 150 acres of land for our home," said John C. Huston, chairman of the committee, and we intend to raise \$100,000 to build the institution. We have received an offer from a well known philanthropist whose name cannot be divulged at present who will donate a dollar for every dollar that we raise, and we hope to have all the money needed for the project by next fall."

COLONEL TAKES THE BLAME.

For Outrageous Treatment of Lt. Kennedy of the Scots Guards.

Aldershot, England, April 5.—The inquiry into the beating of Lieut. Clark Kennedy of the first battalion of the Scots Guards terminated today. Judgment will be rendered later. Prior to the conclusion of the inquiry Col. Cuttbert, commanding the Scots Guards, said that he wished to take all the responsibility on his own shoulders, as his hasty remark prompted the subalterns to act as they did.

VOYE TO EXPELL DOLAN.

Pittsburg, April 5.—The district convention, which has been in tumultuous session for several days adjourned today after taking a vote to expel Patrick Dolan and Ulick Bellingham from the organization. Dolan was present and declined to yield up the office, claiming he was re-elected last January and was legally entitled to the presidency until March 21, 1907. It

was said later that no decision will be reached for several days as to what steps to take to regain possession of the district headquarters, books and money now in the possession of Dolan and Bellingham.

METHODIST BOOK CONCERN
AT OUTS WITH PRINTERS.

New York, April 5.—Difficulties between the Methodist Book Concern of this city and Typographical union No. 6, were discussed at the session of the New York East conference of the Methodist Episcopal church in Brooklyn. It was precipitated by circulars which were distributed at the door of the church where the conference was in session, by the defense committee of the union.

The circular told of the union's view of the Methodist Book Concern's attitude in the recent printers' strike, and said that the composers of the Methodist Book Concern had set type for advertisements for whisky.

It also was charged in the circular that "The Author's Apology," a defense by George Bernard Shaw of "Mrs. Warren's Profession," the production of which at a New York theater was stopped by the police, was printed from plates made at the Methodist Book Concern.

Rev. Homer Eaton, one of the managing clergymen of the Book Concern, addressing the conference on the statements made in the circular, said: "There is a young man leaning against the street lamp outside the door. I do not know whether he is drunk or not, but he thrusts under the face of every person who makes his or her way to this church a pamphlet in which Brother Mains and myself are charged with all sorts of abominations."

"I want you, brethren, to know that we are two loyal Methodist clergymen, and nothing has been printed in our shops unless it was pure, wholesome and uplifting. When such accusations as these are made I want that you should stand by us. If anything improper was stated in the office of the Book Concern, neither Mr. Mains nor myself knows anything of it."
