

THE EVENING NEWS.

Monday, - - - January 15, 1872.

PRICE OF GOLD.
Coppered Gold by BANK OF DENVER.
SALT BY CHAS. W. HARRIS, 1512.
Buying at \$1.00; selling at \$1.05.

LOCAL AND OTHER MATTERS.

SERVICES AT THE TABERNACLE.—Bishop L. E. Harrington preached in the forenoon and Elder Lorenzo Snow in the afternoon, at the Tabernacle, yesterday.

THEATRE.—This evening the popular play of Light and Darkness will be repeated, the principal characters sustained by Miss Rose Evans, Miss Z. C. Smith, Miss Adams, and Messrs. Blumenthal, Thomas, Harris, Bowring, Marden, Dudley, etc. To be followed by the farce of Love in All Corners. A good programme.

ZEAL OR WISDOM.—"Zealous but not judicious," is what the London Times says of Calcutta's conduct. That is exactly what the matter with some of Uncle Sam's representatives in Utah. Strange that people won't learn better.

PEARL BARLEY.—Pearl barley is a healthy article of food, and many people have quite a liking for it. It is used to a great extent by the Scotch. It may not be generally known that it is manufactured in Utah of a quality superior to that generally imported from the east. Brothers McKinnon and Peterson have commenced that branch of home industry at their mill, at Logan, Cache Co. They make a most excellent article at a very reasonable price.

GONE TO WASHINGTON.—Gen. George C. Bates, United States Attorney for Utah, left this City for Washington on Saturday last.

THAT OLD.—Do not forget the delicate and descriptive lecture of Dr. Virgil Gales, at the Tabernacle to-night at 7 o'clock. The lecturer proposes to give illustrations of the story of Daniel Webster, Henry Clay and other oratorical celebrities of the past. Admission free.

RELATING TO FRUIT TREES.—Bro. McKay, of the 11th ward showed us, the other day, a gluey, gummy substance taken from one of his fruit trees, and which he found adhering to the bark. The inside of this substance is covered with numerous small eggs of the worms which proved so destructive to trees last season. Brother McKay says that the eggs are in such immense quantities that unless destroyed, when hatched out the worms may prove nearly as destructive to fruit as the grasshoppers have heretofore been. He thinks people should examine their trees and destroy whatever eggs they may find. His suggestions are good.

CURIOUSITIES.—Bro. Sam. Pichforth called in this morning with the following curiosities, presented by Bro. John W. Shepherd, of Levan, Utah Co., to the Desert Museum, of this city:

Diamond from Point de Galle, Ceylon.
Two small East India silver coins (one).
Hong Kong coin, with round hole through centre.
Japanese coin, oval, with square hole through centre.
Spar from the Himalaya mountains.
Two corals from Bombay.
Three silver coins from Kingdom of Goa, East India.
Moorish bracelets.
Catholic rosary from Egypt.

THE NEW YORK SUN.—With the beginning of 1872 the New York Sun commenced to publish its weekly issue in eight pages instead of four, still maintaining the old price, making the weekly Sun the cheapest newspaper in America, so far as we know. The Sun is an "independent" paper, which may be considered another name for "invaluable," but nevertheless is rigorous, sprightly and particularly terse, pithy and inclusive in its leading articles.

ANOTHER DELIGHTFUL DAY.
HIPS.—The produce of this Territory is considerable, and perhaps could be made materially greater if more care were expended upon properly preparing the hides for the market. A gentleman connected with the business handed us the following upon the subject:

Directions for Skinning and Curing
Hides.—Avoid as much as possible cutting or scoring the hide. Skin the lower in the cheeks and legs, leaving the hide as large as possible. Take out the tail bone, and the hind legs are to be dried out the ears.
To Salt Cured Hides.—Spread the hide on the floor, hairy side up, and the fleshy side down, and sprinkle the fleshy side with plenty of salt. The next day turn the hide over, and sprinkle the hairy side with salt. Repeat this process until the hide is cured.
When ready to ship, shake out the salt for future use, sprinkle lightly with fresh salt. Bundle and tie.
To Dry Hides Properly.—The thick and leg skins should be skinned so as to keep them from curling up and becoming wrinkled.
Hang the hide from head to tail over a straight edge, an inch or two inches thick, hairy side in. Be sure to hang the hide under a covered shed, so that the sun will not strike on the hairy side, but the hide is everywhere except for glue.

EVERYBODY OUT.—The exceedingly genial and most delicious weather yesterday fettered the people out of their residences to an unusual degree. The streets, benches, and hills were far more lively than usual at this time. In the afternoon the sidewalks leading to the Tabernacle were thronged, and that building itself, seats and aisle, long before the hour of meeting was crowded, scores had to come away unable to effect an entrance, much more to the west or comfortable standing place. There is a class of men here who, if instead of encouraging litigation and doing all in their power to disturb the public peace and prosperity and discourage financial and commercial matters, would strive to promote peace and harmony and advance the welfare of the community, might soon have a building more suitable for public worship by the people, in summer and winter, constructed upon the best principles of acoustics, and capable, like St. Stephen's Tabernacle, of accommodating 5,000 or 6,000 people, all of whom could see and understand the speaker perfectly. Such a building would probably be large enough for the present for all meetings, excepting general conference, and none need turn away, while for the speaker it would be superior to either of the Tabernacles which we now have.

FEELING ENCOURAGED.—Our traveling agent in the South, writes from Minneapolis that two days' meetings were held there, on the 6th and 7th instants. The congregations were large, and the people evinced that they were progressing in the cause of righteousness. A "travelling spirit" was enjoyed in the meetings.

NOTICED BEFORE.—Brother J. W. Barnett, Payson, sends us an account of performances there of a musical troupe, which we would have published had we not already said something about the matter several days ago.

EDWARD LEVINE, there is a letter at this office addressed to you. Call and get it.

A PAIR OF SPECTACLES, found on the street, are at this office. The owner can get them on application.

FIRST DISTRICT COURT.—Some weeks ago the Jury were unable to agree in their verdict in a trial in the First District Court, Provo, in which the Eureka Company were plaintiffs, and S. D. Woodruff and others defendants. The second hearing of the case was set for Thursday last, but defendant's counsel applied for a postponement until next May, in order that the plaintiff's witnesses might be obtained from Massachusetts and London, and also that further developments might be made on the case, so as to demonstrate unmistakably,

one way or the other, whether the property claimed by the defendants is, as the plaintiff asserts, on the Eureka land. The application was argued last Saturday morning, and a continuance granted until the 25th of February, until which time the plaintiff was directed to file his evidence.

How it is at Austin.—The Reese River Revue, of a late date, says:

"The Grand Jury has adjourned until Friday, the 12th inst. A goodly portion of the law-abiding people in this community are of the opinion that the ends of justice have been fully as well served if they had never met at all."

MAGAZINES.—The "Lakeside Monthly" contains "The Story of Chicago" in five parts—Part 1. Before the Fire; Part 2. Burning of the City; Part 3. After the Fire; Part 4. The Losses; Part 5. The Future.

"Wood's Household Magazine" contains Fifteen Years, The Dead Year of Disaster, Washington and his Lady Love, Her husband and his Surroundings, Luther Wheaton's Ward, Going to Homekeeping, The True Woman, Planning a Career, Band of Hope, Wife of Dr. Franklin, Health Hints, Love Letters, Rags, Rags, Old Adam and the Sprites, and the usual variety of miscellaneous matters.

DECEASED.—In this City, Jan. 14th, GEORGE FRANCIS, son of George W. and Ellen C. Smith, aged 3 years and 3 months.

Offered, Jan. 15th, in this City, LUCY ANN ILLIKSON, daughter of George and Grace Hanna, residing at 1512, aged 19 days.

Funeral services will take place at the house of her parents at the back of their store on East Temple Street at 1 o'clock to-morrow, Tuesday. Friends of the family are invited to attend.

MIL Star, please copy.

Special Notices.

CHIMNEY of all sizes at the Pioneer Lamp Store.

COAL OIL of the best quality at reduced rates, at the Pioneer Lamp Store.

For Throat Diseases and Affections of the chest "Brown's Bronchial Trochees" are of value. For Coughs, Irritation of the Throat caused by cold, or Unusual Extension of vocal organs, in speaking in public, or singing, they produce beneficial results.

140,000

SINGER SEWING MACHINES

WERE SOLD WITHIN THE PAST YEAR.—Scientific American, June 10, 1871.

The Singer Manufacturing Company,

AT THE WORLD'S FAIR

—Constituted by the homes of the people—

Received the Great Award of the Highest Order and have left all rivals far behind them, for they

Sold in 1870 127,933 Machines!

SEWING MACHINE SALES FOR 1870.

The magnitude to which the manufacture of Sewing Machines has attained is shown by the "SINGER" returns (to which any one can have access) of the manufacturers for the year 1870 the number of machines sold, on which they pay a royalty. According to these returns the number of machines sold by each manufacturer in 1870 is as follows:

The Singer	127,933	Florence	17,000
Howe & Wilson	82,500	Gold Medal	9,912
Grover & Baker	57,400	Clinton	5,800
Wheeler & Davis	45,000	Wheeler	5,000
Willcox & Gibbs	35,000	Wheeler & Davis	4,500
American Sewing Machine Co.	30,000	Parham	1,750
And several other companies who sold a few machines.			

It will be seen by this table that the popularity of the Singer Machine far exceeds that of all others, their sale being one-half greater than even that of the famous "Wheeler & Davis" machine. This is due to the fact that the Singer Company have made a specialty of making machines that are easy to use, and that are of the most durable construction. It is remarkable not only for the ease and variety of its work, but also for the variety and different kinds of fabric which it will sew with equal facility and perfection, using silk thread, linen or cotton thread, fine or coarse, making the finished article elastic, strong, and in all respects adapted to the work. Thus, heavier cloth or leather may be sewn with great strength and uniformity of stitch, and in a moment this writing and sewing machine may be changed to be adapted to work on gauze or summer tissue, or the tasking of delicate materials, or almost any other work—even by a child—other delicate fingers have been known to perform. Even the children and thoughtless have little or no trouble on this machine.

Send for Descriptive and Price Circulars.

We manufacture our own needles, silk and twist, furnish linen and cotton thread and all other superior quality—being relied on by the Sewing Machine Trade, Patenters or Branch Offices, or Agents.

Other Sewing Machines Repaired on Reasonable Terms.

We guarantee every Machine we sell to give entire satisfaction!
