Arrangements for President Grant's Visit to the Pacific Coast!

Revolution Attempted in Peru!

Thomas Hughes Eulogizes America!

WASHINGTON, D. C.

The new loan.

WASHINGTON.—A report, telegraphed from this city last week, that, notwithstanding the fact that numerous officers of the treasury department and others had been sent to Europe on business connected with the new loan, and that great efforts had been made to sell the new bonds in the continental markets, not a dollar's worth of them had been sold, would naturally lead many to suppose Boutwell has met with more difficulty in this direction than was anticipated, and that if the public debt is funded at all it must be done at home. The fact is, some of the new bonds have already been sold abroad—a few millions—but the amount has been so small that no general report of it had been made. The secretary, however, is not at all discouraged, and still expects to dispose of a large portion of the loan in the European market.

NEW YORK.

The Treaty—Religious—Masonic—An attempt at insurrection in Callao.

NEW YORK, 12.—The *World's* Washington special says a telegram received here to-day from London, by a high official, states that the Anglo-American treaty with Her Majesty's ratification will be sent into Parliament on Tuesday. It is understood in London that Disraeli, after a conference with Sir Stafford Northcote, has determined, as leader of the opposition, to permit the treaty to be received without attempting to press any criticism upon it to the point even of serious debate. This information is regarded here as entirely trustworthy and as settling the question, if there ever was a question, as to the reception of the treaty in Great Britain.

The Rev. S. P. Tyng, Jr., at the opening of St. Paul's Episcopal Church, yesterday said: "We are come here to open a new Protestant Episcopal Church in all its purity, in all its simplicity, and I wish to call your attention to the fact that it is a Protestant church, and that it is to protest against any usage that displaces the spirit by service, that puts priests in the place of the word of Christ. Let it be distinctly understood that this church will be free and independent, standing on the basis of the broadest sympathy with all those churches in its vicinity that hold to the common faith, and thus, while still clinging to our peculiar forms which have come down to us from our fathers, we can yet extend the hand of welcome to all who worship in the name of the Savior."

Information from Callao, Peru, reports that there had been an attempt at revolution in that city, and efforts were made to capture two of the largest ironclads of the navy. The conspiracy was discovered, and a party of thirteen persons, in attempting to escape, took refuge on the U. S. steamer *Onward*, but were subsequently surrendered to the authorities.

ALBANY, 12.—All the Masonic Lodges in the States have been invited to be present at the laying of the corner stone of the new capitol on the 24th. Distinguished Masons from all parts of the United States and Canada are expected to participate in the demonstration. Gov. Hoffman delivers an address. There will also be a fine military display.

All necessary arrangements have been made for the President to visit the Pacific Coast. He will leave Long Branch about the middle of August, accompanied by Senator Nye and ex-Senator Williams, of Oregon. He will visit Salt Lake, and from there he will go to Nevada and San Francisco. At the latter place he will take ship and proceed to Portland, Oregon. The trip may possibly extend to the Sandwich Islands.

CALIFORNIA.

San Francisco news.

SAN FRANCISCO, 12.—Advices from the City of Mexico, by steamer, confirm the report that Manuel Asperoz has been appointed consul general for San Francisco and the Pacific coast, but it is doubtful whether he will come here, at least until after the Presidential election.

A rumor that the contract for the first 145 miles of the eastern extension of the California and Pacific railroad, from Davisville, northwards, has been let, though not correct in detail, has undoubtedly this much of truth in it, that it is understood who will have it as soon as the surveys now being made are so far completed as to permit of the specifications being made out.

The case of the boys, Mat. Harrington and T. C. Ryan, charged with the murder of a Chinaman on 4th street, was examined before Judge Sawyer today. The evidence was that both boys were pelting deceased, and on being arrested, each charged the other with giving the fatal blow, admitting they hit him with redwood boards. Mr. Lauderback appeared to prove by a Chinaman and woman that the boys went into the cigar store owned by the deceased, and demanded cigars free, which being refused them they snatched the clock and other articles in the room, and when the Chinaman chased them out, they turned on him and killed him. Judge Sawyer declined to receive the Chinese testimony, but held Harrington on the charge of murder in the second degree under bail of $15,000; and Ryan for assault and battery at $1,000.

A bill of exceptions in the Fair case was agreed on in the 15th district court.

CANTON, OHIO.

IT HAS NO EQUAL!

It Mows—It Drops—It Self-Rakes.

Prices Reduced to a Gold Basis.

This Machine is the harvest gathering of twenty years' experience in the manufacture of Agricultural Machinery, and takes rank with the Printing Press, Engine, Lath and Locomotive in the qualities of precision, staunchness and durability.

Its foundation is a single piece of solid iron, of shape to resist all possible strains.

Its gearing is shaped to standard gauge, and cast out of solid iron, with unprecedented exactness.

The working parts are permanently fixed and fully protected from water, dust, grass and all other external causes of disturbance.

By these means, we reduce friction to the lowest point, adapt the machine to run easy, to all length and conditions, avoid breakages in harvest, secure easy draft and the same durability which pertains to cut gear in other kinds of machinery. The WORLD has been tested four years in the hands of the most intelligent and reliable farmers in the land, who unite in declaring that, comparatively,

"There is no other Reaper."
