NEW FOOTBALL RULES.

Many Important Changes for the Coming Season.

New York, Aug. 9.-Walter Camp and the other members of the collegiate n the hands of the printer

Radical changes have been made in several of the rules. The tendency has been to make the game more scientific. take away the opportunities inferior toams have had to gain thus over their superiors. The committee has changed the rule by which the team lost the ball for off side play. Hereafter the offenders will be penalized ten yards and the ball will remain in the possession of the side having it before the foul was made. and the having it before the four was made. An important change is due to the outcome of last year's Harvard-Yale game, when Ynle resurrected the old twenty-yard rule in order to hold the ball when near Harvard's goal. Rather than give up the ball. Yale dropped back twenty yards and kept the ball. The rule has been changed to read:

"A team cannot take advantage of this rule a second time, unless the ball has exchanged possession after the team using the twenty-yard rule had irst taken advantage of the rule."
Princeton's movements last year in Yale-Princeton game of the side line coaching sules led to the imposing

of a ten-yard penalty for casching from the side lines. Any unfair act committed by a player or any sympathizer may also be punished by a ten-yard penalty.

With the exception of these four changes, the rules of 1899 will prevail AD SPORTING NOTES
