IDAHO WOMEN'S CLUB CONVENTION

It Was Well Attended at Pocatello Early in This Week.

FIRE AND LOST YOUNGSTER.

Boy's Dormitory at the Academy of Idaho Threatened—Some Humorous Incidents.

Special Correspondence.

POCATELLO, Oct. 25.—The First District Federation of Women's clubs convention of Idaho met here in a three days' session at the Congregational church, Monday, Tuesday and Wednesday. The convention was well attended, and a reception tendered the visitors Monday evening at the Congregational church. Mrs. G. E. Bowerman of St. Anthony presided. Mrs. George W. Derr of this city made an address of welcome, which was responded to by Mrs. Hoff of Montpelier. State federation of clubs was discussed by Mrs. D. W. Standford. The following new officers were elected: Mrs. E. M. Holden of Idaho Falls, president; Mrs. C. A. Hoyer of Blackfoot, vice president; Mrs. Anna Guernsey of Idaho Falls, secretary; Mrs. Snodgrass of Montpelier, treasurer. The district convention ended yesterday at 12 o'clock, but the state federation convention follows at Boise with a meeting last night, continued through today and tomorrow.

FIRE AT ACADEMY.

Among the excitement this week was a small fire that broke out in the furnace room of the boys' dormitory of the Academy of Idaho about 9:45 Friday morning. The usual fire alarm and signal code was sounded, but by the time the firemen arrived the fire was out. The damage was not serious. The race of the fire team that time was the longest in its career, the distance being about one mile. The fire was at once put out by the chemical engine, the damage was only nominal. Some laughter not on the program was precipitated by one of the pupils, who wanted to re-enter the building after the firemen had placed a cordon about the name. "I just want to save," said he, "Susie's picture."

BOY LOST IN HILLS.

Louis Whitham, 16-year-old son of Rev. C. E. Whitham, pastor of the Congregational church, set out for a ride on horseback in the hills by way of the academy, sometime on Sunday afternoon and lost his direction. About dusk, however, he came out near Ross Fork and found shelter in an abandoned barn. He was found by a cold night. When daylight came he made his way to Ross Fork and from thence advised his parents by phone of his whereabouts. In the meantime a searching party of young men was scouring the hills, but before starting it had been agreed that as soon as the boy had been found the search party should be notified by a cold blast of about ten minutes' duration, which was duly sounded about 9:25 Monday morning, with an interval of about 20 or 25 minutes. The untimely death was somewhat unaccountable but to the parties most concerned it meant volumes. Louis arrived home shortly after the noon hour.

NARROW ESCAPE.

Ellis M. Calkins, a Short Line car inspector, well known here and in Wyoming, was narrowly escaped by the sugar factory at Idaho Falls, Saturday afternoon when there was a little rear end smashup of beet cars while switching.

TWO WEDDINGS.

A splendid wedding to which 150 guests were invited, occurred this evening at the residence of Mr. and Mrs. John W. Ash, 738 North Arthur avenue. The bride was Miss Gertrude Barker, a prominent circle member in the Woodmen of the World. The groom is George E. Jones, a switchman in the Pocatello yard. President William A. Hyde of the Pocatello stake, a friend of the bride, tied the nuptial knot that made the happy couple husband and wife for life. Many beautiful and useful presents were offered the honored couple.

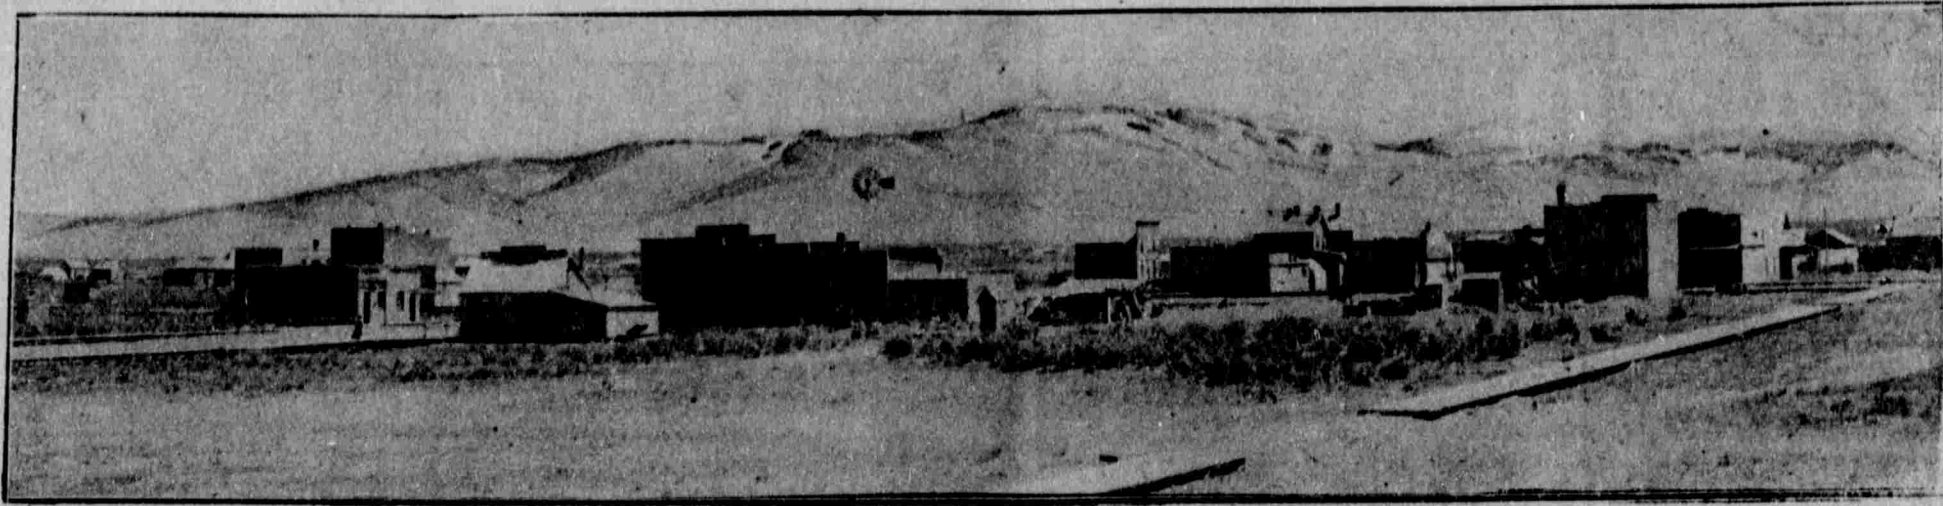

SWITCHMAN CRUSHED.

Lawrence Traynor, a Short Line switchman of this city, a brother of Mrs. Louis Rubelmann, proprietress of the Dearborn lodging house, was frightfully mangled and crushed yesterday morning near the roundhouse while switching and turning a mail car. At the sand house he slipped and fell under the car. Three ribs, right arm and wrist left collar bone and a bone in the pelvis were broken. He was sent to a Salt Lake hospital after receiving temporary first aid at the emergency hospital.

POLITICAL RALLY OCCURS AT PRESTON.

Special Correspondence.

PRESTON, Idaho, Oct. 26.—Last Monday night Col. Thos. Hamer addressed a large and enthusiastic audience in McQueen's hall. Col. Hamer left a very good impression in Preston. The city brass band furnished music for the occasion.

THE NEW TOWN OF BURLEY, IDAHO, FROM A PHOTOGRAPH TAKEN DURING THE SUMMER OF 1906.

mine is particularly sad in view of his widow and infant child. The Fourth ward church, under the direction of Prof. Otto E. Johnson, rendered some beautiful music. The following spoke feelingly of the deceased: Elders A. W. Hart, John Larsen, Solomon H. Hale, James Smith and Allen B. Cutler.

Friday and Saturday witnessed a royal time at the fair grounds. Horse races, foot races, bicycle races, basketball and baseball were indulged in. If numbers count anything, the meet was a huge success.

A very successful dancing party was given in the academy hall Friday night. The event was styled a "fruit and harvest party" and was easily the social event of the season. Prof. Henry Otte had the affair in charge, and a snug sum was realized. The proceeds go for the purchasing of musical books for the academy choir.

Contractor Geddes is pushing the work on the new building, and students are hopeful of getting into it before snow flies.

SEVERAL PARAGRAPHS FROM MALAD CITY.

MALAD CITY, Oct. 25.—A baby boy made happy the home of Mr. and Mrs. John Harrison Saturday.

Several new buildings are in course of erection and the carpenters and masons are busy.

Malad has experienced heavy frosts of late and much of the fruit has been damaged.

Political fever is running high. The several candidates are making professional calls in this neighborhood. Tuesday night a Republican rally was held at the court house, when members on the county ticket spoke.

RIGBY ESCAPES THE BIG WINDSTORM.

RIGBY, Ida., Oct. 25.—While Utah was suffering from the severe wind storm of Saturday and Sunday last, Rigby was experiencing a cold north wind which, however, did not do damage more than rendering it very unpleasant for outdoor work. Quite sharp frosts occurred on the nights of the 21st and 22nd, but the land being dry, potatoes and other vegetables, are but little injured. Prior to the last few days, the weather has been ideal for gathering beets, etc. About three car loads of beets per day have been shipped from this station during the present month, as well as large quantities of grain. Now potatoes are being harvested as rapidly as possible, the yield being good.

A very pleasant evening was spent at the home of Bishop E. A. Gordon on the 18th inst., in honor of the marriage of his son Omer S. and Miss Ruth Chandler. The presents were valuable and appropriate and good wishes for the future of the youthful pair are general.

PERSONALS AND BRIEFS BY BURLEY CORRESPONDENT

BURLEY, Oct. 25.—Ed T. Barber went to Boise Sunday evening to accept a position for a short time on the Statesman, as reporter.

Many of the settlers around Burley are busy engaged in clearing their land and in sowing fall grain.

Several new buildings are being completed in town. Among those nearly ready for occupancy are Mrs. Nellie Adamson's new boarding house, Taylor & Son's mercantile house, H. H. Ward's feed store, Gus Olsson's residence, and Bishop L. W. Robbins' residence.

Miss Mae Martindale of Oakley and Mr. Johnson of Rupert, tied themselves to Logan, where they will be made man and wife in the temple.

Ed English left Burley Tuesday for Nevada, where he will try his luck among the hills of that state as prospector.

Senator Geo. A. Day of Oakley passed through town Saturday on his way to Heyburn, where he goes to attend the sale of lots adjoining the townsite.

It reports that about 150 lots were sold to the value of \$4,800; out of this \$1,223 cash was taken in, the balance will be paid in three annual payments.

While the people of Salt Lake City and vicinity were having a high time with the big wind, the people of Burley were having an ordinary wind.

Everybody wonder about the coal. The famine has struck this part of the country. The coal companies have been expecting coal for nearly a month and are hoping the shortage will not last long.

PAYETTE GROWERS SHIP 250 CARLOADS OF FRUIT.

A CORRESPONDENT who is making a tour of western Idaho writes the "News" that marvelous changes have taken place there in the last few years, and the country resembles one vast garden and orchard.

The section, however, that took his eyes above all is the Payette valley. It seems to excel all other localities. The location of the valley is ideal; the soil is extremely productive, and unlike any other spot in the arid region, it has an abundant supply of water for irrigating purposes than can ever be utilized.

Payette has established quite a reputation for its products. Every one is acquainted with its delicious cantaloupes, and its apples and other fruits are as near perfection as can be imagined. This year there will be shipped from Payette not less than 250 cars of fruit; and its apples are now selling in Philadelphia and other eastern cities at just three times the price of the Missouri product. A moment's consideration will show there must be a reason for this; and there is. And so with everything that comes from the Payette valley, it is expected to be a little bit better than that from anywhere else; and the few disappointments, which sugar beets are being raised quite

PAYETTE GROWERS SHIP 250 CARLOADS OF FRUIT.

A CORRESPONDENT who is making a tour of western Idaho writes the "News" that marvelous changes have taken place there in the last few years, and the country resembles one vast garden and orchard.

The section, however, that took his eyes above all is the Payette valley. It seems to excel all other localities. The location of the valley is ideal; the soil is extremely productive, and unlike any other spot in the arid region, it has an abundant supply of water for irrigating purposes than can ever be utilized.

Payette has established quite a reputation for its products. Every one is acquainted with its delicious cantaloupes, and its apples and other fruits are as near perfection as can be imagined. This year there will be shipped from Payette not less than 250 cars of fruit; and its apples are now selling in Philadelphia and other eastern cities at just three times the price of the Missouri product. A moment's consideration will show there must be a reason for this; and there is. And so with everything that comes from the Payette valley, it is expected to be a little bit better than that from anywhere else; and the few disappointments, which sugar beets are being raised quite

extensively around Payette this year for the new factory at Nampa, and the valley is fully maintaining its reputation. A showing will be made not equaled by any other locality for the first season, both in tonnage and percentage of sugar. The yield is averaging 15 tons per acre, and while it has been difficult to get returns as to the saccharine test, it is confidently expected that it will break all records. This is easily explained when it is understood that the same properties that give excellence to the cantaloupe, add sugar to the beet, and the flavor and sweetness of the Payette cantaloupes are most pronounced.

The one drawback of the valley has been lack of transportation, but this is now removed owing to the building of the Payette Valley railroad, which was put into operation this summer. It runs from Payette to New Plymouth, and will probably be extended somewhat further in the near future.

SALOON LICENSE TO BE RAISED AT IDAHO FALLS.

IDAHO FALLS, Ida., Oct. 25.—At the meeting of the city council this week an ordinance was given its first reading which raises the saloon license here from \$200 to \$500.

The football season opened here on Saturday with a game between the high schools of Pocatello and Idaho Falls. When the dust of the fray lay cleared it was found that the home team was victorious to the tune of 6 to 3.

This first "American" party rally was held here this week when Karl Paine, Democratic nominee for attorney general, was the star speaker. He was introduced by J. Ed Smith, one of the local attorneys here, who made some rambling remarks. Among other things he thought he was a member of the high in authority and the principal men of the Mormon Church were practicing polygamy and it was up to the "American" party to put a stop to it. He averred that he was going to contest every seat of Republicans elected on constitutional grounds. Mr. Paine was then introduced. Not a word did the speaker say regarding the principles of Democracy, but he devoted his attention to the Mormons. He averred that he did not want to disfranchise the people but rather to let them. His entire address was along these lines and taken all in all, was a most wiser sample of oratory.

It has been very cold here during the past week and it is feared that the potato crop remaining underground has suffered.

NEARLY NINE INCHES OF SNOW AT OAKLEY.

OAKLEY, Cassia Co., Ida., Oct. 25.—Mr. and Mrs. John J. Millard gave a reception and supper to 50 relatives and friends last Wednesday, in honor of their son James H. and daughter Alice, who were married some time ago to Miss Cynthia Bucher of Elba and Nels Peterson of Oakley, respectively. The affair was a most enjoyable one.

Miss Laura Pearl Adams and Prof. Geo. H. Durham, two members of the State academy, faculty give a recital in the Fourth ward chapel Friday evening last. Miss Adams as a reader has few peers in this valley and Mr. Durham has a sweet, mellow voice.

Herman Johnson, one of the enterprising homesteaders in the Mindkoda tract at Rupert, came over to Oakley and won the heart of Gladys, a fair state organizer, Miss Mary M. Martindale, daughter of Hon. W. C. Martindale, one of the early settlers of this valley. The young couple started for Logan, Utah, yesterday morning, where they will be married in the temple. Mr. Johnson has resided in Maryvale, Ida., for some time prior to his location at Rupert.

Between eight and nine inches of snow fell here during the latter part of last week and winter weather has been the lot of residents since that time. Hard frosts have destroyed a great deal of fruit, which was still on the trees when the cold wave struck here.

Southworth is erecting a new brick residence one block north of the postoffice. Clark Lee has recently sold his half interest in the saloon to Hy.

Judd, and will engage in the butcher business as soon as he can get his equipment ready for operations. Mrs. F. Gooding and daughter of Boise, wife and daughter of Governor Gooding, have been visiting Mrs. Emerson here for several days. They returned to Boise this morning.

Hon. E. A. Walters, of Shoshone, nominee for Judge of the Fourth district court on the Republican ticket, was an Oakley visitor last week.

BEAR LAKE COUNTY FAIR WAS A GREAT SUCCESS.

PARIS, Bear Lake county, Ida., Oct. 25.—The first fair held in Bear Lake county in 20 years, was the feature of last week. It was a surprise to here last week. It was a surprise to here last week. It was a surprise to here last week.

The fair was a great success. The live stock show was also creditable. The display of fine art and school work showed much skill.

The fielding academy has more high school students this year than ever before. The new Agricultural course introduced by Prof. Henson is attracting a good attendance.

People are very late in getting their fall work done this year because of the lateness of the season. Two inches of snow fell here last week and the weather now is rather cold.

Frank O'Neil was sentenced by Judge Budge to ten years at hard labor in the state penitentiary for attempting to assault on a prominent young lady of Paris.

FIRST DEATH OCCURS AT SAMARIA IN 18 MONTHS.

SAMARIA, Oct. 21.—Mrs. Elizabeth Morris was called to the great beyond Saturday morning, Oct. 13, 1906, was the daughter of James and Mary Davis. She was born May 15, 1887, at the village of Altweien, county of Glamorgan, South Wales, G. B.

When but a girl Mrs. Morris became a convert to the Mormon Church and has ever been a faithful member.

Sometime in June, 1898, she left her native land for Utah, arriving sometime in September of the same year, making the trip across the plains by stagecoach. She was always cheerful and happy, contented with her lot.

Mrs. Morris became the wife of Hugh Conway Morris, Sept. 18, 1888. She and her husband made their home in Salt Lake City until 1892 when they moved to Samaria, Idaho. This has been their home up to her death.

The funeral was held in the Samarian Assembly hall, Tuesday, Oct. 16, at 2 p. m. Bishop D. E. Price presiding. Elders C. R. Thomas, I. B. Evans, David Jenkins, Jeremiah Williams, Jessie Dreige and Bishop Price were the speakers.

This is the first death in the last 18 months, and at present the health of the people is good.

The past season has been a prosperous one—good crops on every hand.

RELIGION IN IDAHO STATE REFORM SCHOOL.

To the Editor.

"Religion of the Saints is Taught in the Idaho State Reform School," are the head lines in the Tribune reported to be from Mrs. Jessie Fisher. She protests strongly against such actions on account of her son being confined there. My heart goes out in sympathy of Mrs. Jessie Fisher, or any other mother whose boy is confined in an institution of reformation. Perhaps if religion, principle and love were instilled in those unfortunate children, their actions would not have brought them to the reform school. I do not think it is injurious for children to conform to the religious teachings or rules of a school. I was told when I put my daughters in the Notre Dame college, a catholic school, that I would surely ruin them by making Catholics of them. My reply was they had better be a good Catholic than a poor Protestant. I am afraid Idaho and Utah are suffering from a political and religious epidemic.

IS THE MOON INHABITED.

Science has proven that the moon has an atmosphere, which makes life in some form possible on the satellite, but not for human beings, who have a hard enough time on this earth of ours; especially those who don't know that Electric Bitters cure Headache, Biliousness, Malaria, Chills and Fever, Jaundice, Dyspepsia, Dizziness, Torpid Liver, Kidney complaints, General Debility and Female weakness. Unequalled as a general Tonic and Appetizer for weak persons and especially for the aged. It induces sound sleep. Fully guaranteed by Z. C. M. L. Drug Dept., 112 and 114 So. Main St., druggists. Price only 50c.

We have standard used Pianos, and fine new Pianos. Call N. Y. & Western Piano Co., 32 Market, near Post Office.

This newspaper will be a dull one on the day—if that ever happens—when the ads in its columns contain no genuine hard-boiled facts. I am afraid Idaho and Utah are suffering from a political and religious epidemic.

NEWS OF THE WEEK FROM MONTPELIER

Work on Phosphate Mines Has Been Suspended on Account of Car Shortage.

TRIBUNE SLANDERS AGAIN.

Residents Indignant at Misrepresentations by Alleged Correspondent in Dubois-Kearns Sheet.

Special Correspondence.

MONTPELIER, Ida., Oct. 25.—Aside from a few runs of wind and intense cold, no inconvenience of the storm, which is sweeping over the country, has been felt here, and the people are making good use of the time and opportunity of getting their fall work done.

On account of a shortage of cars the working of the phosphate mines has been suspended for the present but it is understood that the work will be resumed as soon as the railroad company can furnish cars for the shipping of the product. Work in other directions is still plentiful and that all good wages so that no bodied person needs be idle. There has never been such a demand for labor of all kinds as there has been during the past season and the prospects for the immediate future are equally good. New capital has been brought in for the development of the copper belt lying just east of town and it is probable that this work will be pushed vigorously during the coming winter.

The health of the people is unusually good. This season of the year and it really looks as though some of the physicians would have to and more fertile fields in which to ply their vocations.

THE SAME OLD TRIBUNE.

The Salt Lake Tribune of Sunday, Oct. 21, 1906, again comes forth with its usual slander and vilification. The article is headed "Old Soldiers After Church Republican Convention at Bear Lake, Ida." Showed how Mormon Leaders Love the Veterans." The article then attacks Hon. E. A. Burrill, candidate for lieutenant governor on the Republican ticket and in effect that Mr. Burrill, who presided at the Republican county convention at Paris, when nominations for probate judge were being made, and Joseph Lewis of Durgie placed in nomination J. W. Langford, another old soldier, that Mr. Burrill then asked, "Have you any more old veterans to bring out?" The article also accuses Mr. Burrill of defeating Mr. Nowland who was an aspirant for re-nomination as coroner, both of these allegations are entirely false and unwarranted.

Mr. Burrill did preside at the convention and after Mr. Lewis had placed J. W. Langford in nomination before the convention Mr. Burrill asked if any one else had a favored son whom they wished to place before the convention, and if so to trot him out and the term "Old Veteran" was not used by him at all neither were his remarks made in a caustic or sneering manner, but were made in his usual jovial way without the least tinge of insinuation. As to his defeating the nomination of Mr. Nowland for coroner, he had no more to do with that than any other delegate at that convention. He may in fact not have voted against his nomination, a privilege granted every American citizen.

Those who know Mr. Burrill best, know that he is a man of principle and is in every way a loyal American citizen, the son of a veteran of the Union army, who fought and bled for his country.

The Mormon Church of this state has absolutely nothing to do with politics, and has in no way tried to dictate the political matters of the country. To those who are acquainted with the conditions here it appears a little strange that even the Tribune should engage in the publication of such unfounded slanders. It appears equally strange that those who are so persistent in crying out "Thief, thief," should themselves be the more guilty parties, but such it is in this instance.

HERE'S SOME "EASY" MONEY.

L. S. G. Crowley, an American citizen, without any outside influence being brought to bear, desire to offer a reward of five hundred dollars (\$500) for proof that any polygamist marriage has been celebrated by authority of the Mormon Church since the manifesto of 1890. The money will be deposited with Anderson Bros. bank of Idaho Falls.

The above legend was given to the Register today. Judge Crowley states he will put this money up in addition to the \$1,000 offered by V. S. Peet of Salt Lake and says that the \$1,500 should bring results of some kind if there are any results to be arrived at in this direction.—Idaho Falls Register.
