A feature was the continuous riding o Arthur McDonald of the Galvin and Mc Donald combination, for nearly nin-hours years that he has been riding abroad, will spend the winter in America, and early in the spring will return to England to resume riding there under renewed con-tracts with several waalthy turfmen who regularly retain him. Maher was the leading jockey of his time in the United States, and earned a large income up to the time that he went abroad, but his success in England has been such that his friends state that he now earns nearly double the amount that he was paid on the race courses here. His in-come is estimated by these friends at about \$50,000 a year. Donald combination, for nearly nine hours, Some of the watchers at the track side declared McDonald was almost twelve side declared McDonaid was almost twelve hours on his wheel. This the manage-ment denied, saying that such a continu-ous stay upon the track would be con-trary to the rules. The riders of the other teams relieved each other regular-ly but Garvin had been alling and Mc-Donald pluckly maintained the team's position for first honors. Dussot of the French-Swiss team fell early today and was said to have frac-tured a rib. He was on the track again tonight, however, and his manager de-clared the injury would not prevent his remaining in the race to the end.

European and American **Specialists** FAILED TO CURE ECZEMA

This Doctor Then Tried D. D. D. Prescription

For over 10 years I have suffered with Eczems on my hands. I tried leading specialists in Europe and America, and hone could do me a particle of good. My hands were swollen until they were like huge sorres. I did not dare to wash them properly, as I found that every soap I used made the disease grow worke. The European doctors knew no more than the American. I finally used Three D's Eczema Cure, carefully following directions, and I find that it is all that you claim for it, it has com-pletely cured me. I shall take great pleasure hereafter in recommending it to any patient. Yours truly, DR S. M. JONAS, Feb. 2, 1905. Shot Prairie Ave., Chicago What we do for others we can just as 18 6/11/11
