The strike, which was begun a week ago, has been marked by several re. sorts to violence, the strikers trying to drive off new hands. Today Contractor Griffin brought up a new gang of laborers from Mount Vernon and put them '- work. There was a force of deputy sheriffs in the neighborhood,but nevertheless, the strikers made threats and finally resorted to violence, stoner and other missiles being thrown. A general riot ensued, and many shots were fired. One bullet passed through Contractor Griffin's hat and the strik-ers attempted to mob him. Griffin made his way to White Plains, where he called upon Sheriff Malley. Addi-tional deputies were sent to quell the disturbance. About half a dozen of the ringleaders were arrested. There are now about 100 deputy sher-iffs and constables at the place. Contractor Griffin and his friends say most of the shooting was done by the strikers. This is denied by the strik-ing Italians.
