FRAGMENTS.

UTAH IS SHIPPING BEER TO COLORADO.
 SPRING opens to-morrow, March 21.
 Lead quotations: per 100 lbs. \$3.70.

The watering trough opposite the Tithing office is now in good condition.

Two new street cars have arrived and will soon be placed on the city lines.

PATRICK McCLINTY was arrested this morning for being drunk, profane and disorderly.

A small door key has been found in the Fourteenth Ward; the owner can get it at this office.

WITNESSES in the Dunford case were being examined before the grand jury this morning.

The case of Edly vs. Ireland, was being tried before a jury, in the District Court, to-day.

THE D. & R. G. W. pay car companies to distribute \$7,000 to the employees of that road to-day.

SILVER quotations, corrected daily by Wells, Fargo & Co., New York, 31.07, London 49. 1/2, 100.

A. C. EMERSON, of Ogden, was to-day appointed a notary public for Weber County, by the Governor.

COL. P. HOLMAN, of New York City, arrived this morning by the U. P.; his address is No. 10 Spencer House.

A REWARD is offered by N. W. Clayton, Esq., for his New Foundland dog, which was lost on Wednesday last.

The Codling moth is now appearing in great numbers in orchards, the fine spring weather having brought them out.

The bicycles are becoming very popular in this city. Another order of \$500 was recently sent east for Columbia Experts.

The two witnesses subpoenaed at Mr. Little's house, in the Fourteenth Ward, last evening, were examined before the grand jury to-day.

The Chickering piano to be used at the recital by Miss Hitchcock, on the 20th inst., has been tendered for the occasion by Calder Brothers.

The Utah Commission will meet in Washington on Monday, March 21. It is probable that Secretary Thomas will go east in time to meet with them.

The Patience company delivered the people of Ogden by their performance last evening. There is some talk of a repetition of the opera in that town.

The entertainment prepared by the 14th Ward Choir, which was advertised for last evening at the Salt Lake Music Hall, is postponed until next Tuesday, at 8 p.m., at that place. It is for the benefit of Henry Gardner.

TO-DAY R. K. Thomas announces in another column that he will commence business at the Eagle Emporium to-morrow with a new and choice line of dry goods selected with great care for the spring trade. He will also carry ladies' fine shoes of the best make. He has secured the services of Miss Naitt and Mr. Harry Fields, who have been employed at Jennings & Sons for several years, and Messrs. David and Isaac Emery, the well known clerks at Walker Bros., besides C. A. Lund and several others, all of whom are competent and obliging. Prices are fixed to suit the times.

LOCAL NEWS.

Commissioned.—The Governor to-day commissioned James MacMahon as coroner for Millard County.

Pardoned.—James Garlington, who was sentenced to a term in the penitentiary, in the Third District Court, May 24, 1884, was pardoned to-day by the Governor, the pardon taking effect March 21st.

Cricket.—A meeting of the Salt Lake Club will be held in the Shoe Factory, First South street, at 8 p.m., to-morrow evening, to consider matters of importance. All members and those interested in the game are earnestly requested to attend.

District Court Proceedings.—In the case of Edward Pickering vs. Ferdinand Dickert, was rendered a judgment of dismissal by consent.

In the case of Miranda McKee vs. J. E. Wilcox, submitted yesterday, the Court rendered judgment for the plaintiff.

The case of A. M. Eddy et al. vs. E. A. Ireland is in progress.

Paint Shop Burglarized.—Last night at a late hour the paint shop of Mr. William C. Morris, West Temple street, was broken into by burglars, who carried off a considerable quantity of painters' goods. The value of the stolen property amounts to, as near as can be at present estimated, about \$300. No track of the robbers has yet been discovered.

Jordan Range.—What used to be known as Jordan range, the extensive tract of country, mostly bench land, skirting the Ogjiville mountains on the west side of the valley, has been wonderfully transformed during the past few years. A person who used to be acquainted with that region when it was a common range for anybody and everybody to turn cattle and horses upon, and where, during the summer months one might travel many miles without being able to obtain a drink of water, would scarcely recognize it now as the same place if he had not noted the changes as they have occurred. Hundreds of habitations, more or less comfortable and pretentious, have been erected over there within the past few years, and many more farms have been taken and cultivated, the several canals traversing that country, which have been constructed at immense cost, and which have the Jordan river as their source, supply the necessary water for irrigation to enable the husbandman to transform the once dreary desert into flourishing fields. That region now presents a very busy scene. Thousands of acres of new land are now being broken up and planted with cereals, and the large fields of lucern with which that country is dotted, now begin to show up green and present a fine appearance. That region is now one of the important farming districts in the Territory, and destined to be much more important in the future than it is now.

THE LATEST RAIDS.

BY THE U. S. DEPUTY MARSHALS.

The deputies have pursued their labors this week with a zeal worthy of a better cause, but the fruits are not as satisfactory to the prosecutors as they could wish. On Wednesday Vandercook and a brother deputy, armed with a pocketful of legal documents, made a sudden descent upon the peaceful farmhouse of Mr. Charles Crismon, a short distance south of this city. They were met at the door by the lady of the house, who demanded to see their authority before allowing them to enter. They produced a search warrant and were permitted to ransack the building; but to their chagrin, the persons wanted were not found, and they returned crestfallen to report the failure to their superiors.

The next place besieged was the residence of Hon. George D. Cannon, near the banks of the Jordan, south-west of the city. About 7 o'clock last evening a company headed by Captain Greenman and Mr. Vandercook, presented themselves on the premises mentioned and demanded admittance to the house. Mr. Sandra Sanders, the gentleman employed to teach Brother Cannon's children, was the only man on the place at the time, and at first objected to allowing the officers to enter. They claimed to have the authority, however, and finally were allowed to come in.

They served subpoenas upon seven persons then present, including Mr. Sanders, the housekeeper, and several children, who were commanded to appear before the grand jury this morning, at 10 o'clock.

Deseret University.—The third term of the academic year of this excellent institution of learning closed to-day, and has been attended by over three hundred pupils from various parts of the Territory. The University is worthy of the most liberal patronage, and is constantly growing in popularity. The fourth and last term of the present year commences next Monday the 23rd inst.

The Coming Concert.—The Mammoth Orchestral concert to be given at the Theatre on the 25th inst., bids fair to be the grandest musical event of the season. Tickets are on sale at all the principal stores in the city, and great preparations are being made for a grand success.

"Buggy" Peas.—One of the common annoyances of spring planting is the presence of pea weevil in seed peas. The natural history of the insect is as follows: The adult beetle deposits the yellow eggs on the outside of the pods, in early summer. On hatching, the larvae bore through the pods, entering the peas and eating out the substance, leaving the germ untouched. On this account "buggy" peas will germinate, but, as they are deprived of the proper nourishment at the start, usually die before maturing. When full grown the larvae eat a hole in one side of the pod, leaving only the thin outer covering, before entering the pupa state, and sometime afterward the beetles come forth to lay the eggs for another brood. Many remedies are suggested, but one of the most effectual is to enclose the peas in a vessel and pour in liquid sulphate of carbon, then close tightly; the vapor will permeate the peas and kill the enclosed insect.

The Wood River Strike.—The miners employed on the Queen of the Hills mine at Wood River, Idaho, made a strike some time ago for \$4 a day, but thinking that affairs would soon be amicably settled, we have made but brief mention of it. It appears, however, that the miners are banded together in a Union and, on the principle of the dog in the manger, will neither work themselves nor allow any one else to do so until their demands are granted. The owners of the mine declare that the cost of mining, reducing and shipping the ore, together with the recent reduction of 25 per cent in its price, and the general depression in business, render it impossible for them to comply with the demands of the miners, and that they will be obliged to close down entirely if they cannot employ men for \$2.50 per day. They also claim that miners' wages in other Idaho camps are only \$1.50, in Colorado, Arizona and Montana \$3; and in Utah from \$2.50 to \$3; while provisions and supplies are as cheap at Wood River as in this city.

On the other hand, the miners claim that last year the dividends amounted to \$100,000, and that two have already been declared in 1885. They are obliged to pay \$2 per week for board, and as the mine furnishes them no bunk-houses, they have to pay from \$4 to \$6 per month for shanties to sleep in. Besides this, mines at Wood River are worked only a few months in a year, and the men are idle a great portion of the time. For these and other reasons, they are holding out for \$4 a day, and claim that the company can well afford to pay it.

A meeting of the Union men and the mining superintendents was held, on Tuesday, for the purpose of coming to an agreement, but as neither party would concede an inch, the meeting broke up in disorder. The Union miners armed themselves and were about to charge upon some non-Union men who were at work in the Queen mine for \$3.50 a day, and were only kept from doing so by the Sheriff and Prosecuting Attorney, who succeeded in having all work suspended, and persuaded the enraged strikers to desist. One report says the president of the Union, in a public speech, declared that the employers should pay \$4 a day, or the streets of Broadford and Bellevue would flow with blood. A guard, under Gen. Brieblin, sent to preserve order, were dispersed and scattered. Great excitement prevails, and it is expected that the Governor will be obliged to declare martial law.

Have you a cough? Sleepless nights need no longer trouble you. The use of Ayer's Cherry Pectoral, before retiring, will soothe the inflamed throat, allay the inflammation, and allow the needed repose. It will, moreover, cure the most stubborn pulmonary organs, and give you health.

Prof. Van Tassel. the balloonist, who made an ascent in a balloon, in this city, a couple of years ago, made a balloon ascension from the Exposition at New Orleans yesterday.
