Senate Passes Bill for Admission Of Oklahoma and Indian Territory.

DUBOIS' AMENDMENT DEAD.

Related to Polygamy in Arizona But Was Killed by Carrying of Burrows' Motion.

Washington, March 9 .- Today at 5:35 p. m. the senate passed a bill for the admission of a new state to be called Oklahoma, and to be composed of the territory of Oklahoma and Indian Territory. It was the house joint statebood bill with all the provisions relating to Arizona and New Mexico stricken out. The motion to strike out was made by Mr. Burrows, and it was carried by the close vote of 37 to 35, after having been lost by the still closer vote of 35 to 36.

The vote on statehood came as the climax of a day devoted exclusively to that bill. Most of the time was given to discussion, but the voting on the bill amendments consumed an hour and a half. The speechmaking excited comparatively little interest, but there was pronounced excitement throughout the voting period, and it cuiminated when the success of the motion to eliminate Arizona and New Mexico was announced after the second vote on that proposition.

This was carried by a vote of 42 to 29. The speechmaking began at 11 o'clock, and was under the minute rule after the first hour.

Atout a dozen speeches were made, but the notable ones were made by Messrs. Dubols and Burrows in denunciation of polygamy in Arizona, and New Mexico, Mr. Dubois secured the incorporation of an anti-polygamy amendment, but the elimination of Ari-zona from the measure detracted some-what from the importance of the ac-

complishment. Just before the voting began Mr. Cullom, who has been absent from the senate on account of illness during the greater part of the session, entered the greater part of the session, entered the chamber. He was warmly welcomed. As amended by the senate the bill provides for the creation of the state of Oklahoma out of Oklahoma and In-dian territories upon the adoption of a constitution. The state is allowed the usual quota of executive, judicial and legislative officers, two United States senators and five members of the na-tional house of representatives. A con-stitutional convention with 110 mem-bers, 55 of which are to be chosen by each of the territories comprising the state, is provided for, and all male cilizens or male Indians 21 years old are made eligible to membership in it. Towards the close of the debate. Mr. Beveridge and Mr. Foraker en-gaged in a sharp colloquy over the number and contents of lelegrams re-ceived by them, respectively. Among the messages read by the Ohlo senator was one saying that Mr. Beveridge had wired to Arizona asking that telegrams be sent him. The amendment was lost by a vote of 31 to 40. The increase of the election ap-propriation for Arizona from \$150,000 to \$175,000 also was disagreed to. The first test vote came on these money proposals, and the opponents of joint statehood scored a victory. The object of striking out the increase was to avoid the necessity of heating the tion of Arizona and New Mexico from the bill, and presented an amendment to that end.
