

WHAT THE CITY OWNS.

A resolution was offered by Ewing calling for a complete list and plat showing all pieces and parcels of lands now belonging to the city.

Mr. Ewing stated that he had been informed that the abstracts could be secured for from \$500 to \$1000. Referred to the recorder.

IT CAN CONNECT.

A resolution was offered by Karrick, authorizing the Pacific Paving company to connect with the water mains on Sixth West and Second South streets, the expenses to be borne by the company, under the superintendent of waterworks. Adopted.

APPROPRIATIONS.

The following appropriations were made, after which the Council adjourned for one week:

Mountain Stone company.....	\$1995 42
Joseph Silver.....	81 00
Elias Morris.....	68 02
Pacific Paving company.....	42 00

Total.....\$2469 44

SHOWELL'S INDICTMENT.

As the Council was at the point of adjournment, City Attorney Hall announced that Sanitary Inspector Showell had been indicted by the grand jury for maintaining a nuisance in Bingham canyon. The place in question is where the city's garbage, refuse and dead animals are conveyed by the Rio Grande Western railway. He recommended that the health officer and city physician visit the place and report as to whether it was or was not a menace to the health of residents in that locality. The Sanitary Inspector, he thought should be defended. So ordered.

A \$50,000 DAMAGE SUIT.

In the case of Allred and others for \$50,000 damages, for the alleged unlawful appropriation of waters by the city, the attorney was authorized to employ the necessary experts to defend the city in the case named.

It was after midnight when the council adjourned.

THE BOARD OF EDUCATION.

The regular monthly session of the Board of Education was held Tuesday night. The meeting was called to order by ex-Mayor Scott, who introduced Mayor Baskin as the new president of the board. That gentleman took the chair and the transaction of business commenced.

The members present were Nelson, Young, Pratt, Downey, Aff, Pike, Newman, Raybould and Baldwin.

THEY THANKED HIM.

The following resolution, offered by Vice-President Nelson, was adopted:

Resolved, That the thanks of this board are hereby tendered to President Scott for the efficient and courteous manner in which he has presided over the sessions of this board.

BETTER ACCOMMODATIONS.

A large number of residents of school district No. 10 represented that their children did not receive the opportunities for education during the school year that they were entitled to. They asked that more school room and additional teachers be employed in order to remedy the evils complained

of. Committee on school work and sites and buildings.

THE RETIRING TREASURER.

J. B. Walden, the retiring treasurer of the board, sent in a communication in which he recommended that the salary of the treasurer be made proportionate to the services rendered, and that warrants issued by the board be made payable at a bank, instead of at the treasurer's office. Mr. Walden reported that the cash paid during the past month was \$13,593.16, and the overdraft of the 1st of March was \$25.25. Filed.

FLAG POLES.

The committee on sites and buildings reported that two bids had been received for the erection of flag staffs on school buildings, but one bid had since been withdrawn because it was impossible to determine correctly the amount of brick necessary. The original estimate of \$1000 would not cover the expense, and the committee recommended that in small buildings the twelve small flags and poles be placed behind the teachers' desks; that the large flag poles, suitably rigged, be erected in the school grounds, in cases where the property was owned by the board, and that on such buildings as the Eleventh and Fourteenth, permanent iron masts be placed upon the buildings. Adopted.

SITE PURCHASED.

The committee on sites and buildings recommended that lot 3, block 6, plat B, 10x20 rods, facing west on Fourth East, between Eighth and Ninth South streets, be purchased from Mrs. N. F. Millspaugh, of Los Angeles, for \$6500, cash. Adopted.

HEATING AND VENTILATING.

The same committee reported it had investigated systems of heating and ventilation for the Eleventh and Sixth school buildings, and was of the opinion that a system of indirect steam heating designed by Architect Kletting be adopted. The committee further recommended that as the perfect heating and ventilating of all the large new buildings was of great importance, a special meeting of the entire board be held to consider which system would be the best and most economical. The matter was referred back to the committee, with instructions to investigate and report as to the best system. Adopted.

THE BOND INCREASED.

The bond of the new treasurer, H. T. Duke, in the sum of \$100,000, was presented by Vice-President Nelson, but it was suggested that inasmuch as some \$450,000 worth of bonds were to be sold, the amount of the bond should be increased to \$300,000. After some discussion this was agreed to, and the bond was withdrawn.

Member Downey, having been elected to a position on the board of public works, tendered his resignation as trustee of the school board. Accepted.

DECLINE PAYMENT.

Territorial Secretary Sells returned the bill of the board for \$20 for cleaning and lighting schoolhouses in which elections were held last month, with the information that the Utah Commission declined to authorize the payment of the bill. Received and filed.

APPROPRIATIONS.

The following appropriations were made:

Pleasant Valley Coal company.....	\$ 482 75
Kelly & Co.....	15 00

G. E. Blair.....	35 00
H. Hicks.....	20 00

Total.....\$2468 16

THE SHEEP PETITION.

The following additional communications on the anti-sheep measure have been received by Governor Thomas:

FROM THE OGDEN BANKERS.

To the Honorable the Governor of the Territory of Utah:

A bill having recently passed both houses of the Legislature of Utah Territory now in session, the same being designated as "House File No. 65," and commonly known as the amendment to the sheep law, prohibiting the herding of sheep, cattle and horses within one mile of any stream that flows through a town or settlement in this Territory.

We, the undersigned, bankers of Ogden City, Utah, respectfully request and petition that you veto said bill, for the reason that we are satisfied that the same is pernicious, and class legislation intended to injure the sheep industry of the Territory, and that its effect will be to destroy the same.

We respectfully represent that the sheep industry in this Territory brings into the Territory each year foreign capital in the neighborhood of five million dollars, and that the same is the second largest producing industry in the Territory. That the money brought in by said industry is circulated within the Territory, and in the way of bringing money here to stay produces more than any other industry in the Territory.

We consider that if this legislation stands upon the books it will injure our business, and all of the mercantile business within the Territory, besides withdrawing from the channels of trade great sums of money, and would prove a universal misfortune.

We further represent that we are satisfied that no genuine benefit of any kind or character can result from the enforcement of such a law.
