"The Store Beautiful" is a place of sterling qualities in all things intended to make the Home More convenient and pleasing to look upon, where prices are figured closely at the outset, rather than a store given to the habit of price cutting and sale

In Tintic,

In Tintic. The controlling interests in the Ma-tilda company will unquestionably pass into the hands of J. R. Van Evera, the well known Michigan capitalist, says the Eureka Reporter. Mrs. Jacob Muntz of this city, who owned the bulk of the Matilda stock, recently gave James P. Driscoll an option on her boldings. Mr. Driscoll was acting for Mr. Van Evera and last Monday he made the first payment of \$1,000 to Mrs. Muntz. We have been informed that the dates specified in the option and that after the amount of \$10,000 has been paid over Mr. Van Evera will own all except a few thousand shares of the Matilda stock. Matilda stock.

all except a few thousand shares of the Matilda stock. The Matilda company owns one claim which is to the north of the Victoria. It has always been considered as being among the most valuable undeveloped ground in that section of the district. Reporter readers will remember that the control of the Little Chief mine re-céntly passed into the hands of Mr. Van Evera, who was elected president and general manager at the last meet-ing of the shareholders. This gentle-man has made a couple of trips to this camp and is very favorably impressed with possibilities of the district. Through Mr. Driscoll he is making an effort to secure other adjoining claims and expects to spend a great deal of money in the development of the ground which he has acquired.

A revival has set in, following the loca-tion of a group of claims a few weeks ago by C. H. Carnahan and Ed Carey. VISITS GOLD MOUNTAIN.

Other Mines of the South. W. B. Turpin and Mr. Mann of Washington, D. C., after an examina-tion of the Sevier Consolidated prop-erties on Gold Mountain, came down to Richfield Monday and spent the night with Mr. and Mrs. Charles Lam-mersdorf, says the Reaper. Both gentlemen are heavily inter-eted stockholdors in the company and they are most highly pleased with the showing that exists today. Mr. The pin read in the Reaper with great de-light the reports of wonderful reve-'lations which were brought to light in this property during the past win-ter, and sensational though they were, he was not prepared for the magnif-cent showing which exists there. "It was beyond my dreams," declared Mr. Turnin "Why Law during the the cent showing which exists there. "It was beyond my dreams," declared Mr. Turpin. "Why, I am fairly color blind with the dazzling sights I have wit-nessed in the Sevier's mines. Ore glittering in all the workings. It is a grand report that I can take back to my associates in this company, but I fear they will think I am endeavor-ing to deal them a lot of hot air, con-servative as I shall try to be. It is surely a wonderful property, and is turning out much better than any of us had ever hoped for. The Gold Mountain country is beginning to at-tract a lot of attention."
