FIFTY-FIRST YEAR

OHIO REPUBLICAN STATE CONVENTION

Senator Hanna Made Permanent Chairman -His Delegates Seated-Nash Renominated by Acclamation.

June 25 .- The Republican state convention re-convened at the auditorium hers at 10 o'clock. The great hall was packed when Temporary Chairman Foraker rapped for order and he was given a great ovation.

The committee on credentials presented a report, signed by twenty of its twenty-one members, in favor of the 'Hanna delegates" from Fayette couny. The report was adopted. The only Daugherty man on the committee ofered no minority report as was generally expected.

The committee on permanent organiz. ation reported it had selected Senator Hanna as permanent chairman and continued the rest of the temporary organization.' The report was adopted. Senator, Foraker introduced Senator Hanna as "the man who knew his busi-ness and how to attend to it." A great demonstration ensued.

CHAIRMAN HANNA.

Chairman Hanna returned his thanks for the honor and then stated that Sensior Foraker had already sounded the keynote and would continue to do the keynote and would contribute to do go in the campaign and that all Repub-licans in Ohio would be with him to a man. He culogized Foraker's speech and his record in the Senate and said all the people in Ohio were for his re-

election except the Democrate. He insisted that the coming contest in Ohio was one of a national charac-ter and on national issues. It was the most important period for the support and encouragement of the national administration.

He then reviewed the first administra-tion of President McKinley and insist-ed that his second administration was still more important for the domestic, insular and foreign affairs of the coun-try. He discussed the financial issues at length and insisted that the country manded a continuance of confidence the government in order to continue present prosperity. He appealed to Republicans to do away with all factional differences and stand by the president and a Republican Congress. In discussing the tariff he said this was no time for experiments in that line or any other. This was no time was no time the. This was no time for financial, industrial or other dis-for financial, He favored personal liberty He favored personal liberty long as it did not interfere with the ubile good and made no other allusion state affairs. Senator Hanna was to aded as he proceeded and also when he concluded. General Charles B. Grosvenor General the report the committee on resolutions which was adopted.

WAR WITH SPAIN.

Referring to the recent war with Spain, the platform sets forth that our vistory imposed responsibilities and obigations greater than any which have arisen in a generation. The blessings of liberty have been extended to millions of human beings. The Monroe doctrine has been firmly upheld. Regarding the trouble in China, the platform have:

latform bays: The prudent and successful manage-

ment of American interests in China by President McKinley has added new glory to American arms and American diplomacy.

CUBAN INDEPENDENCE.

In touching upon Cuban independence, it is stated that the nation's pledge to the island of Cuba Is being faithfully kept, insuring freedom and independence to ber people. Order has been maintained, the interests of the inited States conserved and the island United States conserved and the Island today is enjoying more national pros-perity than ever before. We congrai-ulate the people of Cuba upon wise and conservative action in favor of stable government. Porto Rico is fourishing beyond all her former experiences, Ha-wail's entrance into full territorial re-lations with the United States govern-ment her here worked by the most ment has been marked by the most marvelous progress known in the his-tory of those islands.

PHILIPPINE INSURRECTION.

In the Philippine islands a wicked insurrection has been suppressed, the chief leaders have a ken the oath of allegiance, and the anticipated large increase in our regular army has been rendered innecessary. Civil govern-ment, contemplating the largest practicable degree of home rule; has succeed-ed military control. The American educational system has followed the flag into these islands and personal freedom with an equality of rights heretofore to them unknown, is secured to every inhabitant.

All these beneficient results have been accomplished by the enactment into law of Republican principles and we congratulate President McKinley

ered at Eckman, two miles below here. Several were drowned at Shawnee and a good part of the town swept away. "All the women were conveyed from the hotel to the mountain side by means of the life line. Then the men left as the place was unsafe. When it came my turn I seized the line and plunged into the muddy current. In an instant my feet were swept from under me and was the fight of my life to reach the house on the south side of the street. The distance was not great and the water not more than three feet deep, but the current was almost presistible and even cows and horses were swept past me as I clung to the rope, which was the only hope. Friendly hands pulled me out more dead than alive. The hotel is still standing."

HUNDREDS ARE MISSING. Richmond, Va., June 25,-The Dis-

patch correspondent returned from the scene of the Keystone flood disaster today. There is no possible way yet to estimate the loss of life or property Hundreds of people are missing or are coorted missing and a large number o ead bodies have been recovered lverywhere is debris of wreeked homes moslished railroad ears and broken nd splintered household furniture and w and then the corpse of a victim ilroad iron was bent by the force of the water, iron bridges resting on their pler of solid masonary withsteod the strain but a moment and went down. The surging waters ate away railway bankments and cars loaded with tons coal were carried to destruction. The ikhorn and North Fork vallys were tade scenes of devastation and death a few short hours. The financial loss is unobtainable but it is estimated that it will take millions to repair the damage. The Norfolk & Western tracks for miles are washed out and it is impossible to say when their trains can be operated. Although the dam-age begins at Coaldale, Keystone and

Burke are the greatest sufferers. The two towns are practically one and form the largest place in the coal fields. Many non-resident miners were in Keystone on Saturday morning and num-bers of them whose names will never be learned perished in the flood.

A SCENE OF DISASTER.

grave.

The march of the "Mormon" Bat-talion from the Missoari to the coast can never be adequately described. The Richmond, Va., June 25,-A Dispatch correspondent, who returned to Blue-fields from the scene of the disaster this morning, describes the havoc as hardships encountered by those intrepid souls would not be believed if they were truthfully described, and while it is a remarkable thing that there are many men of that band still living, what must be thought when a visitian marched with them for a factor is now most appailing. He says that hundreds of people are missing or reported miss-ing, but discredits the first reports of the loss of life.

LOSS OF LIFE EXAGGERATED. Williamson, W. Va., June 25.-Re-ports from points south in the lower end of the flooded district indicate that the loss of life has been-largely exag-gerated. Probably not over 100 have perished and the loss may not reach 7. The greatest based is at Kovetone 75. The greatest loss is at Keystone, Vivian and Elkhorn. Not over half a dozen lives were lost in Tug river valley. On this stream the property loss is roughly estimated at a million dol-

But you know the people of England are slow and conservative. They cling to the and conservative. They cling to the practices of their fathers and an in-novation in their public policy requires a long time to develop. Free trade is an old and cherished principle. It has not hurt them much in the past because her imports were food supplies almost exclusively, and, of course, not being able to supply her own food, her free trade was an advantage to her, but now it is a suicidal policy." "Notwithstanding the menace the

THE PLATFORM.

The platform reaffirms the principles set forth by the last national Republican convention and continues:

The Republican party by its magnificent achievements has added luster to American history and under its adminstration of national affairs the United States has become a world power of the first class. Industry has revived, capi tal and labor are employed, plenty has succeeded want and the cry of the hungry and unemployed is no longer heard, from every quarter comes the demand for workmen at the highest wages ever paid to American labor. Our export trade has increased until it leads the world, approximating for the pres ent year \$1,500,000,000. The Republican party by its monetary legislation has established the gold standard, thereby removing the menace of an inflated currency and its attendant repudiation financial obligations, public and priate, and raised our credit above that of any other nation. A Republican ing has relieved the people by a reduction in direct taxation approxi nating \$40,000,000, and our national treasury shows a growing surplus has succeeded a domestic deficit.'

PRINCIPLE OF PROTECTION.

The platform sets forth that the principle of protection has achieved its most signal triumph in the results of the Dingley tariff law and that the Re. publican tariff policy has made the larmer and laborer more prosperous ever; re-affirms all declarations heretofore made by the Republican par in favor of reciprocity; favors the further strengthening of our navy and such legislation as will restore our mer chant marine to pre-eminence upon the sea; urges the speedy construction of an American ship canal through the American isthmus as an imperative public need; recognizes the right of both abor and capital to combine when such mbinations are wisely administered r the general good, but opposes comwhich create monopolies to intions atrol prices or limit production: asks for a renewal of the wise provisions for restricted immigration of Chinese into this country; expresses gratitude to the | journed.

Treat divide except Mrs. Kimball. The exercises in the afterneon, which

ero presided over by General Robert

T. Burion, were conducted on the band stand in the center of the dancing floor.

The exercises opened with the audience rendering "America," and the invoca-tion was offered by Prest. Joseph F.

The audience sang, "Hard Times, Come Again No More," and then Bishop O. F. Whitney, whose father, H. K. Whitney, was a major in the Legion, vas announced to address the veterans. The bishop traced the history of the Legion and the battalion from their organization until they were disbanded. He spoke of their deeds in ringing

words of eloquence and so vividly he described the scenes of the past, that the veterans lived again in the stormy past. After the address Prof. Lund, Messrs, Pyne and Boshard brothers rendered a vocal selection. They were encored unthusiastically. The audience sang, "The Star Spangled Banner," and Apostle Heber J. Grant announced the following committee which had been appointed to endeavor to secure an indemnity from the government for the veterans: Robert T. Burton, Brigham Young, John R. Winder, H. B Clawson, John Clark, David McKenzle, George Romney, George M. Ottinger and T. G. Webber. The closing prayer

was made by Apostle Grant. After the program was over the veterans gathered together in little bands and brought forth from the pages of their memories stories ten times more strange than fietlon and too romantic for mere history.
