HERMANN CASE GETS INTERESTING

Senator Fulton Recalled and Asked About His Relations With Goslin and Burke.

VERY AWKWARD SITUATION.

Senator Denied Having Written a Certain Letter and District Attorney Produced It.

Washington, March 5 .- Senator Fultox of Oregon was recalled today to the stand upon the resumption of the trial of Representative Binger Hermann of Oregon, charged with the destruction of public records while he was commissioner of the general land office, Senator Fulton said that while he was acquainted with William G. Goslin and W. E. Burke, he never was identified with either of them as counrel. He testified that he had no recol lection of sending a telegram to Her-

lection of sending a telegram to Hermann requesting that he use his influence to secure a compromise in the case against Goslin and Burke. Goslin had talked to him about the matter, but he was too busy to undertake any additional work at that time. He remembered distinctly seeing Dist, Atty, Hall, but said he did not act in the capacity of counsel for the man.

Dist, Atty, Baker introduced as evidence a letter from Senator Fulton to Dist, Atty, Hall asking him to secure a compromise of the case against Goslin and Burke, in accordance with a letter which he had received from Commissioner Hermann, which he enclosed to Hall with a request that it be returned to him. Mr. Baker said that it was his understanding that the charges against Goslin and Burke had been dismissed.

against Goslin and Bucke had been alsonissed.

Senator Fulton on cross-examination said he knew George Brownell. In answer to a question by the district attorney, he replied that he did not promise to support Hall for re-appointment as district attorney if he would not indied Brownell. Asked by the district attorney if he had not written a letter to Hall, Senator Fulton replied:

"I did not so write to Hall."

On an intimation from the district attorney that he could produce such a letter. Senator Fulton said:

"I would like to have you produce it."

Senator Fulton was excused from further attendance on the court, and Senator Teller of Colorado was called to testify as to the character of Binger Hermann. He said that he had known Hermann for about 29 years, and that is reputation for honesty and integrity had been good during that time. Senator Teller testified that when he was scretary of the interior he kept personal letter press books which contained his answers to letters giving him information about the department, "When I left the department," when I left the department, "When I left the department, "The senator's recollection was that he supplied the books himself, but he could not remember definitely. He said that letters from personal friends regarding the status of cases were put in his personal books.

Senator Thomas H. Carter of Mont-

sonal books.
Senator Thomas H. Carter of Mont-Senator Thomas H. Carter of Montaina, who was commissioner of the general land office in 1891 and 1892, identified letter press books containing the record of letters written by him during his administration of the land office. He left these books in the office, but said they were subsequently sent to him. They remained in a package under seal for a long time, until he sectionally discovered them, when they were returned to the land office, as being documents pertaining to that office.

Senator Carter agreed to return to Mashington next week for cross examination by the defense.
Henry Meldrum of Oregon City, Or., was recalled to the stand and cross examined by Mr. Worthington for the defense, after which court adjourned for the derivation.

BUTTE DRIVERS WALK OUT.

BRITTE DRIVERS WALK OUT.

Butte, Mont., March 5.—The Industrial tie-up was accentuated this morning by a walkout of drivers of transfer wagons. The men demand an increase from \$3 to \$2.50 per day. No baggage can be hauled to or from the depotes at present.

The stereotypers and presamen being willing to return to work at the wage scale prevailing before the last raise, only the printers now stand between the local dadles and a settlement. But concessions on either side are still improbable, and despite rumors to the contrary, a rapprochemen is not immediately at hand. The miners' union is electing officers to-day.

Before the case was called attorneys for Greene and Gaynor announced that the appeal is based upon nearly 200 assignments of error, classified under 15 subjects, including the extradition proceedings, the statute of limitation, the question of whether New York or Georgia courts have jurisdiction and the claim that the jury which convicted was not legally qualified.

Counsel for the government move for six weeks postponement upon to ground that they had not had time to properly read the brief of the defense. The court allowed a postponement until the first Manday in Aprel

the appearance of Ruef.
Shortly before noon the bailiffs who had been sent after Ruef reported to the court that they had been unable to find him. Judge Dunne was very augry at this report and declared from the bench that he would have the orders of his court obeyed and would have Ruef in court if it were necessary to go out among the people at large and secure a posse that would compel his attendance.

Francis J. J. Heney suggested that Detective Burns be nominated an elisor to go after Ruef, stating that he would guarantee to have him in court within half an hour, but Judge Dunne said he comply with his order, and a recess was taken.

GUERIN CASE.

Coroner's Jury Unable to Decide Whether it Was Murder or Suicide.

Whether it Was Murder or Suicide.

Chicago, March 5.—A coroner's jury was unable today to determine whether Webster Guerin, the artist, who was found dead in his studio last week, came to his death from a shot fired by himself or by Mrs. McDonald, who was in the studio at the time of the shooting and is now under arrest, charged with killing Guerin. The jury was out for ever eight hours, and finally decided to return an open verdict.

The case will now go to the grand jury and the criminal court. After the verdict Coroner Peter Hoffman said:

'I am of the opinion that the verdict will be approved by the criminal court. In the evidence produced today at the inquest there was nothing to show conclusively that Guerin was shot by the woman, while there was testimony that gave rise to a reasonable doubt, and this undoubtedly influenced the jury in their decision.

THE BRITISH NAVY.

It is the Largest and Cheapest in the

World.

London, March 5.—In introducing the navy estimates in the house of commons today the parliamentary secretary of the admiralty. Mr. Robertson, went over much of the ground covered in the memorandum on the subject referred to in these dispatches Feb. 28. He said the admiralty believed the two-power standard would be adequately maintained by the proposed program for tained by the proposed program for construction. During the past 10 years Great Britain had added 1,132,205 tons to her navy, while Russia, France and Germany together had added only the sew tense.

1.108,208 tons.

The British navy was the cheapest in the world. It costs \$445 per ton. That of France costs \$620; Russia, \$465; Germany, \$485. Two years hence Great Britisin will have completed six new battleships, including three of the Dreadnought class and three armored cruisers of the Invincible class, while neither France nor Germany would have a single ship of those types completed. The home fleet was a logical development of its concentration in home waters and furnished additional security against the remote risk of invasion. The channel fleet was now stronger than in 1905.

A Famous Doctor's Prescription Checks an Acute Cold in a Day and Cures Chronic Coughs.

The wonderful healing powers of pine have been known for ages, but the comparatively new form of pine product which has the quality of being soluble, thus enabling it to be used in a more pleasant manner and which is now being generally prescribed by doctors, is known to the professions as Concentrated oil of pine. A Philadelphia lung and throat specialist declares that the formula in which he now uses the Concentrated oil of pine has produced remarkable results, often entirely curing a severe cold in twenty-four hours. This formula is very simple and the ingredients can be obtained of any good prescription druggist and mixed at home. It is as follows: Mix a half onnee Concentrated oil of pine with two ounces of glycerine and a half pint of good whisky; shake it thoroughly, and use in tablespoon doses every four hours.

four hours.

The Concentrated oil of pine comes put up for medical use only in half ounce vials which are securely sealed in screw-top boxes and plainhalf ounce vials which are securely sealed in screw-top boxes and plainhalf ozone, as well as protecting the finid from atmospheric changes. Care should be taken not to get any of the patent medicine imitations using similar name and package.

These can be avoided by making sure to get the "Concentrated" oil of pine. It is also said to be a splendid specific for rheumatism and lumbago. For this purpose it is taken raw on sugar, a few drops each night and morning. No family medicine chest should at any time be without this powerful remedy.

SAVED FROM SWINDLERS,

Madrid, March 6 .- A detective in the railroad depot at Villa Alba, has, it is alleged, saved D. A. C. Dominguez, of San Francisco, Cal, from being mulcted of \$1,000 by a gang of swindlers. GIVE THE CREDITOR A CHANCE!

(Salt Lake Herald editorial, March 3, 1997.) A good deal of the time of the legis-

been violating the law, they ought to be reached either by legislation or by court proceedings.

It ought not to be forgotten, however, that most of the complaints have come from people who were trying to defraud their creditors—a class of deadbeats who are entitled to neither sympathy nor maudlin consideration at the hands of legislators. No man who pays his debts promptly has been heard yowling about the injustices of the Murray courts; numerous cases have gone to the district courts from Murray with a uniform record of affirmation for the Murray judgments. Nearly every prominent merchant in Salt Lake will agree that such accounts as have gone to Luke have been desperate accounts commonly known as dead ducks, the kind of accounts that creditors usually regard as hopeless. While the cases of injustice have been halled far and wide by the suffering debtor, the thousands of cases where the professional deadbeat has been compelled to settle for what he owed have not been commented upon at all.

While the legislature is spending so much time finding ways and means for the protection of the man who does not and will not pay his bills, it might well spend some time safeguarding the firms and companies that have to bear the losses incident to dishonest debtors. Altogether too much attention has been paid to the woes of the "innocent" debtor. He never pays his share of public taxes or private indebtedness: he dodges and shirks his duty as a citizen and as an individual; he is a burden on honest men because all credit business has to pay the losses due to his dishonesty. He is entitled to just so much protection as will make him pay what he owes—and no more."—Salt Lake Herald, March 3, 1907.
