By carefully examining DeLand's Chemical Baking Powder with the microscope and with chemical reagents, I find that it is free from Alum, Starch, Flour, Bone Ash, Ammonia and White Earth; and that it consists essentially of Cream of Tartar and Bi-Carbonate of Seda.

The Baking Powder examined I purchased at Barnes & Davis, in this city.

SIMMONS

Up to a few weeks ago I considered myself the champion Dyspeptic of America. During the years that I have been afflicted I have tried almost everything claimed to be a specific for Dyspepsia in the hope of finding something that would afford permanent relief. I had about made up my mind to abandon all medicines when I noticed an endorsement of Simmons Liver Regulator by a prominent Georgian, a jurist whom I knew, and concluded to try its effects in my case. I have used but two bettles, and am antisfied that I have struck the right thing at last. I felt its beneficial effects almost immediately. Unlike all ether preparations of a similar kind, no special instructions are required as to what one shall or shall not eat. This fact alone ought to commend it to all troubled with Dyspepsis.

Hebegas by a review of the youthful days of the country, and after speaking at considerable isnath on the saving induces of Hamilton, the leadership of Jefferson, elequence of Webster in the critical period, etc., said, referrig to the West, that there is no parallel to its growth and influence upon the world. The West, the child of the Union, met slave power with the pleage of its young and hetelo life for their enforcement. After speaking with a defiant assertion of the inherent power of the nation, and with the pleage of its young and hetelo life for their enforcement. He said: "The best of Presidents have lowered the standard of their administration when seeking a second term. The present Excentive is an officer highly esteemed for his singular honesty and directors of Government and for ignorance of the great issues before the country. With perfect frankness and honest intention to carry out hapledges, he defied the tradition of his party in bold niterances for civil service reform. He both understood and believed he had courage and power to make good his word. The best sentiment of the country is overwhelmingly behind him on the question, and yet as the canvass of 1980 pens the tremendous advantages of an auxiliary force of 100,000 faithful workers has referenced the known and implied powers of the President become of increasing value. He should, however, by constructional prohibition be made from and with the growth of the republic, the known and implied powers of the President become of increasing value. The speech was received with great

ar plause.
In the evening a grand banquet was given at the club house, at which Justice Harian was the principal speaker.
The remarks of Justice Harian were devoted to the Supreme Court. Referring to the complaints of slowness in its work, he said that those who thus complained are without accurate information as to the amount of its business. In 1886 the docket had in creased to 1896 cases, of which 451 were disposed of during the term. The business. In 1886 the do that in creased to 1896 cases, of which followere disposed of during the ter. The court moved with all the rapid. Y that is possible. The remedy for the a fect in our judicial system, said Just. The Harlas, is with snother branch of the igovernment. It is for Congress to provide an adequate judicial force for the prompt disposal of business in all of the Federal courts, including all intermediate court or court of appeals, which may finally determine many cases that under the existing legislation may be brought to the Supreme Court. The Constitution makes provision for one Supreme Court without expressing any opinion as to whether its division into sections would be admissible. Many say it would be unfortunate for the country if that court should ever be so enlarged in the number of its members as to practically convert it into a town meeting on questions of the Constitution or general laws.

Congressman Butterworth spoke on "Commercial Relations with American Neighbors," and Andrew Carnegle on "United States Citizenship."

General Ben Harrison, of Indiana, responded to a toast, "Washington, the Republican;" Hon. Joseph G. Cannon, of Illinois, spoke to "Washington, the farmer;" General Green B. Raunto "Washington, Founder of the Great Republic," and James B. Foster, President of the Republican League of the United States, to "Washington, the President."
