SUDDEN DEATH OF THOMAS SHIPLEY

Old Time Resident of Weber County Succumbs to Heart Failure.

CAMPAIN FOR PURE FOOD.

Rapid Transit Extensions—High School Building Nearing Completion—Banquet for Bostaph.

OGDEN, August 18.—Thomas Shipley, an old time resident of Weber county, died suddenly yesterday morning at the family residence, rear of 2338 Lincoln avenue, after an illness of many months. Death is supposed to have been due to heart failure, as he complained of pains around his heart the evening before when he retired. When his wife went to awaken him she discovered that he was dead.

Thomas Shipley was born at Percy Main, Northumberland, England, July 24, 1833. In 1860 he became a member of the Church of Jesus Christ of Latter-day Saints and came to the United States. He arrived in Ogden in 1869 and has made this place his home ever since. He has been a faithful member of the Church and one of its foremost workers. He is survived by a wife, a son, George Shipley and five grandchildren.

The funeral services will be held

Thursday at 2 p. m., at the Third ward meetinghouse. Interment will be in the city cemetery. The body will be in state at the family residence on the day of the funeral between the hours of 10 and 1.

PURE FOOD CRUSADE.
OGDEN, August 18.—The fruit and vegetable dealers of Ogden are now on the rack by the pure food authorities of the state and city and all vendors of fruits and vegetables in the city who are found with stale or decayed produce will be liable to punishment if caught trying to dispose of it. George Shorten, the city sanitary inspector, has been making a rigid inspection of the wholesale houses, grocery stores and fruit stands looking for every kind of stale, decayed, cantaloupes and stale fruits of various kinds.

The various butchers and milk dealers of the city and county charged with violating the pure food law of the state will have their hearings in the municipal court before Judge Murphy tomorrow. The warrants in the cases have been served upon the violators and the butchers who are alleged to have used "freezing" will have their first hearing.

JUNKETING CONGRESSMEN.
OGDEN, Aug. 18.—Sunday afternoon a congressional party of 25 statesmen will arrive in Ogden in a special car attached to the Overland Limited, on route to San Francisco and Honolulu. The party is headed by Hon. J. B. McClellan and many of the congressmen are accompanied by their wives.

The "junketing" statesmen will spend a number of weeks on the Hawaiian Islands investigating the fortifications that are being erected by the government.

SWITCHMAN INJURED.
OGDEN, Aug. 18.—George Patch, a switchman, in the employ of the Rio Grande Western, had his leg severely injured yesterday afternoon, in the local railroad yards, by the explosion of a torpedo, supposed to have been placed on the track by mischievous boys. Patch was riding on a car which exploded when the torpedo and the full force of the explosion went against his leg. Fortunately Mr. Patch escaped with a number of lacerations on the leg which is thought will not be serious.

RAPID TRANSIT EXTENSIONS.
OGDEN, Aug. 18.—It was rumored on the street that the Rapid Transit Railway company is intending to make some more extensions before the winter sets in. Among the contemplated extensions it is stated, is a line to West Ogden, Wilson Lane and West Weber, and eventually to the sugar factory. A line to the western part of the county, which is as thickly settled as any in which interurban lines pass in this county, has been sought for by its residents, who would be willing to build the grade in the Wilson lane if the county would grant franchise and the company would build. It is stated that the only thing that has kept the street car lines from West Ogden has been the numerous railroad tracks. This trouble is now eliminated by the twenty-fourth street viaduct which was built with care and provision for a street car line across it. It is stated

that some action will probably be taken on this matter within the near future.

Every effort is being made to make this the banner school year. The first and second years' courses in high school are to be given. The work in manual training is to be pushed; new tools and several hard wood benches are being added to the equipment, and it is very probable that one of the latest and best typewriters will be furnished for the business department. Plans are also being arranged for the establishment of a public library and gymnasium near the school.

Four instructors will be engaged in the regular work of the high school, and prominent educators of the state will give a series of lectures. Public recitals, musicals and dramatic work, will be made special features of the year's work. A mid-winter and spring exhibit will also be arranged. Other workmen of the building went to his assistance and called Dr. William Whitlock to attend him. He was taken to the Layton hospital and will probably be there for several weeks. His face is scratched and no received severe bruises on his head. No bones are broken. Tonight he is resting as easily as could be expected.

The second crop of alfalfa hay is in the stack. The yield, however, is very light, owing to the extended drought. Dry land grain is all cut and mostly threshed. Some dry farms yielded as high as 40 bushels of wheat per acre. The tomato crop promises well; some farmers are now gathering a few ripe ones.

Up to date the William M. Roylance Produce company has shipped from the farms of this section wars of potatoes, and it is estimated that at least 10 cars more will be shipped out before the season ends.
