LA MIKE NOT GUILTY.

LA MIKE NOT GUILTY. The jury in the case of the State vs. Elle La Mike yesterday spent about five minutes in bringing in a verdict of not guilty for the Austrian. La Mike was charged by Mike Musga, a compatriot of the eastern empire, with having held him up and relieved him of \$16 early in last December. La Mike was held in the county jail to await trial in default of bail. Some time later the complaining witness, Musga, got mixed up in a cutting scrape and he, too, was imprisoned in the county jail to await his trial. The two men became fast friends, and yesterday Musga said La Mike "never touched him," that he never had as much as \$16, anyhow, not on that night, and as there was no evidence on which to hold La Mike, he was, as stated, re-leased in short order by a verdict of not guilty. guilty.

Addle McCarty told the court that her husband, Ed Mc-Carty, gave her a \$5 bil one time, but went to Nevada right after and wrote her to get the \$5 back. She said he was awfully stingy, so much so in fact, that she was compelled to go out working to support herself. Mary E. Crowton, who yesterday morning filed her suit for divorce from her husband, got the decree in the afternoon.

ESPEE FINED \$200. When the jury which sat through the trial of the case of the U. S. A. vs. the Southern Pacific went into its chamber yesterday afternoon, it con-sidered eight counts against the S. P., each being an allegation of violation of the safety appliance act. It finally decided that the government had proved but two counts, so brought in a verdict to that effect. The railroad must pay a fine of \$200. More cases are to be tried yet. Those heard yes-terday were the first of a long series.

force Arbitration Board's Findings. The Granite Lumber company to-day filed suit in the district court against the Cummings-Nielsen com-pany to recover the sum of \$647.11, to-gether with interest at 8 per cent from April 15, 1908, alleged to be due on ac-count of an arbitration award made in favor of plaintiff in a dispute between the parties over a building contract. The controversy was over the erection of a building situated at Nos, 54, 56 and 58 east South Temple street, Salt Lake City, and at request of defend-ant the matter was submitted to arbi-tration, the arbitrators selected being John M. Cannon and Theodore To-biason. The arbitrators agreed upon an award and submitted to the prin-cipals, said award requiring the pay-ment of \$800 to plaintiff by defendant. Judge Morse Takes Matter Under Advisement for Final Decree.

Arguments in the celebrated Progress company's suit against Salt Lake City and several hundred other defendants, were concluded in Judge Morse's court at 11 o'clock this morning. His honor, after listening all week to the statements of nearly a score of attorneys, representing the various interests in the suit, took the matter under consideration, together with the transcripts of evidence of more than 212 witnesses, and with this mass before him, Judge Mcrse will re-tire to his chambers to go over it in detail. It is expected several weeks may elapse before a decision can be reached. The submission of this case marks the beginning of the end of one of the hardest fought and most hotly contested cases in the annals of the courts of this city, and involves the right of the city, and in-cidentally the rights of all parties concerned, to the waters flowing through the big conduit from Cotton-wood canyon. Was Convicted of Murder of Egan at The Old Resort Saloon In 1898.

The state board of pardons met this noon at the state prison where considerable business was transacted, and a comfortable dinner disposed of. The principal action of the day was the pardon of Jesse F. McMillan, formerly pardon of Jesse F. McMillan, formerly a resident of Wyoming, who was bar-keeper at "The Old Resort" saloon in 1398, and because of his connection with the fatal doping there of "Old Man Egan" at that time, he got 20 years, while Phelps, the man who is said to have furnished the drug and "put up the job," got a life sentence, being fortunate in escaping with his life.

McMillan has always proved "a model prisoner," and being an intelli-gent man with considerable administragent man with considerable administra-tive ability, has occupied positions of trust at the prison, trust that he has never betrayed. His services in be-half of the maintenance of order at the time of the famous outbreak of October, 1905, were effective, resulting in a commutation of sentence, so that his time would have expired on the 29th of this month. But as he wishes to return to Wyoming, and there was a 29th of this month. But as he wishes to return to Wyoming, and there was a fear of abridgment there of his civic rights in consequence of having "done time" without paróon, numerously signed petitions were secured in this city, Rawlins, Laramle and Cheyenne, asking official elemency. The board was pleased to grant the petitions, and a pardon was granted to take effect on the 25th inst., four days prior to the expiration of McMillan's sentence. He expects to return to Wyoming and en-gage there in mercantile pursuits. As far as is known McMillan bore a good name and character while living prename and character while living pre-viously in that state.

INCREASED PAY FOR ARMY PRACTICALLY ASSURED

Washington, April 17 .- The army is practically assured of an increase in pay. The conferees of the senate and house have reached an agreement on this item of the army appropriation bill substantially along the lines of the senate amendment, which graded the authorized increases according to the various branches of the service. No agreement has been arrived at on the amendment to the appropriations for barracks and quarters, which was in-creased to the extent of \$1,472,580 by the senate struck out also a provision that not more than \$1,000,000 should be used for new construction and not more than \$100,000 at any one post. The house conferees take the position that in the form which this appropriation has been left by the senate it would be possible to divert practically the entire amount to one section of the purpose of Congress. So dissatisfied did the house conferees become at the last session that they voted to postauthorized increases according to the

or reconections over those days and the humorous anecdotes he relates of his associates are simply irresistible. Mrs, Wilson often travels with her husband, but does not appear pro-fessionally. It is her custom to pass from the stage to the front of the house at will, and she never grows tired of laughing over the antics of her famous husband. Miss Wilson, who plays the part of Alice in "When Knights Were Bold" so charmingly, is now in her first season, and her bright-ness of action indicates that she has inherited something of her father's abilities. Miss Bruns is also a very young girl in the beginning of her profession, but she plays with a win-someness that is most captivating, and she handles herself with a grace rare-

Mrs. H. G. Mr. Wilson as a narrator of after-dinner stories is a perfect host, and the wealth of material that is stored in his mind regarding notables of the stage of past and present days would fill several volumes. The question under lively debate is "Shall the woolgrowers of Utah rent a warehouse in Boston and in it store their wool until prices higher than those offered now (10 to 13 cents per pound) are offered or not?" While the meeting is hardly begun indications point to the adoption of the plan with enthusiasm. But even if the plan is found to be favored, consider-able time must be taken to look up the details—such as the cost and extra able time must be taken to look up the details—such as the cost and extra expenses of such a plan. It is almost certain that some such step at least will be mapped out before this afternoon's meeting adjourns.
