Pleads Guilty to Lesser Crime to
Escape Certain Conviction
Of Murder in First Degree

THE PUBLIC SCHOOL OPENING.

Large Attendance at Fair—Freaks of
Lightning—Baby's Narrow Es-
cape—Beet Digging Starts.

OGDEN, Sept. 8.—In the case of the
State of Utah vs. Nick Vacos, charged
with the murder of John Contos, Vacos
appeared in the district court yester-
day afternoon with his attorney, Sam
King, and charged his plea of "not
guilty of murder in the first degree"
to "guilty of murder in the second de-
gree." Date of sentence was set for
Sept. 14.

Vacos was on trial, charged with
murder in the first degree, for killing
John Contos last April.
District Attorney Harris said the state
was willing to accept a plea of murder
in the second degree, but Vacos refused
to do so. He then asked to enter the plea
of guilty to the charge read against him.
The plea of guilty of murder in the
second degree carried with it a sen-
tence of from 10 years to life in the
state penitentiary.
John Contos, the murdered man, and
Nick Vacos had been close friends and
the former had backed Vacos in start-
ing a fruit store at the corner of Third
and Main streets and Lincoln avenue. Not
being satisfied with the manner in
which Vacos conducted the business and
made his payments, Contos threat-
ened to close the establishment and
quit the business. He announced this
purpose to Vacos and a short time
afterward Vacos entered the Contos la-
sary on Twenty-fifth street and de-
scribed shot his creditor to death in
cold blood. His arrest followed and
yesterday, after his plea had been ac-
cepted by the court, Vacos was in ex-
cellent humor and laughed heartily
with Sheriff Wilson as he was being led
to his cell.

PRIST BAIL FIXED AT \$20,000.
OGDEN, Sept. 8.—In the case of State
of Utah vs. Clarence Ernest, charged
with murder, at the request of his at-
torney, Judge Howell fixed his bail in
the sum of \$20,000.

GOOD ATTENDANCE AT FAIR.
OGDEN, Sept. 8.—The attendance at
the fair-state fair has been very large,
considering prevailing unfavorable
weather conditions. It is a peculiar
fact that rains were always considered
very means at this season all the great
fair association came into power
and since that date anything they
manage to produce an over
abundance of money from "Jupiter
Playing." The exhibits are very fine
and far surpass anything previously
seen in this locality. This is especially
true of the agricultural exhibit. The
fruit and vegetable are perfect speci-
mens and it is hoped the exhibition will
inspire a desire on the part of all fruit
raisers to equal the products shown.

SCHOOL OPENING.
OGDEN, Sept. 8.—The city public
school opened yesterday morning and
reports from Miss Miller office show a
pleased attendance. Much gratifica-
tion is being expressed by local school
authorities over the enrollment and
showing made at the sub-high school,
where the entire building is devoted to
eighth grade work.

LARGE FREIGHT TRAFFIC.
OGDEN, Sept. 8.—The local foreman
of the Southern P. Co., S. L. Southern Pa-
cific and Union Pacific freight houses
stated that yesterday more freight was
handled in his department than in any
day since he had been railroaded. This
is a veteran at the business. This
showed that Ogden is climbing upward
as a distributing point, as it has been
thoroughly demonstrated many times that
freight is handled at this point
than at any location west of Omaha.

LIGHTNING'S FREAKS.
OGDEN, Sept. 8.—About 8:30 yester-
day morning a lightning bolt struck the
house of A. T. Lockhead on Harrisville
road, near Five Points, and knocked
a hole in the plaster in the wall about
two feet from a little baby lying asleep.
The baby was not awakened. Mrs.
Lockhead, who was in another room,

**Let Your Boy Be

When a boy knows that his clothes
are just as good or a little better
than those worn by the other fel-
lows, he feels that he's in the right

to be well dressed. We believe in
putting style into boy's clothes as
well as into men's clothes. We
know, however, that boys' clothes
must be well made of good, strong

By recent scientific experi-
ments, Dr. Price, the famous
food expert, has recently pro-
duced a Wheat Flake Cere-
al Food, which is highly nutritious,
easy of digestion, and a most
delicious every day food for all
classes.

received a slight shock but was not
dangerously hurt. The transformer
and pole, belonging to the Utah Light
& Railway Co., in front of the resi-
dence, were badly burned and shattered
and a horse in the street was knocked
down. The effect of this bolt
blew the fuses in every transformer on
Harrisville road, about seven in all, but
the entire damage did not exceed \$100.
In another part of the city at the resi-
dence of Horace N. Olson, 534 Cross
street, a bolt of lightning struck the
house and set fire to the ridge pole.
The fire department from station No. 1
responded and extinguished the blaze
before much damage was done.
A third bolt struck a street car on
north Washington avenue and did con-
siderable damage to the motor, dis-
abling the car. No one was injured.

POLICE COURT.
OGDEN, Sept. 8.—In the police court
yesterday morning Judge Murphy sen-
tenced Nelson to 90 days in
jail. Nelson was arrested on a vari-
ous charge and plead not guilty, but
from the testimony of Detective James
Fender, it was shown that Nelson was
living with a paramour in Electric city
and was what is commonly known as
a "parasite." The judge is always
pretty severe with these fellows and
usually gives them the limit, as in the
present instance.

BEET DIGGING COMMENCES.
OGDEN, Sept. 8.—Despite the fact
that Monday was a holiday, many of
the farmers at Marriott were busily
engaged digging beet roots.
WEDDING PERMITS.
OGDEN, Sept. 8.—Marriage licenses
were issued yesterday to the following
couples:
Arthur M. Fraser of St. Stephens,
New Brunswick, Canada, and Florence
G. Yeager of Evansville, Ind.
Lige Christensen and Myrtle Conley
both of Coville, Wyo.

OGDEN BRIEFS.
Mrs. J. S. Groo and sister, Miss Jean
Terry, have returned home from a trip
to Seattle and the northwest.
Mike Ednaell, the Italian who was so
badly slashed with a knife by fellow
countrymen on Sunday night, will, it is
now thought, recover from his fright-
ful wounds.

Nelson B. Henry, who was taken ill
while at his desk in the office of the
Southern Pacific shops several months
ago and whose lapse of memory and
loss of interest attracted the atten-
tion of medical men at the time, has
returned from Texas and is apparently
in normal condition again.
Mr. and Mrs. A. A. Green announce
the engagement of their daughter,
Alice, to Mr. W. A. Kelly, the wedding
to occur soon.

The Central Coal & Coke company
have made no change in the price of
Rock Springs coal, and are still selling
it at \$5.75 per ton.

**UNANIMOUS FOR WATER
BONDS AT SANDY.**

SANDY, Sept. 7.—There was a very
light vote cast at the bond election to-
day. Forty-five votes were cast for
and none against the proposition of
issuing bonds for \$11,000 for the purpose
of buying a controlling interest in the
Salt Lake County Water company, which
supplies Sandy.
Schools will open here tomorrow with
an enrollment of about 600. Buildings
are in all readiness and the force of
teachers is also on hand.

**PROMINENT LEHI CITIZENS
CAUGHT IN A LANDSLIDE.**

(Special Correspondence.)
LEHI, Utah Co., Sept. 7.—On Sunday
last, while S. L. Chipman, J. H. Clarke
and A. J. Evans, the Alpine stake pres-
idency, were going to Cedar Fort in a
surrey, they were caught in a land-
slide, which took part of the road away
and let them down an embankment.
The gentlemen were able to jump out
and saved themselves, but the buggy
was demolished, one of the horses killed
and the other will probably die. Mr.
Evans escaped with a wrenched back.
The other two were unhurt.

LEHI BRIEFS.
The second annual "Good Time Car-
nival" of the Lehi Commercial club,
given at Saratoga Springs yesterday
was most successful and a large crowd
enjoyed themselves, dancing, boat rid-
ing, bathing, and other amusements.
The Lehi team won from Lehi. Quite a
number stayed at the dance in the
evening.
The public schools started yesterday
with a good attendance.

**SEVERE FLOODS IN
WASHINGTON COUNTY**
Dams Washed Out, Canals Destroyed
And Crops Washed Away or
Ruined by Rain.

(Special Correspondence.)
ST. GEORGE, Washington Co., Sept. 6.
The drought in Dixie has been broken
by a series of heavy storms, followed
by destructive floods.
Probably the greatest flood in the
history of the country passed down the
Rio Virgin on the night of Aug. 29 and
the morning of Sept. 1. It swept away
dams and carried away many acres of
farming land. The dam which sup-
plied water to the town of Hurricane
was carried away; the people will prob-
ably sustain a loss of \$1,000 in the dam,
besides the loss to crops, which is diffi-
cult to estimate.
The St. George & Washington Canal
company suffered a loss to its canal of
about \$600, with additional losses on
account of lack of water for crops. Con-
siderable hay and large quantities of
drying fruit, especially raisins, have
been damaged by the rains.
In what is known as the Jarvis Field,
several acres of farming land have been
carried away, the standing crops going
down with the flood.
The new steel bridge at La Verkin
had a narrow escape, but the main
way of the approach on the north side
probably saved the bridge.
The water rose high under the steel
bridge near St. George, in fact, a large
stream went around the bridge on the
south side, but the bridge itself was
not injured.
The Santa Clara creek has been run-
ning, and some land has been washed
away by this stream. The road was
delayed several hours as a result of
the floods.

DIXIE FRUIT FESTIVAL.
ST. GEORGE, Sept. 6.—The Dixie
Fruit festival, which is to be held in
St. George Sept. 9 and 10, bids fair to
be an epoch in the history of the Dixie
country. The promoters of the festival
are confident that the festival can be
induced to visit this section and partake
of the fruit in its perfect state, but
that something will be done in the
way of providing better transportation
facilities for the Dixie country. Their
slogan is, "Boost all the time for Dixie."

SCHOOLS OPEN SEPT. 12.
ST. GEORGE, Sept. 6.—The district
schools will open in St. George on Mon-
day, Sept. 12, with 32 teachers. W.
M. A. Storer will teach music; Miss
Maude R. Stone is the principal.

**TERRIFIC FLOODS
IN KANE COUNTY**

Two Virgin Dams a Racing Tor-
rents: Fences and Crops Washed
Away at Orderville.

(Special Correspondence.)
ORDERVILLE, Kane county, Sept. 6.
The Rio Virgin has been turned
into a raging river. Nearly every day
for two weeks past there have been
floods. During the last two days of
August there was a more continued
and severe rainstorm ever witnessed
in the same length of time. The night
of the 2d the river was higher than
ever known, taking away bridges,
washing away fences and destroying
crops. It has been estimated that
Orderville people have suffered \$2000
damage, besides the damage done to
other settlements in the valley. It took
away several pieces of six-week fence,
one side of H. Blackburn's stock
yard, a good lumber fence, two acres
of corn of F. L. Porter and one and a
half acres of land. Large cottonwood
trees were torn up by the roots. Nearly
all the grain of the farmers is in the
stack, which is considerably damaged.
Thomas Chamberlain thinks his grain
is ruined as it is growing in the shock
so badly. Hay that is out is spoiling.
Much has been spoiled this season.
Considerable of the corn crop has fallen
to the ground on account of heavy
rains.
Much damage has also been done at
Mount Carmel, but the estimate is not
known here. Considerable damage has
been done to the canyon roads. The
road commissioner, F. A. Porter, has
taken men out to work on the roads.
The United States mail has not been
able to reach here the past two or three
days on account of the weather. It is
suggested that if it had not been for
flood damage, crops were all going ex-
ceedingly well this year.

**FIERCE ELECTRIC STORM
AT SPRINGVILLE MONDAY.**

(Special Correspondence.)
SPRINGVILLE, Sept. 7.—Last even-
ing a fierce electric storm, and heavy
downpour of rain, passed over Spring-
ville, lasting about one hour, the thun-
der claps shook the houses and al-
though very dark the flashes of light-
ning were so thick and fast that it was
as light as day. Some telephones were
knocked out of commission and floods
of water filled the water mains and
filled all the low places.

SCHOOL OPENING.
SPRINGVILLE, Sept. 7.—Today
school starts with a good representa-
tion of children and everything prom-
ises a prosperous school year. There
are about 1,000 pupils in the grammar
grades and beginners, with 120 in the
high school, which commences next
Monday.

DOUBLE FUNERAL.
SPRINGVILLE, Sept. 7.—Last Friday
the funeral services over the remains of
George Beardsall and Ray Dalton were
held, provided over by Bishop O. B.
Henderson. Mr. Beardsall leaves a
family of 11 children and wife, and died
at the age of 46 of heart trouble.
He was born on the banks of the Platte
River in 1862, when his parents, Francis
and Emma Beardsall, were emigrating
by ox team to Utah. The river with
which the 47 day journey was made
by ox team to Utah.

Ray Dalton was the 9-year-old son
of A. M. and Sarah Dalton, who had
broken his arm by falling, lock jaw set
in, and death ensued.

The farmers are having a hard time
to get their grain in the stack and
thrashed because of so much rain.

**FUNERAL OF MRS. JANE
BALDWIN AT MONROE.**

(Special Correspondence.)
MONROE, Sevier Co., Utah, Sept. 6.—
Elder Jacob Madsen returned on Sat-
urday from a two years' mission in
California. A large assemblage greeted
him yesterday at the meetinghouse,
who met with interest in his spiri-
tual address.
A reception will be given him at the
word meetinghouse tomorrow night.
Impressive funeral services were
held here today over the remains of
Mrs. Ellen Baldwin, wife of James
Baldwin, who died on the 4th inst.
from the effects of grief. She would
have been 30 years of age on the 24th
of this month. She leaves three small
children and her husband. Her amiable
disposition won her the esteem of all.
The high water of the Sevier river
is doing much damage to crops on
lowlands of this precinct, and contin-
ued rains are having the same effect
upon the uplands.

that his career was identified with
that of his brother, who has just pre-
ceded him. Among the enterprises
with which he was connected were the
A. D. and M. Thacher company and the
Thatcher Union Mills company, both
