Victoria, B. C., Oct. 1.—Seventeen men are dead as the result of a fire and explosion in Extension mine No. 2, belonging to the Wellington colliery company.

A dispatch from Extension, B. C., giving details of the fire in No. 2 slope of the Dunsmuir mine says:

The fire broke out at the bottom of level No. 3 and was communicated across the slope by one of the curtains. In half an hour the whole slope was on fire. STATUS OF CHINESE DECISION.

Citizens of Hawaii Prior to Annexation Allowed to Land.

San Francisco, Oct. 1.—A decision by the United States treasury department affecting the status of Chinese born or naturalized in the Hawaiian islands before their annexation has been handed down to Port Collector Stratton.

It is now evident that not a single member of last year's High School football team will be seen in this year's organization, and those who have been pulling for the former players have about given up the idea.

Some of the boys feel they have not been given a square deal and do not hesitate in so declaring themselves.

It is argued that according to the rules of college football, Smith and Ab Howell should have been permitted to play one more year.

They say that they are entitled to play four years before they can be declared ineligible, that Smith and Howell have played only three years and are in no way professional.

There is nothing in the nature of last year's organization, stated the other day that he could account for every cent taken in by the team and that a professional nature about last year's organization, stated the other day that he could account for every cent taken in by the team.

WILL FIGHT THE TRUST.

National Association of Professional Baseball Leagues.

New York, Sept. 30.—President P. T. Powers of the Eastern baseball league gave out a statement today that in consequence of the National League's abrogation of the national agreement, all the professional baseball clubs in the United States and Canada will accept the sixteen club members in the National and American leagues, have banded together for mutual protection, and organized an independent association under the name of the National Association of Professional Baseball Leagues, of which Powers is the president.

Mr. Powers has addressed a letter to the president of each club member of the National and American leagues, asking them to co-operate with the new association in respecting the reserve and contract rights of the clubs and players.

President Powers says: "It is not the purpose of this letter to criticize the action of the National league in this matter, but simply to acquaint you with the fact that in consequence of the National league's abrogation of the national agreement, which for so many years has been considered the bulwark of professional baseball, the following leagues of professional baseball clubs representing the Western league, the Eastern league, the Western association, the Indiana-Iowa-Illinois league, the New York State league, the Connecticut State league, the New England league, the Southern league, the Virginia-North Carolina league, the Pacific Northwest league and the California State league, employing in all at least 1,000 professional players.

"While it is to be regretted that a baseball war now exists between the National and American leagues, yet the minor leagues are in no way parties to it or responsible for it, and as the minor leagues are in a position neutral, we respectfully appeal to members of each of the individual members of each of the American and National leagues to express their willingness as individual clubs to respect the reserve and contract rights of the minor league clubs, members of the National Association of Professional Baseball Leagues to reciprocate by respecting the reserve and contract rights of the club members of the National and American leagues with mutual players, or such individual clubs of those two leagues as may be willing to join with us in this reciprocity arrangement.

"I am prompted to make this proposition," concludes President Powers, "with the hope that a sufficient number, if not all, of the individual club members of the warring National and American leagues will co-operate with the National Association of Professional Baseball Leagues on these important and essential points."

President Powers requests an early reply as to the attitude of each club on the matters presented.

New York, Oct. 1.—W. C. Whitney, in a letter which appears in the Tribune today says:

You cannot afford to disregard the warnings of a weak and diseased heart and put off taking the prescription of the world's greatest authority on heart and nervous disorders—

Dr. Miles' Heart Cure.

If your heart palpitates, flutters, or you are short of breath, have smothering spells, pain in left side, shoulder or arm, you have heart trouble and are liable to drop dead any moment.

Major J. W. Woodcock, one of the best known operators in the country dropped dead from heart disease recently, at his home in Piquette, Ind., while nursing his law.

Mrs. M. A. Birdsall, Watkins, N. Y., whose portrait heads this advertisement, says: "I write this through gratitude for benefits I received from Dr. Miles' Heart Cure. I had palpitation of the heart, severe pains under the left shoulder, and my general health was miserable. A few bottles of Dr. Miles' Heart Cure cured me entirely."

great satisfaction from horses, to second their efforts in every way.

"The sending of our best horses abroad depreciates the quality of the sport at home and diverts needed revenue which should be contributed to enrich our own stakes and encourage breeding here. I make an exception in my own mind of the case in which one has an eligible horse likely to win one of the classic events like the derby, the Oaks or the St. Ledger. Winning one of these races reflects credit on our breeding and is properly a matter of pride to Americans. It is not at all unlikely that I may be found trying for one of these again."
