

FLOATING FRAGMENTS.

The rush to the stores for Christmas goods has commenced. The exhibition of the Utah Art Association opens to-morrow. The Deseret University will close this week until Tuesday, Jan. 3d. Being the 21st of December, this is what is called the shortest day. Jennings & Sons, Eagle Emporium, will be closed on Monday, Dec. 20. John Reading has just received a large quantity of holly—just the thing for Christmas decorations. Last night the 15th Ward Mutual Improvement Association adjourned till Tuesday evening, January 3rd, 1883. The additional telegraph wire being put up between Ogden and Omaha, will be in operating condition Jan 15th. The 17th Ward Mutual Improvement Association has changed the time of meeting on Tuesday evening, from 7:30 to 7 o'clock. Next Monday being an official holiday, all the post offices of the United States will be closed, by order of Postmaster-General James. There is a demoralized bridge over the ditch by the corner of the residence of Mr. S. P. Feasdel, South Temple Street. It should be properly fixed.

LOCAL AND OTHER MATTERS.

Will be Closed.—By official notice of Superintendent Jennings, published elsewhere, it will be observed that Z. C. M. I. will be closed next Monday. That's right. Doing Nicely.—Conductor John Chugg, whose foot was accidentally hurt at the Utah Central Depot on Sunday, is recovering. He is able to be out again. Not Correct.—We are pleased to learn through our traveling agent in the southern part of the Territory, Brother William Bramall, that there is no truth in the report that small-pox had broken out in Cedar City. High Council.—The members of the High Council are requested to meet in the Council House, on Friday evening, the 23rd inst., at 7 o'clock. W. W. TAYLOR, Clerk. A New Phase.—Recently an unprecedented occurrence, in that locality, took place in Paris, Bear Lake Valley. It was a burglary. During the absence of Mr. and Mrs. Wm. G. Kimball, thieves broke into their store, by wedging an axe into the door and breaking a lock. They carried off a quantity of goods and a five dollar gold piece. The burglars have not been discovered. Theatre.—The Anthony & Ellis Ideal Uncle Tom's Cabin Company were greeted by a full house last night. The performance of the familiar play took well with the audience, some of the comic parts creating irrepressible bursts of uproarious laughter. Mr. Dan Hart, as Lawyer Marks, was particularly happy, as was also Mr. Crystal as Phineas Fitcher and Gumpston Cue. Little Winnie Shannon, as Eva, performed very well as did Miss Kate Partridge as Lucy. The latter is an excellent dancer. The other characters were very fairly rendered. The singing by the quartette was one of the most charming features of the performance. The play will be repeated to-night and three more nights besides. An Extensive Establishment.—Since the premises of Mr. H. Dinwoody, furniture manufacturer and dealer, and upholsterer, were enlarged by an addition at the rear of the building of 62 feet by 25 feet, the establishment is really a mammoth concern. Including the new part, there are now four floors, each of which measures 105 feet by 62 feet. This makes an entire floorage of 420 by 248 feet. All this large space is occupied by advantage. This will give some idea of the mammoth stock carried by Mr. Dinwoody, whose establishment is perhaps as large as any between San Francisco and Chicago. Every thing needed for comfort or elegance in the line of furniture can be obtained there, the variety from that to select being wide enough to suit the most fastidious. The visitor is especially captivated by the beautiful upholstered goods, nearly all of which are made at home. They are manipulated by skillful hands in the highest style of the art. Among this class is an adjustable lounge, made so as to be placed at any angle and position to suit the sitter or the party reclining on it. Purchasers invariably prefer the home-upholstered goods. The home-made walnut tables have an excellent run, owing to the superior quality of the work put on them by home artisans and their consequent greater solidity and durability. Besides the various named desks, wardrobes, bookcases and numerous other goods are being made at the factory. In conversation with Mr. Dinwoody, we learn his policy regarding home manufacture in the branch of business in which he is so extensively engaged is to keep making encroachments on importations by gradually taking up the production of one article after another, as circumstances will admit, and progress in that direction is being constantly made at the factory. Mr. Dinwoody's exceedingly large stock incorporates everything in the line from the most common articles to sets of the most handsome, artistic, rich and elaborate description. The upholstery workshop, and the cabinet shop for making up ordered goods are in a two-story building at the rear of the warerooms, and the factory is situated in the Seventh Ward.

CITY COUNCIL.

Proceedings at the City Council Tuesday evening, December 20th, 1882, Mayor Little, presiding:

A petition was submitted from the Utah Art Association, setting forth that they intended to give an art exhibition in the Reform Hall, on First South Street, commencing on or about the 22d inst., and continuing during the month. That the objects of the organization were the encouragement of rising artists and the development of art taste in the community, and that the proceeds of the exhibition would be used for the purpose aforesaid. The petition asked that in consideration of the character of the enterprise, that the usual license fee for exhibitions of this character be remitted. Granted.

A petition was read from F. F. Haines, of Big Cottonwood Precinct, asking an allowance of \$15, to reimburse him for damages to a light spring wagon sustained through an accident which occurred on the evening of the 19th inst., and which was alleged to have been the result of a bad crossing at the intersection of Plum and Second South Streets. Referred to the committee on claims.

A communication from Alex. C. Lyster was submitted, in which he made some explanations regarding proceedings that took place on the 15th inst. After some discussion the Council decided on motion that the communication be rejected.

A report was submitted from the committee on water works, to whom was referred the petition of Francis Armstrong, asking the privilege of using water from the mains to run a motor for propelling machinery in his mill on North Temple Street, making certain recommendations in consonance with a written proposition made by Mr. Armstrong, which was submitted and made a part of the report. The document, after reviewing the facts of ownership of the mill and the right to a water power in connection therewith, proposed that the city, at its expense, connect a six-inch pipe with its mains, and run the same to said mill, the company to furnish a four-inch pipe to run a motor in said mill, said motor to be of at least 16-horse power, and to be placed in the mill at the expense of the owner thereof. The owner to use said motor perpetually, providing that at the end of five years, or at any time thereafter, the city can have the option to purchase the premises, including the water power, at the sum of \$5,000, or the water power exclusive of the mill, at \$10,000. If at any time the power from the said motor be cut off through any cause, the owner of the mill to be entitled to his first and former interest in the waters of City Creek. The report of the committee was accepted, the proposition of Mr. Armstrong rejected, and the Mayor was authorized to have the necessary documents for carrying the agreement into effect prepared and submitted to the Council.

The joint committee on streets and alleys and irrigation, to whom was referred the matter of locating ditches, etc., on Centre Street, 19th Ward bench, reported that they had visited the locality, and examined into the matter referred to them, and found that the improvements heretofore recommended were needed. The joint committee on streets and alleys have the city surveyor determine the corners of blocks and streets and water ditches in that locality with a view to widening the street, as referred to the committee on public grounds at the last session of the council. Adopted and work ordered to be done in the order of business.

The city treasurer submitted his annual report for the fiscal year ending Nov. 30, 1881, giving an account of all the receipts and disbursements of the city during that period. Paul A. Schettler, in account with Salt Lake City corporation showed balance in treasury at last report, \$9,185.42; receipts for fiscal year, \$230,987.00; total, \$240,172.42; disbursements for fiscal year, \$233,888.78; balance in the treasury December 1, 1881, \$6,283.64. The treasurer stated that he had in his possession, received and warrants to the amount of \$233,388.76, which he solicited the Council to order to be destroyed. Referred to the committee on finance, with instructions to destroy the redeemed warrants if found to be correct.

The city auditor submitted his report for the quarter ending November 30, which was an expansion of the report of the auditor for the preceding year, which showed an expenditure on street improvement account of \$19,124.88, and an expenditure on other accounts, viz: Liberty Park, canal, sidewalks, etc., \$25,085.14. A detailed account of the cost of each improvement ordered by the Council for the past year, the cost of lay and gravel, city taxes, blacksmithing, carpentering and other items were given. Referred to committee on claims.

The report of the waterworks for the same quarter was submitted by the superintendent, which showed that 42 services had been furnished to water-takers during the quarter at a total cost to the city of \$1,048.15, or an average of \$24.95 each. The total expenditure on waterworks account for the quarter was \$1,410.78. The superintendent took satisfaction in reporting everything pertaining to the works to be in good working order. Referred to committee on waterworks.

The quarterly report of the water master was submitted, showing a total expenditure in his department since September 1st of \$705.50. Referred to the committee on irrigation.

The report of the city pound-keeper for the quarter was also received, giving an account of animals impounded, etc., which was placed on file.

The marshal was authorized to purchase a stove for the large room opposite the Council Chamber, City Hall.

Adjourned for one week.

A FATAL ACCIDENT. CHRISTIAN HYER IS KILLED BY A FALLING TREE.

On Friday, the 18th inst., Christian Hyer, twenty-two years old, son of Chris Hyer and Caroline Hyer, of Richmond, Cache County, was in a canyon adjacent to that town, with his brother, chopping wood. They had felled one tree, which, instead of coming down to the ground caught against another. They then cut the other, and when it struck the first, Christian was struck on the head with a large branch, crush-

ing in the skull and killing him instantly. The funeral took place on Sunday afternoon, the services taking the place of the regular meeting. Short but impressive addresses were delivered by Pres. Merrill, Bishop W. H. Lewis, of Lewiston, and Elder Alma L. Smith, of Coalville, Summit Co. A very large procession followed the body to the cemetery, the cortege numbering nearly 50 vehicles. Deceased was an exemplary young man and enjoyed the respect of the entire community.

We are indebted for the particulars of this lamentable affair to Brother Edwin Smith.

MURDER AT SMITH'S FORK.

ROBERT E. HICKS IS FATALLY SHOT BY JAMES MEGER.

Last week, at Smith's Fork, Jan. Meeger, 18 years old, shot Robert E. Hicks. The Bear Lake Democrat gives the following account of the affair: "It seems that Robert E. Hicks, who had a sub-contract from Cols. Tagoe's Camp for hauling ties, was settling up with James Meeger for his services, in Hicks' house on the day in question, when Meeger, who was intoxicated, objected to the agreement, and some words ensued, during which the latter drew a revolver and presented it at Hicks. A tussle ensued, during which the revolver was taken away from Meeger and unloaded by Hicks, who then gave it back to him and put him out of his house. The snow being very deep at the time (about three feet) Meeger put on his snow shoes, after which he began to curse and swear at Hicks. Hicks said he would not allow him to swear like that in front of his house and family, and was about to make him go from his house, when Meeger, who, by the way, had loaded his revolver from a supply of cartridges he had in his pocket, presented the pistol at Hicks, and shot him in the left shoulder, the ball passing through in a slanting manner and making its exit from his back.

Mr. A. F. Kerlin was immediately dispatched to Paris for surgical aid, which he was unable, however, to procure there. An effort was then made to telegraph to Evans-ton for a doctor, but the wires being out of order, this could not be done.

At last accounts Hicks was reported dying. Meeger was in custody. Smith's Fork, where the tragedy occurred, is, we believe, a short distance east of Bear Lake Valley, between there and Bear River Valley.

L. Goldberg offers more HATS for less money than any place in the world.

REDCANYON, ROCK SPRINGS AND WEBER COAL.—The only reliable market for lump, assorted and egg coal. Large stock always on hand, and full weights guaranteed. Prices low, and special attention given to suit the wants of the public. Office, Deseret Bank Block.
