CAUTION.—We wish to caution  
bakers, who are using Dr. Price's Cream  
Baking Powder against buying it in bulk.  
Unprincipled dealers are mixing give  
flour, cheap powder and other sub-  
stances with it and selling it as Dr.  
Price's. Some, too, are filling large  
cans that have Dr. Price's name on  
them with common powder, and  
weighing it out to customers as Dr.  
Price's. The only safe way is to  
buy it in cans, and to see that their  
trade marks, the words Dr. Price's  
Cream Baking Powder, and the  
hand and cornucopia, are on the  
box. Do not buy it if label is broken.  
Observe this caution, and we  
will warrant that you will find Dr.  
Price's powder to make the lightest,  
sweetest and healthiest bread,  
biscuits, cakes, etc., with one-third  
less quantity than other baking  
powders in the market. Steel &

Dr. C. W. Higgins Dear Sir—  
Shortly after I commenced to take  
your medicines I felt the disease  
beginning to give way, and have  
improved ever since. I am now  
very much with my complaints  
for twelve months, and do not  
know what my trouble was until  
you told me.

Correct in the diagnosis of my case.  
I would not say any one that suffers  
with the Gravel, Liver, or Kidney  
complaint, to call on you at once.

If they wish to be cured. I have  
taken your medicines only four  
weeks, and I have not felt so well  
for twelve years. I am, with re-

### LOCAL AND OTHER MATTERS.

THERMOMETER 30 degrees F. in  
the shade, at 1 p.m. to-day. Fine  
day.

There is a message at the West-  
ern Union office for J. H. Schofield.

"Loyalty."—The carpet-bagger's  
organ encourages the factious, tur-  
bulent, and unscrupulous minority  
to resist the collection of taxes.

Religious.—Meeting at the Tab-  
ernacle at 2 o'clock to-morrow af-  
ternoon, and at the Ward meeting  
houses in the evening.

Fetch that Clothing.—One of the  
emigrants who left Copenhagen in  
the company of the 20th of June,  
left a sack of clothing there. It has  
been brought to this city, and the  
owner can obtain it by applying to  
John Oblad, 9th Ward, Salt Lake  
City.

Progress.—The United Order tan-  
nery at Farmington is now so far  
advanced as to be ready for the  
roof. The material for the con-  
struction of the tannery vat is also  
ready, a quantity of hides and bark  
is on hand, and the prospect for  
commencing operations soon is al-  
together very good.

Bully Stung.—Commenting on  
Judge Boreman's charge, the Cleve-  
land (O.) Herald says—  
"The Judge has thrust a stick in-  
to a hornet's nest, and there is a  
lively time of angry buzzing with  
the result, that the Judge is badly  
stung."

A man is seriously hurt only by  
his own acts. There seems no reason  
to doubt that the Judge will be  
badly stung, but it will be by the  
scorpion wounds inflicted by  
himself upon himself.

Old Scotland.—In a letter dated  
Sept. 17, Elder David McKenzie  
states that in the Sept. 2nd com-  
pany of emigrants, just arrived here,  
there were two souls from Glasgow,  
the largest number he was infor-  
med that had left that branch for  
several years. Conference House  
is now kept by Sister McLachlan,  
from Parkhead.

Elder McK. designed to devote  
persistent attention to advertising  
and lecturing in Glasgow as long as  
it might prove advisable. He also  
signifies his willingness to search out  
genealogies, at the Register's office  
in Edinburgh, for the Scotch breth-  
ren who may wish it. Particulars  
of the probable expense of such  
search may be obtained by apply-  
ing to David O. Calder, at the News  
office.

Carpet-Bag Incendiarism.—The  
following incendiary and treason-  
able utterances are indulged in by  
the carpet-bagger's organ—  
"We have had occasion to con-  
demn Judge Emerson for allowing  
his judgment to be warped by  
doubtful and dishonest dicta uttered  
by Supreme Court Judges and for  
giving undue needs to oppressive  
laws passed by ignorant and disloyal  
legislators. If our Courts cannot  
dispense substantial justice, but  
are to use precedent and colonial  
sophistry to bind our limbs, the  
sooner our whole judicial fabric is  
overturned the better. When our  
Judges are reduced to lending their  
unwise decisions, because of the  
precedent set them in higher courts  
of jurisprudence, it is time for public  
opinion to exercise its corrective  
power, and make the baggage-wagon  
conscious that their solemn  
looks and immense pretensions will  
not protect them in error."

Interesting Specimens.—Many  
interesting specimens, collected by  
Brother W. D. Johnson, Jan., in  
southern Utah, are shown at the  
Deseret Museum. The scorpion of  
that region, together with a large  
number of butterflies and moths,  
some curious and rare beetles and  
varieties of the grasshopper of the  
south, are well worth seeing, and  
do credit to the collector as a natu-  
ralist. There is also a large number  
of specimens of the flora of our  
Southern settlements, which are  
intended to be the nucleus of a com-  
plete collection. In addition to  
these valuable contributions made  
to the Museum, a number of min-  
erals, fossils and Indian relics were  
presented by Brother Johnson.

It is gratifying to notice the de-  
sire manifested by some of our  
young men of similar tastes to Bro-  
ther Johnson, showing such a de-  
sire to obtain information regarding  
the geological and naturalistic pe-  
culiarities of the territory, and hav-  
ing sufficient public spirit to place  
the results of their researches in a  
museum where they can be seen  
by those anxious to obtain similar  
information. We trust he will  
continue his investigations. The

same young gentleman's letters on  
the wonders of the Colorado Can-  
yon, while he was with Major  
Powell's expedition, published in  
the News some time back, were  
productions of much merit.

A Big Bunch.—At a horticul-  
ture exhibition at Belfast, Ireland,  
a big bunch of Black Hamburg  
grapes was shown, which weighed  
twenty pounds twelve ounces.  
That beats the 20th Ward bunch.

Montana Capital Law.—J. E.  
Callaway, Secretary of Montana,  
gives a three column decision ad-  
vised to a re-canvas of the vote of  
the Territory, though acknowledg-  
ing the existence of fraud, and re-  
commends that the courts investi-  
gate the same.

The Toole Election.—As will  
be seen by a dispatch in another  
part of the News, the investigation  
of the late election in Toole Co.,  
before the Probate Court of that  
County, has resulted in the decli-  
nation of Rowberry having a major-  
ity of 675 for Probate Judge, and Lee  
of 644 for Sheriff. The "Liberal"  
frauds were unblushing and im-  
mense.

That Sulphur Deposit.—The  
wagons of Youngsberg, interested  
in the new discovered and rich  
bed of sulphur in the vicinity of  
Soda Springs have not commenced  
shipping the article eastward yet,  
for the reason that they have been  
unable till now to find a man of  
sufficient experience in the busi-  
ness to melt the sulphur without  
burning it. They think they have  
got the right kind of a man now,  
however.

Information Wanted.—John B.  
Williams of Youngsberg, Mahoning  
Co., Ill., is desirous of gaining  
information concerning his Uncle,  
David Williams, who, he states, was  
born at Carmarthen Town, South  
Wales, and had three brothers, nam-  
ed, respectively, Jared, Thomas,  
and William. He further states  
that David Williams was in the  
State of Illinois and came to Utah  
with the first of the migrating  
Saints who came to this Valley.

Any person who can give the  
desired information should address  
as above.

A Precocious Urchin.—About  
noon yesterday Mr. Smith, driver  
of one of Z. C. M. P. delivery  
wagons, was quickly eating his  
dinner, at his residence, in the 20th  
Ward, while his horse and vehicle  
stood outside, when a six-year old  
urchin, named Davis, stepped in  
and asked if he could ride down  
town with him. The answer was  
in the negative, and the little chap  
left. But soon afterwards the  
sound of wheels was heard and,  
on stepping outside, Mr. Smith  
had the pleasure of seeing young  
Davis diving off towards town. Mr.  
Smith ran after and called out to  
him, which only had the effect of  
increasing the animal's speed till  
the little fellow lost control of it,  
and it was brought to a stand by  
the vehicle colliding with a shade  
tree. Little Davis jumped out and  
ran into a house, pursued by the  
irate Smith, who was only piec-  
emeal administering a little justly  
merited chastisement by the en-  
tirety of his belt, and who were there-  
about. The audacity of the little  
fellow might almost be termed  
sublime.

Come Forward.—It is desirable  
that home productions be encour-  
aged. Instead of being allowed to  
remain in the shade, they should  
be brought forward into the light.  
We need not say that this has been  
the unwavering stand taken by the  
News, being well aware that the  
community whose imports exceed  
their exports is punning an un-  
sound, not to say ruinous, com-  
mercial policy. It is, however, plain,  
or should be, that the most ob-  
tuse can scarcely fail to see that  
it. Occasionally we discern branch-  
es of home production in a  
small way, the trade in which is  
sickly, not because the productions  
are not excellent in themselves, but  
they are quite the contrary, but  
simply and solely because the pub-  
lic generally are not aware of their  
existence. Let the home produ-  
cers, the general material bene-  
factors of any community, come  
to the front and let the pub-  
lic know what they are doing,  
through the advertising columns of  
the News. If business people  
would but reflect for a moment,  
they could not help coming to the  
conclusion that a judicious amount  
of advertising in the News could  
not fail to help them along if they  
had anything they wanted to dis-  
pose of to the public.

Stock Stealing.—Complaints are  
constantly being made of stock be-  
longing to residents of this City  
disappearing mysteriously and nev-  
er returning, and frequently it is  
found in hands which are driven to  
sell for a few miles from town,  
from which cows and other ani-  
mals suddenly become minus. A  
few days ago Mr. J. W. Jenkins, of  
the 17th Ward, lost a couple of  
cows, and his two sons, the elder  
of whom is about sixteen years old,  
went out hunting for them. Yester-  
day their search was crowned  
with success. They found the  
missing animals about two miles  
west of the Sixth Ward Bridge,  
tied up near a small haystack, at  
a place where there are no houses.  
When the boys came upon the cows  
a man was audaciously trying to  
milk one of them, but without much  
apparent success, so the following  
confab, in substance, took place be-  
tween him and the boys—  
"Foy, cool you milk die cow? I  
don't coot do it myself."  
"Yes, I can milk, and I'm going  
to take those cows home. They be-  
long to my father."  
"Dot is von d—n lie. I bot  
dem cows. I baid fifty dollars for  
vome and vork vork the oder. If  
you took dem cows I vill shoofs  
you, I vill."  
"Well you'll have to shoot, then,  
for I'm going to take those cows,"  
said the intrepid and undaunted  
lad, untying one of the cows and
