The Stokes Trial.

NEW YORK, 17.—Andrew Parker, head clerk of the Manchester House, testified in the trial of Stokes, that he met the prisoner in the Hoffman House, and in conversation with him about his trouble with Fisk, and the injustice of Bixby's court, he, Stokes, said Fisk was a blackmailer and loafer, and that he carried a pistol and would shoot him. Stokes seemed full of indignation at this testimony, and was about to rise in his place in court, apparently to contradict it, but his mother restrained him. Ex-assistant district attorney Fellows, was asked by the prosecution to state the conversation that took place on the morning of the homicide between himself and John McKeon and their client Stokes. The prisoner's counsel objected, and the objection was sustained by the court, unless the prosecution laid the foundation by proving that the indictment had been found against Stokes previous to that conversation.

After recess, deputy coroner Marsh was examined in reference to the post mortem examination of Fisk, and rigidly cross-examined, with the view of proving that Fisk suffered from the effect of over doses of morphine, and too much and unskillful probing of the wound. The testimony on this point was much the same as given at the first trial. Colonel Fellows swears that the cloak of Fisk was in the same condition as when it came into the district attorney's office. The prosecution here rested the case, reserving the right to call further witnesses to-morrow. Mr. Dos Passos then commenced the opening address for the defence, but being taken suddenly ill the court adjourned.

The Financial Situation

The *Express*, this evening, in an article on the financial situation, declares that the present condition of the banks of this city is a disgrace, and insists upon the necessity of immediate resumption of currency payments as the only means of restoring confidence, and bringing out the greenbacks now hoarded in safety in deposit companies' vaults, and in old stockings and mattrasses. It calls on sound conservative banks to insist upon putting an end to the pooling arrangement and to redeem the city from the present false position. The continued shipment of bullion from England to America excites the belief with some that it will create a financial disturbance in London, and some go so far as to predict that London may yet have the same experience as Vienna and New York, in regard to speculative bubbles.

It is stated that the banks gained very largely in legal tender, nearly a million dollars, at the Clearing House this morning. Banks with the most numerous out-of-town connections report large receipts of national bank notes, which the banks prefer, for it is as good as legal tenders to pay out over the counter, and cannot be taken away from the banks to put in the Clearing House pool. Information from up-town merchants is good and, on the whole, the situation shows a healthy improvement.

$100,000 Fire.

The planing mill and sash and blind factory of Kenyon & Newton, Brooklyn, was burned this evening; loss $100,000.

Bankrupts.

E. W. and J. P. Carver, brokers, went into bankruptcy, to-day; liabilities one hundred thousand.

Hissed

At the final session of the Free Religious Association last night, John Weiss read a paper on the work done in the recent conference of delegates from the Evangelical Alliance.

Aaron Powell was successively hissed and applauded for saying that since the day John Brown was murdered in Va., he never felt more saddened than on the day the Modoc Indians were hanged.

Incendiarism.

NEW ORLEANS, 17.—The store of N. J. Lawenaten, 531 Magazine St., was partially burned, loss $10,000. Another store was also burned, loss $10,000. Isaac Landerman was arrested as the incendiary.

Returns.

CEDAR RAPIDS, Iowa., 17.—The returns received by the chairman of the Republican central committee from sixty-six of the one hundred counties in the State give Carpenter a majority of 12,417.

Eulogizing Morton.

PHILADELPHIA, 17.—In the constitutional convention to-day, ex-United States Senator Buckalew, referring to the course of Senator Morton of Indiana, upon the proposed amendments to the constitution for regulating the manner of selecting Presidential electors, said Senator Morton deserved the thanks of the nation for his course in that regard. The convention will hold a special session on Monday next, to consider the subject of the proposed amendments to be recommended by Senator Morton's committe of the United States Senate.

The Northern Pacific R. R.

MINNEAPOLIS, Minn., 17.—C. W. Meade, general manager of the Northern Pacific R. R., states that it is proposed by the manager to operate the road as far as Jamestown this winter certainly, as the road is supplied with snow fences, &c. to that point; if the wister is not severe trains will be run to Bismarck, but if it is hard they will be discontinued. Jamestown is about a hundred miles west of Fargo. The work on the road is to be begun and prosecuted with vigor in the spring. Gen. Cass has appointed commissioners to examine, and report upon the condition of the road, and they start to-day.

More Favorable.

MEMPHIS, 17.—Dr. Erskine, President of the Board of Health, has expressed an opinion based on a consultation with the physicians of the city, that the aspect is more favorable to-day, for though warm there have been fewer new cases than on any day previous; but he admits that an unfavorable change in the weather may cause a fresh outbreak. The deaths from yellow fever, to-day, were thirty, being an increase of four over yesterday. The air is thick with carbolic acid and disinfectants.

Worse.

Gen. M. J. Wright, of the *Register*, is worse.

Big Claim—Workmen Discharged.

WASHINGTON, 17.—Ex-President Johnson has made an affidavit to his claim for $75,000 against the First National Bank.

The stringency of the money market has made necessary the dismissal of many workmen.

Phelps' Case.

ALBANY, 17.—The State Treasurer has received replies from the country treasurers, and finds that the drafts they forwarded are all correctly noted in Phelps' book, and that there is a deficiency of about $300,000. Some of the drafts surreptitiously used by Phelps were endorsed by him as cashier, but a large part were regularly endorsed by Deputy Treasurer Paul. Fifty-five thousand dollars of the latter have been brought to light, and are payable to Charles Hudson, cashier. Hudson's name, on these drafts, was written by Phelps. Hudson is connected with the firm of F. R. Sherwin & Co., New York. The drafts should have been made payable to E. Groesbeck, cashier of the Albany Commercial Bank, and deposited in that bank. By making them payable to Hudson, Phelps made them available to himself, probably through Hudson. A warrant for the arrest of F. R. Sherwin & Co. has been issued.

Arrested—Suicide.

BOSTON, 17.—Jas. M. Lowell has been arrested at Lawrence, Mass., on suspicion of murdering his wife, who mysteriously disappeared three years ago.

D. E. F. H. Borges, the Brazilian cousul at this port, suicided this afternoon, by shooting himself with a pistol. Financial embarrassment is the supposed cause.

Detained by Snow.

OMAHA, 17.—Eight inches of snow fell in the western part of Wyoming. The Pacific train, due here to-day, was several hours late, been detained by the snow.

Brutal Murder.

IOWA CITY, 17.—Mrs. Vogt, an aged German woman, was found brutally murdered near her home, two miles from here. The body bore evidence that the assassin held her down by the throat and crushed her breast and ribs with his knees. Her husband is suspected of the crime.

Will Resume.

ST. LOUIS, 17.—The Clearing House Association this evening resolved to resume on Monday, 27th instant; also that the loan certificates of the Clearing House shall be redeemed in twenty per cent. instalments, to be paid Monday 20th, Wednesday 22nd, Monday 27th and Thursday 30th.

The Doings of the Granges.

KEOKUK, Ia., 17.—The convention of the executive committee of State Granges of the Patrons of Husbandry adjourned *sins die* this p.m. The meetings have been held with closed doors, and no very large part of the proceedings have been made public. The following was reported to-day by the committee on agricultural statistics, and adopted by the convention:

Whereas, We regard complete and accurate agricultural statistics as the foundation of our control of the business of agriculture, by which we may obtain a suitable and just reward for our labors and allow the law of supply and demand to operate freely in the regulation of prices, to the benefit of both producer and consumer, therefore

Resolved, that we use our best efforts to establish, or cause to be established, in each and every State in our Union, a system of agricultural statistics, by which we can get exact information of the acreage of the principal crops, the amount of live stock in the country, the quantity of produce and the number of animals of each kind for market.

MEXICO.

Fighting Commenced.

MATAMORAS, 17.—Gen. Leopeta, the deposed governor of the State of Coahulla, has left Saltillo for Monclova, where the congress of the State is in session, which recognized Dr. Galas, as governor. An engagement is reported between general Leopeta and the partizans of Dr. Galas, near Saltillo, in which Leopeta is said to have been defeated, and retired towards Pedras Norras, on the Rio Grande; while another account states that the action was not decisive, and that both parties are near Monclova. Many of the principal business houses have closed in Saltillo on receipt of the news that actual fighting had commenced, fearing pronunciaments against Leopetas and his friends, who still occupy that city.
