L. B. MATTISON'S RETURN.

Having just returned from a two month's trip in the East, visiting the different manufactories, whose goods I represent, I would say that for the coming season, we have added some fine improvements to the "Mitchell Farm Wagon" which will add to its already well established record. The "Burr" patent Body is used on no other Four Springs, but the Mitchell. Another fine improvement is a "New patent Brake," on this wagon, unlike any other in the market. I shall carry a full line of "Express Tops" for my Four Spring Wagons, of the latest style. To parties who intend purchasing the New Massillon, or Russell Thresher: Send in your orders early in the season. This new Massillon has a wonderful cleaning capacity, and outtrials all other machines where it competes. I challenge and defy competition on our "New Massillon." While East, I secured the general agency of the celebrated "Peerless Combined Reaper and Mower," and during the coming Conference I shall exhibit these machines, and cordially invite all farmers to inspect them at my wagon yard. No farmer, after examination, will purchase any other. I have "Walter A. Wood's Two Horse Enclosed Gear Mowers," that are the best in the world, also a large stock of "Gale Chilled Plows," to arrive in a few days. Farmers are requested to forward their names, and descriptive catalogues of my wagons, Peerless Reapers and Mowers, and other farm machinery will be mailed to their address. Remember that I keep the best line of goods in the city, and will make you bottom figures if you will give me a call.

L. B. MATTISON.
