

STORY OF MUTINY AND MURDER.

Black Cook Suddenly Seized Trad-
er in Charge of Vessel, Crew
Assisting

BOUND AND HACKED TO PIECES

Tragedy Occurred in the South Seas—
French Punitive Expedition
Weakens Vengeance.

Victoria, B. C., Sept. 28.—The steam-
er Miowera, from Australia, brought
news of several South sea tragedies
from the Solomon group. News was
received of a mutiny and murder on
the trading cutter Save, Vella Lavelli,
the black cook, after being refused per-
mission to go home, suddenly attacked
William Finlayson, trader in charge of
the vessel, whose station is one of Nor-
man Wheatley's on the island of Gizo,
in the Solomon group. Finlayson was
unarmed, trading with natives on the
schooner's deck, when the crew rushed
upon him from behind, seized and
bound him.

After Finlayson had been secured
with ropes the natives hacked him to
death with tomahawks, his head being
sent to the French punitive expedition
by the natives. The body was thrown
overboard. After the murder the
natives endeavored to sail the ves-
sel to their home island, but were cap-
tured by Capt. Glen and arrested. They
were taken to Gizo, whither H. M. S.
Torch went to make an investigation.

From the New Hebrides news was re-
ceived of an attack by natives upon a
French punitive expedition sent to pun-
ish the blacks for outrageous actions
against white settlers and several mur-
ders at Bulles on Mallicolo Island. The
French warship Murette landed a com-
pany of marines, who arrested three
chiefs. As the party took their captives
from the village a shot fired from an-
nihilated one of the natives. The party
then returned to the village, where they
were again fired upon and a marine
wounded. The dead marine was buried
at Port Sandwich with military honors.
The natives alleged that the murder-
ers of Capt. Richard Pentecost, and
six members of the trader Pentecost, were
taken to the island of Pentecost, and
the ringleaders of a party which tied Capt.
Pentecost to a tree and cast him into
the sea, and while he was still con-
scious they threw him into shark-
infested waters and danced over his
monstrous store the body to pieces.

Mail advices from the South seas in-
cluded details of a disastrous typhoon
and tidal wave in the Marshall group,
causing the loss of about 100 lives. A
wave nearly six feet high swept the
island of Jaluit. The settlement is on
an island about a mile long and where
the Europeans are gathered is about
100 yards wide. The top story of the
hotel in which the foreigners lived was
blown off and several had narrow es-
capes from falling debris. The trading
steamer Germania was saved from
destruction by the master taking her
into the center of the lagoon.

MONIDA HOTEL BURNED.

Loss Ten Thousand Dollars, Partly
Insured.

Monida, Mont., Sept. 28.—The Sum-
mit hotel and two adjoining cottages,
property of B. H. Paul, were totally de-
stroyed by fire this afternoon, together
with practically all of their contents.
Valiant work and a high northwest
wind saved the surrounding buildings.
The origin of the fire is a mystery,
but from the fact that it started in the
top of the hotel building it is generally
supposed that it caught from a defect-
ive flue. The loss will easily reach
\$10,000, only partly covered by insur-
ance.

NECESSARIES OF LIFE.

Secy. Wilson Predicts They Will
Be Cheaper This Winter.

Washington, Sept. 28.—Secy. Wilson
of the department of agriculture today
predicted lower retail prices during the
coming winter season for meat, dairy
products, poultry and other necessities
of life. He says that the past year
valued work and a high northwest
wind saved the surrounding buildings.
The origin of the fire is a mystery,
but from the fact that it started in the
top of the hotel building it is generally
supposed that it caught from a defect-
ive flue. The loss will easily reach
\$10,000, only partly covered by insur-
ance.

RUSO-JAPANESE TREATY.

It Will Be Signed During the
First Days of Next Week.

St. Petersburg, Sept. 28.—The Russo-
Japanese treaty will be signed during the
first days of next week. M. Witte, who
had a long interview and luncheon with
Foreign Minister Lamsdorf today will be
received at Peterhof and give the em-
peror a report of the conference, but the
treaty itself will be taken to Peterhof by
Count Lamsdorf, whose counter-signature
will complete the execution of the instru-
ment.

ZEMSTVOISTS DISCUSS ECONOMIC PROGRAM

Moscow, Sept. 28.—The congress of
zemstvos and municipalities today dis-
cussed its economic program with spe-
cial reference to the peasants' need of
more land. The committee submitted
the draft of a proposed repeal of the
legislation which was advanced the
right of the state to appropriate the
land of owners and divide it among
peasants who were without land.

The executive committee of the con-
gress opposed the draft, especially the
section in relation to the appropriation
of lands, and in the final draft merely
urged the necessity of increasing the
amount of land and of reforms in
connection with the land tenure. The
final draft also urged the adoption of
measures for popular education and for
the establishment of state insurance
for workmen.

It was proposed that the congress
should send telegrams of sympathy to
Prince Lvoff, a marshal of the nobility
and one of the delegates who presented
the petition of the last all-Russian zem-
stvo congress to the emperor, who was
attacked during the recent disturbances
at Balashoff, and to M. Zorobenko,
who was expelled from Odessa at the
ringleaders of a party which tied Capt.
Pentecost to a tree and cast him into
the sea, and while he was still con-
scious they threw him into shark-
infested waters and danced over his
monstrous store the body to pieces.

JAPAN WILL ASTONISH THE WORLD IN MANUFACTURING

San Francisco, Sept. 28.—William J.
Johnson of New York, publisher of
the American Exporter, and who as a
member of Secy. Taft's party made the
trip to the orient to investigate com-
mercial conditions and the opportuni-
ties for extending the sale of American
manufactures in the Philippines, Japan
and China, today said that in his opin-
ion the visit of the congressional dele-
gation would be of much good to Amer-
ican trade in the far east.

The congressman did not conceal his
and made an excellent impression, not only
upon the natives, but upon business men.
"While we cannot always accurately
forecast the action of Congress, the in-
dications are that Philippine sugar and
tobacco will be admitted into the United
States free of duty, as hemp now is.
If so, Congress will probably think
that as a matter of reciprocity Amer-
ican machinery and appliances for de-
veloping the industries of the islands
should go into the Philippines free.
This country shall not be admitted free
at once, on the ground that the reve-
nues will be needed for a time to meet
the expenses of the insular government,
there is little doubt that at latest this
will come at the time that the agree-
ment with Spain as to equal tariff privi-
leges in the Philippines shall expire, in about
three years."

As the effect upon American trade
in the orient resulting from the com-
mercial expansion of Japan after the
war, Mr. Johnson said:

"I believe that during the next ten
years Japan will astonish the world as
much in the development of her man-
ufacturing and commerce as she has sur-
prised it in the last 10 years by the ex-
pansion of her military and naval pow-
ers. Whatever this may signify to the
world in general and to America ulti-
mately, I am not able to prophesy, but
for the next 20 years and more it indi-
cates a great increase in our oriental
trade. It will most likely bring many
changes and in some lines may spell
disaster, but on the whole we cannot
fail to be benefited by the internal ex-
pansions and developments of China,
Korea and Japan."

RUSSIAN NOBILITY.

Adopted Resolutions of a Liberal
Reform Character.

St. Petersburg, Sept. 28.—The nobility
of St. Petersburg at a special meeting
have adopted eight resolutions, without
discussion, all of a liberal reform char-
acter. The most important follow:

That the legislative, judicial and ex-
ecutive branches should be separated
from each other and that equal justice
be rendered to everybody.

That clergy be better trained and
cared for and clerical appointments be
effected electively.

That the various ministers work in
co-operation and the ministers be held
responsible for their acts.

That measures be taken to overcome
the illiteracy of the masses and that
freedom to establish schools be granted
everybody.

That freedom of assembly, organiza-
tion and the press be assured.

Going Back to England.

Laramie, Wyo., Sept. 28.—A public
reception was held tonight for Fred
Douglas Willan and wife, old residents
of Laramie, who sail shortly for Eng-
land, where they will reside in the fu-
ture. Douglas Willan came to Laramie
plains with the Sartoris company and
was engaged in the ranching business,
the Sartoris company at that time be-
ing one of the largest ranch outfits in
Wyoming.

Gen. Stossel Paralyzed.

Moscow, Sept. 28.—Lieut.-Gen. Stos-
sel, who commanded the Russian forces
at Port Arthur, is suffering from a
stroke of paralysis which affects his en-
tire left side. The general's recovery
is hoped for.

MAJ. SEAMAN OCCUPIED STAGE.

Was Central Figure at Convention
Of Military Surgeons of the
United States.

MUCH FEELING ENGENDERED.

As a Consequence He Tendered His
Resignation—Matter Finally
Dropped.

Detroit, Sept. 28.—Maj. Louis A. Seaman of New York was the central fig-
ure today at the convention of military
surgeons of the United States, when he
made answer to the criticisms of his
utterances made last Tuesday by Sur-
geon Charles F. Stokes, U. S. N., and
followed with a paper on "The Real
Triumph of Japan, or the Conquest of
the Silent Poe," in which he reiterated
many of his former statements and
lauded the Japanese government for its
conduct of the sanitary and hygienic
phases of the late war.

Two executive sessions of the con-
vention were held during the forenoon,
at which it was said by members, cer-
tain utterances attributed to Dr. Seaman
in an interview in an evening pa-
pers here last night were considered.
Dr. Seaman was quoted in the interview
as saying that a celebrated American
woman physician was regarded by the
Japanese, medical department as a
menemoral instance.

Although officers of the association
refused to discuss the executive session,
it was said by members that it was de-
cided to drop the matter. Dr. Seaman
having stated in open meeting, previ-
ously to the second closed session, that
he had not been talking for publication
when the statements objected to were
alleged to have been made.

As a result of the feeling engendered
by the controversy between Dr. Seaman
and his critics, Dr. Seaman, at the con-
clusion of his paper today, tendered his
badge of membership and resignation to
the secretary, if it were desired, and
stated that he had at no time intended
to make the slightest reflection against
any individual in the government medi-
cal service, but was criticizing at all
times the system.

Dr. Anita Newcome McGee of Wash-
ington, read a paper on her experiences
with her party of American nurses in
Japanese hospitals. She furnished much
information of a technical nature and
white discussing the prevalence of ber-
ber among the Japanese soldiers, said
that if all the beds in the Hiroshima
hospital were placed side by side they
would extend all of six miles. "Conse-
quently," she said, "it is perfectly true
when I state that I saw miles of ber-
ber cases."

A resolution offered by Gen. J. D.
Griffith of Missouri, requesting the
refractory of war to use every effort for
the re-establishment of the canteen and
declaring that its abolition had resulted
in a marked increase of disease among
the soldiers, was unanimously adopted.
