RAILROAD NEWS.

annun ununun The Stubbs party is expected to ar-

rive in Salt Lake from the north at 8:30 tomorrow morning.

E. H. Wright, formerly superintendent of bridges and culverts and for the past 35 years continuously in the service of the Southern Pacific, retired on May 1, under the new pension system.

D. Mihills, who has been with the en-gineering corps on the Lucin cut-off for over a year past, leaves for San Francisco tomorrow where he will join the forces on the Bay Shore cut-off.

The "News" story to the effect that the Moffat surveyors have been called off in Uintah county is now denied in Denver. It is esserted that the parties have only been changed from one part of the survey to another. The fact remains the same however, that they have stored their outfits at Vernal, and a surveyor without his impedimenta is of about as much use in the field as

a switch engine without a piston rod. General Supt. Buckingham and Chief

In Thunder Mountain proper, the Sunnyside, the Dewey, the East Dewey, the Fairview the Sunshine the Climax and the H. Y. companies have great bodies of ore in sight, free milling and in value from \$4 to \$20 per ton in gold, says a Roosevelt correspondent of the An Adjournment Will be Taken Until Favorable Section for the Production Of Oil and Asphaltum-Field is Monday-President Bamberger

MINING, BUSINESS AND STOCKS

Capital-News, It is stated that no less than eight plants, aggregating 240 stamps, will be set up for milling this season if the set up for milling this season if The regular meeting of the directors of the Daly-West Mining company is

transportation is furnished in time to get them in. With the opening of the traffic for pack trains and receipt of supplies a number of conjerns will resume work of development that were compelled to close down. Among these are the Thunder Mountain Gold Reef company, that has two tunnels near Four Mile creek of 220 and 130 feet, showing large deposits of pay ore; the Gold King company with two tunnels of about 200 feet each: the East Dewey with four reet each; the Last Dewey with four tunnels started, two of them in good ore: the South Dewey, with a tunnel of 175 feet south of the Dewey grounds and headed for it; the Pittsburg Tunnel company, on Holy Terror creek, with a tunnel of 175 feet, which is understood to be in pay ore; the First National on Trap creek has two tunnels of 25 and 35 feet. In the 25 foot tun-nel the ledge is from eight to 10 feet wide of blue quartz, givig from \$4.20 to \$14 per ton. An immense slide covered the mouth of the tunnel 20 feet deep and the work was temporarily suspended for lack of supplies. The one exists, especially among the members shaft in the district on the Climax, is

steadily being sunk on good ore. It is authoritatively stated that the March run of the Dewey mill netted \$13,000, with 10 light stamps. While the mill shut down April 1 owing to lack min shuf down April 1 owing to lack of wood the work of blocking out ore will continue indefinitely. This de-posit, now being developed, is in the south extension and is found to be of a higher grade than that milled in the early winter and averages about \$13 per ton.

ing ore with a force of 20 men. The crosscut tunnel o the Bur Oak is getting into hard white quastz string-ers 480 feet below the surface, indi-cating a near approach to the ore body known to be above. known to be above.

PIOCHE-NEVADA CON.

C. E. Rives Reports a New Strike in That

month. The operating expenses averaged last year about \$70,000 per month. Presuming they are no less, this deduction would leave a balance of this deduction would leave a balance of \$\$7,100 to pay dividends with, or \$29,-900 short of being enough to meet \$117, 000, 65 cents a share, which amount the company has paid monthly since last September. A 40-cent dividend would amount to \$72,000, so, according to the flewres given these would be little left A letter received yesterday afternoon from Supt. Charles Rives of the Plochefigures given, there would be little left

There is still considerable speculation

going on as to what the next dividend

will be. Notwithstanding the fact the

directors have never made any state-

ments to the effect that the next dis-

tribution would be considerably less

than the last one, the general belief

of the Mining Exchange, it will be reduced. Some claim the cut will be re-made to 40 cents a share, others declare it will be less; that it will not exceed \$5 cents.

One broker had the program all fig-

ured out this morning, and could not, he said, for the life of him see how the

company can pay more than 40 cents a share unless it draws heavily on its present surplus. He undertook to back this statement by taking the shipments

for the month of April, which aggre-gated, so he says, 4,970 tons, or very

close to it. By consulting last year's report he ascertained that the ores

shipped from the mine averaged about \$30 to the ton. This would mean an in-come, on this basis, of \$157,100 for the month. The operating expenses

the city at the present time.

Monday,

6

Of course, the company has been seriously handleapped during t e past two months. The shortage of water at the mill and the unusually bad condition of the roads has interfered seriously in getting the mine's products to market. But the production for May should be up to normal and better since the new slimes plant is in operation.

MONTANA-TONOPAH.

This Stock Furnished a Feature in Today's Sales on 'Change.

For the first time since Montana-Tonopah was regularly listed on the Salt Lake Stock & Mining Exchange it played a star part in the trading done this foremone. There was a lively dothis forenoon. There was a lively de-mand for the stock and it was snapped up about as fast as offered. It was tarted with a sale of 500 shares at \$1.60, followed closely by a rise to \$1.70. The stock relaxed somewhat before the close of the regular call, but strengthclose of the regular call, but strength-ened again on the open board. Daly-West was stronger than yester-day, while Daly-Judge passed the day unchanged. Con Mercur remained firm, closing with a bid of 33 cents. None of this stock was sold. Star Consolidated remains in a weak condition and the same can be said of Sacramento. The closing quotations and sales were reported as follows:

can begin sacking ore for shipment within 20 days from this place. I am only down 26 feet, but the people here are excited.

"I am sacking ore for shipment from the Talisman claim, two men being em-ployed at that point. I am getting one that will go 1,000 ounces in silver to the I that will go 1,000 ounces in silver to the ton. This ore is making in a small streak now, but it is going down and getting larger. Everything dow looks so promising that I am satisfied we shall make all the money we want out of this proposition. We have this con-tact covered for 4,500 feet. It is in a lime hanging and shale foot wall for-mation, and I tell you it is good to look at. I am about the best pleased man in Lincoln county tonight, for I am sure

success has at last come our way. SOME APEX ASSAYS.

The Late Strike in Parnell Tunnel Shows

Some Good Ore.

Manager Walter C. Orem yesterday afternoon received returns from the as sayer who made a test on ore taken from the late strike in the Parnell tun-nell of the Utah-Apex mine at Bing-ham, mention of which was made in the 'News' several days ago. The results showed 22.4 per cent copthe results showed 22.4 per cent cop-per, 12.5 ounces silver and \$3.50 in gold to the ton. The pay streak is 22 inches and the vein four feet in width. Mr. Orem expressed himself as being

well satisfied with the returns.

A BOSTON CON, SMELTER.

In Local Mining Circles it is Not Believed

Plant Will be Built. Although Samuel Newhouse has se-cured an option on a tract of 117 acres of ground at Bingham Junction, pro-sumably for the Boston Consolidated company, mining circles are not ready to believe that the move has any particular significance in so far as the building of a smelter in the very near future is concerned. With the present future is concerned. With the present smelting facilities in this valley, there is not the slightest doubt but that the Boston Con., with Mr. Newhouse back of it, is in the unique position where it obtain almost anything it wants

vithin reason. Undoubtedly a very low rate on smelting can be had; so low that the company would not be juestified in go-ing to the expense of putting up a plant of its own. Already the company has a very satisfactory contract with the Bingham Con. Smelling company. It is pointed out that inasmuch as Mr. Newhouse has contracted to deliver the Newhouse has contracted to deliver the ores of the Cactus mine in Beaver coun-ty to the American Smelting & Refin-ing company for a term of years, it would seem unreasonable that the Bos-ton Con, could not do as well and avoid the expense of smelter building. Be-sides the Boston would necessarily have to seek other ores to mix with its own for fluxes if it had a smelter going. Mr. Newbouse has, the foresight. Mr. Newhouse has the foresight, however, to be prepared to build in any

phaltum is issuing forth in consider-able quantities, and from the very narrow funnel that serves as a vent we coming forth sfall quantities of volatile oil.

"The scene as one stands on the north shores of the Great Salt Lake is most interesting at this time. A hundred small islands raising therein comes from the snallow water show the points from which the asphaltum comes forth, and these small cones extend down along the west shore of the Promontory for almost ten miles, and for a distance of two miles from the lake shore in water The asphaltum field is well define

The Bould asphaltum which issues forth is identical with that now mined forth is identical with that now mined along the seashore at Santa Barbara and at San Buena Ventura in Cali-fornia. Years ago, before the develop-ment of the Santa Cruz and Santa Bar-bara asphaltum regions, I visited the outcrop at those points, and the con-ditions that then prevailed there, now prevail here at the north end of Great Sait Lake. Salt Lake. 'Here asphaltum is in evidence over

a large area and it seems marvelous that up to date so little has been known relative to the discovery. That the locality is destined to become the center of an extensive asphaltum mining industry I have no doubt, and that the persons now in control will make money here seems certain. The country for miles back from the lake shore has almiles back from the lake shore has al-ready been staked out, and also far into the lake. However, very little work has been done up to date outside of the mere act of location. "I look upon this discovery of as-phalten in Great Salt Lake as one of the greatest and most interesting ever

the greatest and most interesting even made in Utah, proving as it do yond question, that the Great Basin is the receptacle of wealth equal to that found in Texas, Trinidad and the coast of southern California. • "Inspecting the discovery of a genuine

and extensive asphaltum field as above described, we managed to remove a very good exhibit for the St. Louis exposition from the asphaltum outflow as it now shows along the lake, and also from a few of the small islands far out in the water."

OZOKERITE CLAIMS BONDED.

Colorado Parties Are After Carbon County Property.

Several weeks ago William H, Tib ball^a tied up a group of ozokerite claims in Carbon county for a syndi-cate of Colorado capitalists. Since then property has undergone a preliminary examination with favorable results. Advices were received this morning

to the effect that engineers would leave Denver today to make the final examin-ation. Upon their report deepnds the fate of the deal.

CONCENTRATES.

C. H. Cook is examining property in Bingham today. The Yankee Con. reported with con. entrates in today's market. Thirty miles of track have been laid on the new Tonopah railroad. Dr. P. A. H. Franklin is expected to arrive from the east early next week. H. W. Horné is at the May Day mine of Tintic today doing some surveying. Manager G. H. Dern of the Con. Mer. ur is inspecting the properties of that company today. The Majestic bankruptcy case will not come up in the district court until sometime next week. The assessment of 11/2 cents on the stock of the Victor Con, becomes delinquent next Monday. George H. Robinson, general manager of the Yampa properties, at Bingham, is inspecting them today, Canadian parties are reported to have offered \$2 per share for Montana-Ton opah recently, and it was rafused.

Amalgamated Copper were the nearest approach to features in the market. There was some pressure against Pennsylvania which carried it % under last night's price with the dividend off. Amalgamated Copper gained as much. Changes generally were narrow and arregular.

Bonds at non were irregular. The usual period of dullness was not attended by any noteworthy price changes, Bond transactions had as large a representation on the tape as stocks. Slight movements either way occurred in the active stocks with the drift inclining downward at 2 o'clock.

The tritling movement of prices prompted some slight throwing over the stocks by disgusted holders and prices receded to the lowest of the day. Pennsylvania lost %. United States Rubber a point and Metropolitan Street Rallway 1%. Lead and Twin City Rapid Transit rose about a point. The closing was heavy and stagnant.
