WHAT LAND IS WORTH.

Irrigated lands in this section have a value of \$75 to \$200 per acre, ac-cording to the state of cultivation and the character of crops grown. Al-talfs, the chief crop, produces about five tons to the acre and at present is worth \$5 per ton in the stack. Sugar beets yield from \$50 to \$75 per acre if property cared for.

Eugar beets yield from \$50 to \$75 per acre if properly cared for. In order to obviato the unsatisfac-tory conditions which usually attend the opening of public lands to settle-ment, and insure every home-seeker, no matter whence he comes, an equal chance to obtain one of these farms, new regulations designed especially to accomplish this result have been is-sued by the secretary of the interior.
