RUSSIANS DEFEATED.

Washington, Aug. 12-The following

Washington, Aug. 12:--The following cablegram was received at the state department today from Minister Gris-com dated Tokio, Aug. 12: "According to latest reports received at headquarters, Japanese fleet attack-ed Russian fleet, emerging from Port Arthur to the south of Rounds island, off Tallen bay. The Russian fleet, fl-nally defeated, fled during the night. Cruisers Arkold, Novik and one other and one destroyer entered Kalo Chou and one destroyer entered Kalo Chou bay night of 11th; one destroyer fied Chefoo: five battleships, one cruiser, probably Diana, hospital ship and several destroyers returned Port Arthur between dawn and midday of 11th. Ap-parently no damage to Japanese fleet." A cablegram has also been received from Mr. Fowler, American consul gen-eral at Chefoo, stating that two Japanese torpedo boats entered the har-bor and attacked the Russian torpedo heat, which arrived there several days ago, and dismantied, captured her and took her out.

The Askold, Novik and another cruiser and a desiroyer took refuge at Kiaochoc. Another destroyer took refuge at Chefoo. On Aug. 11 five Russian battleshipa, a cruiser-prob-ably the Diana-a hospital ship and several torpedo destroyers seemed to regain Port Arthur. Our fleer is be-lieved to be undamaged.

LINES BEING SHARPLY DRAWN.

That is Seen Very Clearly in the Contests Between the so Called Sutherland and Kearns Factions.

That the Republicans are going to be thoroughly prepared for the struggle that will come in their state convention, to be held in this city two weeks hence, is evident. The preparation is or, more than one side. The force and power of the go-called Sutherland and Kearns factions will be felt in that gathering, and will be a test of strength more ways than one. The primaries

in the different counties that are now being held, while they are interesting, they are by no means certain precursors of what will happen.

But in this connection it is interesting to note that there was no concealment of satisfaction today among the folowers of Sutherland, who allege that they received official advices today from

Sampete county to the effect that he had won a decided victory there last night; that, in fact, he had 92 out of the 102 delegates who were

pledged to support a man for the Legislature who in turn would support him for the United States senate. But then the Kearns people are also making laims.

HOW GOVERNOR SEES IT.

Visited Ogden This Morning and Says He Will Get Majority of Weber County Delegation.

There is a feeling of confidence found Gov. Wells' headquarters in the Atlas block today. Col. John Meteer and A. D. Katz are receiving the govwhile the executive himself occupies while the executive himself occupies the inner chamber and attends to his mail. The mull, by the way, brings many epistles daily from various parts of the state showing the strength of the governor's candidacy and there is every overnor's candidacy and there is every dication at this time that no one of the three candidates has an advantage

over the others. The governor sat serenely back in his arm chair today and spoke as follows:

"I have just returned from my first "I have just returned from my first campaign trip to ogden. From the re-ception I met with I almost regret that I have not taken the advice of many friends who urged me long ago to make an active canvass for the re-nomination. There are many other good men who can put their shoulder to the wheel with as much of-fect, and I believe it time for one of them to come to the front and do It. I am not only willing -I am anxious to withdraw." withdraw

Then you will resign?" was asked, "No, indeed. It doesn't call for resignation. My term of office expire with the next state convention, Sept. 10 when the state committee will be re organized. At that time I shall, my name comes up, merely decline with thanks to again become chairman." This seems to settle it. There will be a new chairman. At the close of the meeting of the state executive commit tee a few days ago, this subject cam up. Mr. Cannon stated his views prac-tically as given above, and the mem-bers, in going over the names suggest-ed as his successor, found that those of R. W. Sloan and W. H. Dale were dinent.

Chairman Cannon, when asked if he would take the stump this fall, said: When I am not dictating editorials on Democracy in my home town, I hope to have the pleasure of taking Democracy o the people of my state." There is another view to take of Sen ator Cannon's first stand on the chair-manship. The national committee is going to demand his services in states er than this. It is a fact mad own by Committeeman D, H. Peer that Senator Cannon, being one of the ablest orators in the nation, will be ex-pected to speak in several western states before the campaign is over.

Thus far there has been no opposition to Judge O. W. Powers as the nominee of the Democrasic state convention for Congress. It looks as though he may be nominated by acclamation.

In the primary at Gunnfson last eveaing the licket favoring Henry Kearns for representative from Sampete county Republican ticket was elected. . M. Madsen is Kearns' opponent.

Judge Twomey after a long consid-eration, announces himself a candidate on the Republican side for a city judg-ship. He has many supporters, and his friends say he is well qualified for the position.

The name of Frank Knox, late may orally candidate and president of the National Bank of the Republic, has been sprung by his Republican friends for the state senate. It is not unlikely that he will be induced to enter the field.

Because of his open opposition what the politicians have learned to call the "Smoot-Cutier combine," it is iow said that Republicans of I county who are favorable to Cutler Davis ndeavor to shut Jesse M. Smith out of he state convention entirely.

A rumor to the effect that Wright Pickering, candidate for county com-missioner on the Republican ticket from the first predict, has withdrawn from the fight is absolutely denied by the candidate himself. Mr. Plekgring stys he is in the race to stay and is indig-nant that efforts should have been made to injure his candidacy.

The primary held at Mt. Pleasant last evening to elect delegates to the Sanpete Reupblican county convention named a delegation favorable to Abra-ham Johnson for the Legislature. Johnson is a Sutherland supporter. A telephone message received today says that 92 out of the 102 delegates are fa-vorable to the Sutherland wing of the Vade. The conflict is sharp and in lead earnest, but no bitterness is in widence and it is not materfally influcing the chances of aspirants for encing the chances of aspirants for state nomination. Serious Charges Reflecting on Striking Miners of Carbon County.

The ex-strikers in the Carbon county coal camps seem to be getting hard up for food, for they are helping themselves freely to live stock that does not belong to them, and the remains of the same have been found in the strikers' camps. ESCAPE OF SALT LAKERS.

Several of Them Passed Over Ill Fated Bridge Nine Minutes Before Wreck.

There were a number of Salt Lakers who passed over the Rio Grande bridge at Eden, Colo., only nine minutes before the frightful Missouri Pacific wreck and who, therefore, are thanking their lucky stars that they escaped a similar catastrophe.

Among them was W. D. Foster of the Utah Fuel company, who returned to the city today and related the hairraising fact. "With several other residents of Salt

Lake," suid Mr. Foster, 'I was on the train that had left this city the night before for Deaver. We started north from Pueblo and a terrific storm was raging. I was make when we went over the bridge, which spans a dry Among my first and most loyal sup-oriers were the Republicans of south-ern Ulah, and in spite of some vigor-ous campaigning by my friends, Mr, lutler and Mr. Hammond, the solid nen of the south are standing immova-bly by me down there. But just now, judging by all the data at hand and of him, knowing that he would be in that vicinity. Mr. Foster did not know relying upon those who are active in my behalf, I firmly expect to be somiof the scare among his friends until his return. Then, when asked why in the name of peace he had not tele-graphed home, he replied. "The wreeknated. HUMIDITY VERY MARKED.

Prevailing Weather is a Record Breaker in History of Bureau.

This weather is a record breaker in the matter of humidity. For the last three days, the record taken at 6 a, m. daily has been 51, 69 and 48 per cent, a remarkable increase from the previous part of the month, when the figures were down in the thirtles. The average for the month of July is 43, and as August is a drier month, naturally, the present record becomes the more no-

In this matter, a comparison with the averages of previous years will be of interest. In 1898, the average humidity for August was 40 per cent, for Aug-ust in 1800 it was 41 per cent, for Aug-ust of 1900 it was 30 per cent, for 1900 it was 47 per cent, for 1902 it was 36 per cent, and for 1903 it was 37 per cent.
