

## EVENING NEWS.

Published daily, except on Sundays, at four o'clock.

DAVID O. CALDER,  
EDITOR AND PUBLISHER.

Friday, October 29, 1875.

### NEWS OF THE DAY.

Charles Gleason, a Gratton bank robber, escaped from the state prison at Boston yesterday.

By an accident at a display of fireworks, at Tammany Hall, New York, last night, eight police officers were more or less wounded.

Mr. Gilmore had 16,000 people at his benefit concert at New York last night.

The schooner *Minnie Wilkerson* is believed to be lost in Lake Erie, as the bodies of her captain and crew have been washed ashore.

There are some Colorado mining cases decided in Washington.

Some improvements are accepted in the lightning mail trains between Baltimore and Washington and Chicago.

The case of the young lady found dead in the river at Leavenworth is yet involved in mystery.

Joe Le Page has been indicted for the murder of Jane Langmaid.

The schooner *Ida Lewis* of New York, struck a rock at Brazos de Santiago and is expected to be a total loss.

A failure in London—Hart Brothers.

The Cardiff giant owner wants \$50,000 from the Boston Herald for calling the giant a fraud.

San Francisco is vigorously subscribing for the relief of the Virginia sufferers. The favorable reports from the mines create a more hopeful feeling.

Gambetta has issued a manifesto.

Great Britain has had over 200,000 cattle afflicted with the foot and mouth disease during the quarter ending Oct. 15.

The editors of the New York Times have been arraigned before the state legislature.

A terrible story comes from a voyage round the world, about the scuttling of three bark canoes and the murder of their crews by cannibals of the Auckland Islands, who afterwards had a feast on the bodies of the unfortunate sailors.

### NO PERSECUTION.

IN that remarkable theological discourse, the author thereof declared that neither federal officials nor the people of the United States desired to persecute the people of this Territory, but only desired that crime should be punished. We are glad to hear it. Persecution should not be indulged in, but crime should be properly punished. But we are afraid that the gentleman does not clearly distinguish between the name and the thing named. Besides, did any persecutor ever condemn himself as such? Did Pharaoh? Did Herod? Paul said he persecuted the people of God, but his confession came after his conversion. If the little Associate Justice were to be converted, if such a thing is within the range of possibility, he might see a great deal of persecution where he does not see a bit now. Circumstances alter cases. A madman could brand him firebrands, arrows, and death, and say, "Am I not in sport?" He does not say he is persecuting anybody. O no. He will not confess that. He is only indulging in a little playfulness. It is sport to him, though death to his victims. He does not see that he is making his name infamous.

"O wad some power the giftie gie us to see ourselves as others see us!"

Did Nero, or Caligula, or Boudicca Queen Mary, or any of the Spanish Inquisitors, or any persecutors in any age, confess they were persecutors? O no. They were doing God service, or were executing the law, or doing some other good thing. And thus in all generations have persecutors been deceived, they have deceived themselves by not giving proper heed to the golden rule, to the still small voice of the Spirit of God. Tyrants are not in the habit of confessing tyranny. It is because of this that any person will declare that no sentiment of persecution exists in the minds of men, official or unofficial, against the Latter-day Saints. Such a declaration is a libel upon history, a falsification of the entire history of the Church of Jesus Christ of Latter-day Saints, and is only made by men who are full of the spirit of persecution, from the crowns of the heads to the soles of their feet. In such declarations they may deceive themselves, like the ostrich when it plunges its head into the sand, but they can not deceive others.

### TOO MANY TINDERBOXES.

THE various fires last night should teach us a lesson, and that is, that the indiscriminate erection of tinderbox buildings should be stopped. The tinderbox style of architecture should not be encouraged. It should be strongly discouraged, forbidden, prohibited in many cases. Lumber and lath and plaster buildings are mere food for flames, when the latter get anything like a chance. It seems to us that the erection of either of these classes of buildings, where the houses are massed together, or are likely to be, should be absolutely prohibited by city ordinance, as a prudent act of precaution.

If lath and plaster walls were permitted, it should be stipulated that the space between the studs be filled up with a course of adobe or bricks, or some other suitable non-conducting material.

The best materials for walls, and the safest, is probably brick. Adobe, concrete, or rock are very good also. Good, well burned bricks make excellent walls and are a near approach to any material that can be conveniently procured. Bricks have already passed through the fire and are used to it. They are not so likely to be damaged by fire as, for example, lath and plaster, when a building takes fire. Iron is very good, and will endure well till
