MINING, BUSINESS AND STOCKS

MUCH ACTIVITY IN PIOCHE CAMP

Diamond Drill Work on Nevada-Des Moines Makes Favorable Showing.

HIGH GRADE ORE IN DAY MINE

Sinking on the Boston-Ploche-Other News from Noted Nevada District.

special Correspondence.

Pioche, Nev., Feb. 29 .- Although there have been no startling developments for some time, nevertheless, work is progressing quietly but steadily on nearly all the properties. More men are being put on as required, but not many in any one place. The sum total is sufficient to give a steady and hopeful tone to the situation.

The diamond drill-which has been making such a favorable showing on the property of the Nevada Des Moines, the future of which has been assured-is to be removed to the X-Ray property near Stampede Gap,

Moines, the future of which has been assured—is to be removed to the X-Ray property hear Stampede Gap, about seven miles from town. This property has already produced some samples of high-grade ore, and it is expected that the drill will reveal much more of the same quality, and give a new impetus to the properties in that district, many of which are known to contain good ore.

The Ely Valley Mining company has sunk its shaft to the 130-foot level, from which a cross-cut is being run to tap the three ledges found on the property. The ledges are on and near the contact of quartrite and ilmestone and associated with a porphyry dyke. The company already has considerable ore sacked, some of which runs up to \$120 per ton. They have a heavy iron capping which can be easily traced for some distance, and also an old working where some high grade gold ore was extracted in the early days.

The Boston-Ploche Mining company is sinking their shaft down from the 200 to 300-foot level and making no attempt to extract any ore at present. The company seems satisfied for the present with the knowledge that they have of the ore and are in no hurry to ship until they can do so on a substantial basis, and in the meantime hoping for an increase in the value of metals—though their ore is of such grade, 50-150 ounce, that it will make but little difference to them.

One of the most gratifying recent developments was the finding of high grade ore in the Day mine of the Nevada-Utah ompany. This was a high grade ore in the Day mine of the Nevada-Utah ompany. This was a high grade ore in the Day mine of the Nevada-Utah ompany. This was a high grade ore in the Day mine of the Nevada-Utah ompany. This was a high grade ore in the pay mine of the Nevada-Utah ompany. This was a high grade ore in the pay mine of the Nevada-Utah ompany. This was a high grade ore in the pay mine of the Nevada-Utah ompany. This was a high grade ore in the carly days, but was generally supposed to be low grade at present. It seems however that it may be expected to

CROWN POINT HIGHER.

One of the Knight Stocks Was Star Feature Today.

Crown Point was a star feature during the forenoon calls of the mining exchange. The stock opened strong and sold up to 24½ cents a share. Uncle Sam Consolidated went up to 59 cents, while Nevada Hills weakened off from \$3.29 on Saturday to \$3.12½ today. Seven Troughs continued sluggish and Sloux Consolidated dropped to 14 cents. The unlisted stocks were active in the bidding, but no transfers reported. The closing quotations and sales were: ing the forenoon calls of the mining MODNING CALLS

This Marning's Metals. WHEELS GRINDING IN OLD COLUMBUS

Taft Predominates as Leader And Free-for-All is the Program.

DELEGATES ARE SELECTED.

All Solid for War Secretary, They Will Be Officially Designated to Attend Chicago Convention.

Columbus, Ohio, March 2 .- With the arrival of the morning trains the army of politicians who are to take part in the state convention Tuesday was heavily increased. By night it is expected that the city will be filled to overflowing. The announcement that there will be no "state," no prearrangement of any kind, and that the nominations for the various offices are to be the result of a free-for-ail fight and the prize for anybody who

ight and the prize for anybody who can get them, has greatly stimulated the interest in the convention.

The only offices for which there will not be a struggle are governor, where Gov. Harris has no opposition, sccretary of state, where the present incumbent, Carmi A. Thompson, will be named by acclamation, and dairy and food commissioner for which Rennick W. Dunlap will have a walkaway. ON SUPREME BENCH.

It is also highly probable that Judges John A. Schauck and James L. Price, present members of the supreme court will be nominated, although Judge Wildman of Norwalk, is also a candi-The four delegates at large to the Re-

The four delegates at large to the Republican national convention have been selected and there will be no opposition to any of them. They will be Gov. Harris, Myron T. Harrick of Cleveland, Arthur J. Vorys of Lancaster, the political manager of the Taft campaign and Charles P. Taft of Cincinnati, the brother of the secretary of war.

tary of war.

The platform will be short, The draft of it has been approved by Secy. Taft and Atty.-Gen. Wade Ellis is now polishing up the literary side of it. The present subject of acute discussion in relation to the platform is whether mention shall be made of Senators Foraker and Dick and the character of such mention.

LOCATED MORE CLAIMS.

Olaf Peterson Returns from Property Of Copper Gulch Company.

Olaf Peterson one of the directors of the Copper Guich Mining company op-erating in San Bernardino county, Cal., and which is controlled by a syndicate of Utah people, has returned from a visit to the properties which are now under development.

visit to the properties which are now under development.

Mr. Peterson went out with another representative of the company for the purpose of locating some additional ground as well as to make an inspection of the work that had already been done. One of the results of the trip is that five claims have been added to the group upon which a very promising gold quartz ledge has been found. The showing at the surface is so promising showing at the surface is so promising that a force of men will be put on immediately to exploit it.

Mr. Peterson says the activity of the

Copper Gulch company has attracted a good many prospectors that way and a large area of country has been located. He states that there is every indication of the building up of a pretty lively

LUCE AT RAWHIDE.

Former Salt Laker Buys a Promising Group for \$30,000.

Group for \$30,000.

Special Correspondence.
Rawhide, Nev., Feb. 23.—One of the life sized mining deals just closed in Rawhide was the purchase of the Microbe Fraction, Hooster claim, Remnant Fraction and El Capitan claim for a cash consideration of \$30,000 and an interest in the newly organized Rawhide Combination Gold Mines company, perfected for the purpose of developing the estates acquired. The buyer and organizer is Ben D. Luce, of Salt Lake City, former partner of the late Henry Peery. He also represents Los Angeles talent and is associated with Rowhide capital.

The Microbe fraction adjoins the Last Chance on the southeast, the Hoodlums on the north and the Red Top fraction on the south, being a choice strip in the proved richest portion of the district. At a depth of 60 feet drifting has begun on the ledge exposed and even before ink was dry upon the transfer agreements the north drift ran into a full breast of ore that today is showing average values ranging from \$160 to \$1,500 the ton in gold and silver. The new management starts its regime with the sacking of this produce and expects to record a shipment before the end of March.

PARK CITY NEWS.

Number Two Ontario Shaft Will Soon Be In Working Condition.

The moving of the machinery from the Ontario No. 2 shaft to No. 2 shaft is going along nicely and things will be in readiness for operations in a few days, says the Park Record. Some of the larger parts of the machinery were somewhat troublesome to get over owing to their size and the condition of the road, but no serious mishaps resulted.

Down on Mahogany hill there is still considerable prospecting going on and some splendid looking "holes" have been opened up. In the spring it is the intention of the owners of a number of these smaller properties to commence work on a more elaborate scale and before the summer is very far advanced there is reason to believe that machineryn will be hauled over there and several fine plants put up. The gold values in the ore of that neighborhood is an encouraging feature and leads to the belief that simething may soon come of the work being done there.

Badger NEVADA HILLS FIND CONFIRMED Bros.

President Windsor V. Rice Receives a Gratifying Re-- port from Mine.

WHAT MANAGER WEBBER SAYS

Five Feet of High Grade Sulphide Ore On the 150-Foot

Level.

The strike reported in the Nevada Hills mine in the Fairview, Nevada, district on Saturday, was confirmed in a report received by President Windsor V. Rice from Manager W. H. Webber today.

Supt. James T. Kescel, the expert millman of the Daly Judge mill, returned yesterday from a three weeks' trip to El Eigre, Sonora, Mexico, where he went to expert the workings of the mill of the Lucky Tiger Combination Gold Mining company.

Conditions at the Nelson Queen property in Elkhorn district are showing improvements right along and the management is clated over the prospects. The new machinery has not yet arrived but is expected now in the very near future, and when it has been placed operations will be prosecuted upon a more extensive scale.

One shipments—Daly Judge for the week 450,000 pounds. Naturally, those about the company's offices in the Dooly block were much gratified over the good news, which is considered very important to them for the reason that it is the first sulphide ore body of any consequence encountered since the development of this most interesting property began.

"Mr. Webber writes," said President Rice, "that he has opened a 5-foot body of ore on the 150-foot level, and that it will assay from \$60 to \$600 to the ton. While that statement is somewhat indefinite, I would say that it will probably average about one-half of the high figure given, or \$300 to the ton. The ract that the ore is sulphide in character has its meaning to us for the James A. Pollock & Co., bankers and reason that we are now reasonably asbrokers, furnish the following Nevada sured of the continuity of the veins at depth; in other words, it has demonstrated that the ore bodies of the Ne-

strated that the ore bodies of the Nevada Hills mine are permanent.

"Of course, the directors of the company have anticipated for some time that the strike just made would be as important as it has proved to be. We are also driving for the same ore body on the 200-foot level and it should not take us very long to reach it.

"Mr. Webber says in his report that the strike is the most important one that has ever been made in the property and I guess there is no doubt about it." The Nevada Hills mine is one of the most remarkable properties ever developed in Nevada. Within a few months after its discovery and acquisitoin by a syndicate of Salt Lake mining men it entered the dividend paying list. Distributions were made up to the close of last year when the company experienced difficulty in marketing its ores and shipments ceased. It is the intention of the company to erect a large milling plant and possibly construct a railroad between Fallon and Fairview in the near future. These matters will be discussed at the meeting of directors to be held in this city GOLDFIELD.

LOCAL MARKETS.

Today's local markets are about as well supplied with seasonable provisions as they ever were, only the retail combine continues to maintain prices so that the consumer does not receive much benefit from reductions by the jobber or wholesaler. Good looking strawberries are on the stands, at 25 cents per box; Florida tomatoes are on hand this morning, and there are car lots of oranges, Idaho potoes, mixed vegetables, etc. Wholesalers report efforts on the part of Los Angeles shippers to buil the Salt Lake markets; but Salt Lake commission men are fortu-nately in such shape that they can ward off all such attempts. There is a slight reduction in the wholesale price of eggs, as hens are doing their duty.

The prices obtaining today are as fol-

FAIR VOLUME AND

AN EASY MARKET New York, March 2 .- The stock market opened easy today on a fair volume of business. Atchison, Great Northern preferred and American Sugar yielded large fractions, but the losses in the remainder of the list were mostly trivial. Southern

Railway preferred advanced a point.

There was a brief period of firmnes. after business began but the traders did not permit the rise to proceed far before they began to offer stocks down, Union Pacific, St. Paul, Reading and

Union Pacific, St. Paul, Reading and American Smelting were the weak features, while Northern Pacific and Amalgamated Copper were notably firm, Erie second preferred fell 1½ and American Smelting.

The announcement of the cut in the quarterly dividend of the American Smelting company of 1 per cent, compared with 2 per cent for the preceding quarter was followed by a rally of 2½ in the price of that stock. The general list bardened and prices of some stocks sold over the Saturday level, National lead gained 1¾.

Bonds were steady.

The buying of stocks after the early losses had been recovered diminished, the market there after becoming almost stagnant with no precipible movement. Texas and Pacific and Amalgamated improved 1.

remely dull. There was a hardening again in the final hour. Union Pacific, Southern Pacific, Illinois Central, American Smelting and Anaconda rose one over Saturday's level and National ead 2½. Westinghouse Electric declined 1 and Denver & Rio Grande 1½.

PRODUCE.

Chicago, March 2.—Despite a sharp advance in the price of wheat at Liverpuol the local market was weak today owing to heavy realizing sales Prices declined nearly 1 cent during the first few minutes of trading but rallied again to about the opening mark. Small receips in the northwest had a strengthening influence. May opened unchanged to a lower at 25 to 20%, declined to 28%, 3% and then advanced again to 58%, 3%. There was very little trade in corn and the tone of the market was rather weak because of lower prices at Liverpool. May opened unchanged to 16% lower at dito 51% and sold off to 50%. Oats were quiet and steady; May opened unchanged at 55%, 50%, sold off at 55% and then ensed off to 53.

Provisions were fairly active and the market was steady. May Pork was 5 cents lower at 11.70. Lard was unchanged at 7.56. Ribs were a shade lower to a shade higher at 6.55% 6.5%.

The wheat market became very nervous later, prices fluctuating over a range of about two cents. It advanced to 9%, then sold off to 97%, 50% on profit taking. The close was weak with May 14.2% lower at 37% 2%.

Corn—A firmer tone preveiled in corn in last half hour. These was considerable covering by shorts as May ad-CHICAGO.
