### MINING, BUSINESS AND STOCKS

### DIVIDENDS FOR MONTH OF JAN.

Only Two of Utah's Bonanza Mines Appeared in the Column Of Velvet Getters.

#### SILVER KING AND UTAH CON.

All Others Failed to Respond Although Nearly All the Camps Are in Prosperous Condition.

Only two Utah mines paid dividends during the present month-the Silver King and Utah Consolidated. The former checked out the sum of \$100,000, and the shareholders of the latter receive between them \$450,000, thus making the total for the month \$550,000.

The directors of the United States Mining company met a few days ago and posted a dividend of 50 cents a share, but it does not become payable until Feb. 15.

To a good many the absence of Daly-West from the list will seem strange, as it has been a regular contributor for a number of years; but at the December meeting of the board of directors it was decided to make quarterly, instead of monthly distributions, as hereto-

fore.

None of the Tintic mines responded although several of them could have done so without causing the slightest embarrassment. The Annie Laurie of the Gold Mountain district, failed to get in line, as it had been accustomed to, and just why no one seems to offer a solution; but there is no occasion to believe that the big gold property in the south is on the wane, as it is a known fact that indications are very much to the contrary. The company is much to the contrary. The company is preparing to install an electric haulage system, and is making other improvements, so it seems more probable that those in authority believe it policy to suspend payments until the proposed

changes are made.

While the dividend record has been While the dividend record has been lighter than usual, work has progressed satisfactorily in nearly all the camps of the state. This has been particularly true so far as the camps of Bingham, Park City and Beaver county are concerned, and, it might be well to add, Tintle. Probably the month of February will see the dividend record brought up to somewhere near normal again. This has been a decidedly off month.

#### TRADING MORE BRISK.

Some Stocks in Better Tone-Closing Quotations and Sales.

Business was a little more brisk on Business was a little more brisk on the floor of the Salt Lake Stock & Mining Exchange today than it was yesterday and a few stocks displayed a tendency to strengthen, but there were no marked advances. A small lot of Daly-Judge sald at 6.50. May Day opened with 3,000 sharey going at 616. with 3,000 shares going at opened with 3,000 shares going at 61% cents and advanced a cent, after which a slight reaction came. New York hung around 45 cents; the demand for it being limited. A 200-share lot of Columbus Con., came out on the open board and the stock, which was offered at 80 cents, was promptly taken. Tetro, from which reports of improved physical conditions have been received, stiffened and, on the open board, sold up to 20% cents. For Daly-West, \$15 was hid, but the stock was not available at the price.

The closing quotations and sales were posted as follows:

NEVADA'S GOLD CAMPS.

Bonanza Inhabitants Move to New

There was something doing in the Buil Frog country last Saturday, when the inhabitants of Bonanza picked up their tents and other belongings and went over to the new town of Rhyolite, which had been laid out a mile distant. C. H. Elliott, C. G. Cushman, F. J. Busch, Sol Kamp and Percy Stanley are the owners of the new townsite, which is located about four miles from Amargosa and the same distance from Beatty, at the northwest base of Ladd mountain. The new town starts off with a hum, and gives indications of being strictly in it. Booker, Philbrook & Fenner have a man on the ground making the necessary surveys, ad will have their part of the work completed in a

Work on the new Columbia sampling works is being hurried as rapidly as possible. The building, which is 40x 00 feet, is nearly enclosed, the office building and scale rooms are completed, the concorte bed for the engine is in place, the crusher and rolls will be here in a few days, and when they are in place and the water connections made. Mr. Kadish will invite his friends, as well as all Columbians, to visit the plant and witness the starting of the first and largest sampling works in the desert. It will surely be an important event in the history of the Gem of the

Under the new management the Quartzite is pushing ahead rapidly. About thirty men are employed and shipping ore is being taken out and sacked. A shipment will be made next week, providing the present ore shoot does not give out, which is hardly probable from the present outlook. Drifting on the vein continues and it is expected that before many more feet of dirt is that before many more feet of dirt is taken out sensational values will be encountered-which will be just John Mc Kane's good luck.
J. F. Elliott, who represents the El

Oro Dredging company, and who is also interested in the corporation, has been in the district for a few days looking around. The company a short time ago secured control of about 1,000 acres of the old placer ground at Tule canyon, and is making arrangements to work and is making arrangements to work the same extensively. A monster dred-ger is on the way and, if no delay is ex-perienced in transportation, should be here in about two weeks. Mr. Elliott says he has found gravel in the canyon which will yield no less than \$2 per yard, which will surely prove a bonanza should there be any great quantity of it and the water supply does not fall.

and the water supply does not fail.

A few days ago W. E. SoRelle and associates from Denver, Col., closed a most important deal. They purchased from Messrs. McDannel, Marks, Shields and Graham, the Bull Dog group of four claims lying to the east of the famous Quartzite mine at Diamondfield recently secured by John McKane and associates, and which is now being put into shape to do mining and to extract shipping ores. The sale of the Bull Dog was made some time ago, but the final payment was made at Tonopah on Monday, the purchase price being in the neighborhood of \$12,000.—Goldfield

#### Milner Iron Properties.

What is commonly known as the Milner fron properties in Iron county, form the basis for the organization of the Utah Iron Mining company, articles of incorporation of which were filed in the office of the secretary of state yesteroffice of the secretary of state yester-day afternoon. The new company has a capital stock of 10,000 shares of the par value of \$100 each. The location of the property is in the Pinto district, and consists of the Dear, the Duluth Nos. 1 to 6 inclusive, the Milner Nos. 1 to 8 inclusive, and the Mountain Lion. Stan. B. Milner is president of the organization, Rich E. Dear, vice president: Fred H. Lerch, secretary, and Archie C. Milner and Clarence E. Milner additional directors. ner additional directors.

The company was formed, President Milner states, for the purpose of facil-itating the handling of the property.

#### CONCENTRATES.

Conditions are said to be improving at the Tetro mine in Tintic. Peter Porter departed for Nevada on mining business yesterday.

The Mammoth Mining company has several cars of ore at the samplers to-

U. D. B. Turner, of the West Quincy mine at Park City, has gone to Mil-

waukee. There is an assessment of 5 cents a

share pending on the stock of the Alta-Quincy Mining company,

The operating force of the Gold Blossom mine in North Tintic has been in-

W. C. Thomas, chief smelter man of the Newhouse staff, has gone to Den-ver on a brief business trip.

F. H. Buhl of the Western Explora-tion company, is in the city from the east, accompanied by Mrs. Buhl.

Manager W. C. Orem of the Utah. Apex mines departed on an inspection trip to those properties this morning. The directors of the Silver Shield Mining company have levied an assessment of 1½ cents a share; delinquent March

Sidney Bamberger, manager, and Newton Dunyon, consulting engineer, will inspect the Lower Mammoth in

Tintic this week. The ore and bullion settlements re-

ported late yesterday were: Crude ore and concentrates, \$32,000; base bullion, \$20,000; gold bars, \$20,000.

L. L. Terry, a Salt Lake merchant, who occasionally dabbles in mining, has been in camp for several days. He says that the Goldfield district looks mighty good to him and that he is to take a shot at it.-Goldfield Review,

At a special meeting of the stockholders of the Halifax Mining company of Tonopah, held in this city yesterday, a new board of directors was chosen, consisting of David Keith, Thomas Kearns, Frank J. Westcott, E. G. Kidder and W. W. Armstrong. David Keith, who has returned from a trip to the mine and from Mexico, was present, and explained that he recently ordered the mine shut down for the reason that it was folly to attempt to go deeper in the shaft with the present equipment.

The Goldfield Review has the follow-The Goldfield Review has the following to say of interest in this city: The Los Angeles chamber of communerce is behind a movement which is to construct a railroad from the nearest point on the Clark railroad into the Bull Frog and Goldfield districts, and that work on the same is to begin at an early date and hurried to completion. Should the road be built these districts will be placed within short-hauling distance to the smelters at both Los Angeles and Sait Lake—a matter which will prove of great benefit to the miners who have both high and low grade ores to market.

## LOCATION OF O. K. CONCENTRATOR.

Unless Water Can be Obtained From Beaver-Harrison Mine, Milford Will Get It

#### B-H HAS A VERY BIG FLOW

Development Can Only Progress by The Aid of Fumps -- An Important Asset.

The announcement made several days ago, by Managing Director Samuel Newhouse of the Majestic Copper company, to the effect that the O. K. mine will be equipped with a concentrating mill has caused some speculating as to the probable location of the proposed plant. That it will be built at a point where plenty of water is available, goes without saying; but there are a great many things to be considered affecting the cost of treatment before a definite decision is reached.

No water is available at the O. K. mine at the present time-scarcely a drop; which is evidenced by the underground workings, which, as the saying goes, "are as dry as a powder horn." The water level has not been reached, but it is believed it will be, in

At the Beaver-Harrison mine, only a short distance away, water has been a disturbing element for some time and development work has been able to progress only with the aid of pumps. It is claimed the flow is anywhere from 75 to 150 gallons per minutes, which would be sufficient, provided, economy was applied in its use, to keep a plant of 100 to 150 tons capacity going.

It has been suggested that it would be a stroke of good business policy on the part of Manager Newhouse if he should arrange with the Beaver-Harrison for the water now going to waste, son for the water now going to waste, and it is intimated that overtures along this line have already been made. The management of the latter, it is said, is willing to enter into an agreement of some sort as it would only tend to lessen the burden of keeping the underground workings cleared constantly. Unless the Majestic does secure the Beaver-Harrison water, the only plan left would be to build the proposed plant near the town of Milford, but it would have this objection: The cost of handling would be greater, as the railroad company would exact a freight charge for hauling the ore down to the charge for hauling the ore down to the reduction plant, while if the mill is put up nearer the mine this cost can be

The Beaver-Harrison properties are meritorious, and it might not be a bad plan if the Majestic should buy them outright. Possibly this cannot be done. it is believed to be possible that a deal can be made. The water rights alone would prove to be an important asset, with the chances favorable for

asset, with the chances favorable for the opening of large bodies of milling ore, which would leave a good margin of profit after treatment.

At the offices of the Newheuse mines, plans of Mr. Newhouse, as far as the Majestic is concerned, have not yet been made known. There are only two feasible locations for the proposed plant, either near the Beaver-Harrison or at Milford.

#### Nevada Stocks.

The San Francisco stock market was in fine form today. Montana-Tonopah, Tonopah Midway, Tonopah Extension, Columbia Mountain, and a number of others recorded marked advances. James A. #### HATCH PROPERTIES SOLD.

Purchasers Propose to Provide Reduction Works at Cost of \$75,000.

Information has come from Grand Junction to the effect that Colorado and eastern parties have closed a deal for the purchase of the Hatch copper properties at Sinbad, located in the La Sal mining district, in eastern Utah. Sal mining district, in eastern Utah,
The properties were recently subjected to thorough examination and,
upon the report of the engineers sent
out for that purpose, the deal was
promptly closed. The purchasers have
organized a company and propose to
expend \$75,000 in the erection of a copper furnace in which the ore will be
reduced to matte.

reduced to matte. The mine is located 55 miles from the nearest railroad station, but there is a good wagon road all the way out to Cisco, on the line of the D. & R. G.

### TheYampa Smelter.

The new reverberatory furnace being put in at the Yampa smelter, Bingham, is nearing completion, but it will probably be several weeks before it is placed in commission. There are a number of details to be arranged, including the installation of a matte conveyor.

In the meantime the two roasting furnaces are in correction, and producing naces are in operation, and producing about 50 tons of matte daily.

# UNION PACIFIC.

Made That Stock Weak and Aftected Tone of General Market In Sympathy.

#### C., ST. P., M. & O. MAKES RISE

Went Up Seventeen Points-Specula. tive Preferences Were for Vanderbilt Holdings.

New York, Jan. 31.-Large realizing in Union Pacific made the opening in that stock today weak and affected the tone the general market in sympathy. Stocks which have been mentioned in connection with the rumored important developments and deals fluctuated widely during the early trading. Chicago, St. Paul, Minneapolis & Omaha continued its recent buoyant course, touching 217, a rise of 17 points. New York Central bounded up 21/6. Wisconsin Central preferred 214. New York, Chicago & St. Louis second preferred 21/2 and Kansas City Southern preferred 2%, C. C. & St. Louis, C. & O., Canada Southern, Peo-ria & Eastern Illinois, Wisconsin Central, the Atchisons and Twin City, Rapid Transit also rose 1 to 14. Prominent stocks otherwise railled from the opening depression. Union Pacific reached 122% At 11 o'clock Pennsylvania began to share in the heavy buying of the eastern stocks and sold at 1381/2.

share in the heavy buying of the eastern stocks and sold at 138½.

The speculative preference was clearly defined for properties in which the Vanderbill' holdings are understood to predominate and the excited movements in these stocks caused expectation of some important plan affecting them. Cal. ago. St. 1/aul., Minneapolis & Omaha soared 25 points on light takings and the preferred 35 points on a single transaction. Northwestern gained 8½, the preferred, New York, Chicago & St. Louis second preferred 3½, Buffalo, Rochester & Pituburg preferred 5, and New York, Chicago & St. Louis, Peorlia & Eastern, the Lake Erie and Western stocks, D. & H. and illinois Central 1 to 7, Missouri Pacific, Amaigamated Copper, Tennessee Coal. Republic Steel preferred, People's Gas and Really rose a point or more and the general list moved upwards, but with some constraint. The movement in the Vanderbill's showed signs of culmination when St. Paul was rushed up to 188 and United States Steel preferred advanced strongly. The Pacifics were under pressure, Attention was diverted from bonds, but they were steady at noon.

Speculation in stocks was of a more conservative character during the late session. With the culmination of the excited buying and sensational fluctuations in the high grade stocks the market relapsed into comparative quiet and steadiness. Realizing sales were themselves felt from time to 1/se, particularly in Union Pacific, which soid off again to below 122. The Wisconsin Central stocks were bought steadily at considerably higher prices, the common touching 24½ and the preferred 50%.

### Read This Before You Start To The East.

For your trip, no matter where your destination may be in the East, you will find the Burlington the most satisfactory route, because it offers its own thro' service to St. Louis and Chicago. You have choice of going via St. Louis and returning via Chicago, or otherwise varying your trip and remaining always the guest of the Burlington.

Before you definitely plan a trip, let me know your prospective destination and see if I have not some very valuable suggestions.

No other road offers such a choice of routes.

R. F. NESLEN, Ceneral Agent, 79 West Second South Street. Sait Lake City.
