COMBINATION.

SALT LAKE CITY, UTAH,
February 23rd, 1882.

L. B. Mattison:

Dear Sir—The Albion Spring Tooth Harrow I bought of you last year was used over two hundred and fifty acres of plow land and meadow and gave good satisfaction. I also used it in cultivating corn and potatoes. I also put in ten acres of oats on newly broken sod and it did its work well and with ease to the driver and team. This year I want the seeder attachment.

To use the harrow successfully as a cultivator the corn must be planted in straight rows from three and one half (3½) to four (4) feet apart.

Respectfully,
s & w tf ALMA PRATT.
