

Writ Issued by Judge Steware in Accordance with Petition of Jesse C. Little.

# FURTHER ACTION IS STOPPED.

Case is One in Which Judgment Was Entered by Default in Judge Tanner's Court.

Jesse C. Little today flied a petition In the district court for a writ of review directed against A. C. McLean and Judge H. S. Tanner of the city court, in which it is asked that the proceedings taken in the city court in the case of A. C. McLean against the petitioner herein be reviewed by the higher court and that the lower court be restrained from taking further action in the supplementary proceedings in the cāse.

The petition alleges that the complaint was filed against petitioner in Justice Kroeger's court on Oct. 7, 1901, and was brought to recover \$43 and interest on a promissory note dated June 8, 1897, less the sum of \$40 which was paid on the same. Petitioner allowed the case to go by default and default judgment was rendered against him on Nov. 6, for \$154.55 and costs amounting 5, 5240. Mr. Little was unaware that to \$3.40. Mr. Little was unaware that judgment for such an amount as the above had been rendered against him until he was cited to appear before Judge Tanner on Aug. 10, 1963, for examination on supplementary proceed-ings. He filed a motion to quash the citation and to set aside the judgment in excess of the amount named in the summons, but the court denied his mo-tion. He asks, therefore, that the pro-ceedings in the case be reviewed by the higher court. A writ of review was accordingly issued by Judge Stewart.

There are no sidewalks in Bingham, no benches to sit on, no parks, shade, green grass to roll, on, their only place is the sa-loon. Then we have a class of business men or outsiders who make weekly trips to Bingham on Sundays, they too coming down off the hills, foot sore, thed and weary, feel the hospital-ity, and a boon of a 10 minute's rest in the frinedly saloon, which they can-not do now under your recent order.
