

MINING, BUSINESS AND STOCKS

LOCAL EXCHANGE RECORDS GOOD DAY

Volume of Business Well up to Average With Prices Mostly Well Sustained.

UTAH STOCKS ARE ACTIVE.

Total Shares Sold Compares Favorably With Sales of Morning Session for Some Time Past.

Business on the floor of the local exchange opened up quite briskly this morning, the volume of business done was well up to the average, and prices were for the most part good. There was considerable activity in New York both during the regular call and on the open board, the price ranging from 34 to 35 cents. Colorado Mining was also fairly active at 50 to 54 cents as was Little Chief at 84 to 94.

During the regular call a total of 24,755 shares changed hands, representing a total valuation of \$7,543.10, while the open board sales amounted to 13,345 representing a worth of \$12,400.25.

CUTS MAIN CHUTE.

New Stockton Mine Breaks Into Principal Ore Body on 1,000-Foot Level.
T. W. Gallagher, superintendent of the New Stockton Gold Mining and Milling company, with properties at Stockton, is in the city at present on business connected with the mine. Mr. Gallagher is the bearer of the first authentic news which has reached Salt Lake regarding the latest developments on the 1,000-foot level. Late Saturday night contact was established with the main ore chute of the property on this level on a crosscut distant 250 feet from the main shaft. This is the same chute which has given such excellent returns on the 550 level, and which has opened up an each level between the 550 and the

PLAN TO DATE MANHATTAN MINES

Proposed Merger Being Arranged By Several Prominent Gold-field Mining Operators.

STRAY DOG AND JUMPING JACK

To Be Included If Deal Is Concluded—Also Union No. 9 Claim of The Dexter.

Special Correspondence.
Manhattan, Nye Co., Nev., Sept. 8.—The plan of merging several mining properties into immense estates for the sake of economical operations has extended to Manhattan, where details are being worked out making for the consolidation of the Stray Dog, Indian Camp and Jumping Jack mines, with the Union No. 9 mine of the Dexter estate into one corporate body of mineral ground. It is stated here on apparently unquestioned authority that the owners of the control of the three first named mines have been approached with an attractive offer for their holdings and that the matter is receiving serious consideration. It is also stated upon equally as good information that there has been a bear movement in Dexter for the express purpose of affording the manipulators an opportunity to buy in most of the outstanding stock at a low figure before the consolidation is consummated.

It is pointed out by those who are well informed on the subject that such a merger would result in the formation of one of the most valuable mining estates in the state of Nevada. Some time ago there was a plan on foot for the consolidation of the Union No. 9 with adjoining ground, but as the controlling interests in the Dexter could not secure control of other property that they desired to include in the merger the deal fell through. At that time a very flattering offer was made for control of the Stray Dog and Indian Camp, but not enough to tempt the owners of these famous mining properties to part with their holdings.

A number of the most extensive operators of Manhattan and Goldfield are interested in the project, and considerable progress has been made and there is every prospect that the consolidation will be consummated within a short time. If completed, the corporation taking over the several properties will rank with the big mining concerns of the country. In connection with the proposed merger it is known that L. M. Sullivan, president of the L. M. Sullivan Trust company of Goldfield, has conferred with George Wingfield, one of the heaviest stockholders in the Dexter company, relative to the project, and has made him an offer for his Dexter holdings, amounting to approximately 200,000 shares, at a figure considerably over the market.

The As-You-Like-It estate may also form a part of the consolidation, providing the small piece of intervening ground between it and the Stray Dog can be acquired. It is known that the syndicate at the head of the merger movement has considered taking in this property owing to the discovery recently of high grade ore on the As-You-Like-It claim and the Lizard Fraction, belonging to the same corporation. Just what price was offered has not been learned definitely, but it is said to have been better than 35 cents per share. Development work on the As-You-Like-It property is being aggressively prosecuted with a view to making the best possible showing before the consolidation is perfected, so that the ground's true value may be determined. Development work on the stock in the event the owners decide to join the merger. With every round of shots the two orebodies are showing constant improvement, however, and the owners of the mine may very likely decide to operate their holdings independently.

As a result of the negotiations there has been a sharp advance in Stray Dog, Jumping Jack, and Indian Camp on the San Francisco and New York exchanges, due to an unusually heavy buying movement. Thursday, Stray Dog sold at 48, Jumping Jack at 48, and Indian Camp at 43—a gain of from five to eight points in less than a fortnight.

STRIKE NEAR IBAPAH.

Tunnel to Be Run on the Queen Property—Mill to Start.

Special Correspondence.
Ibapah, Utah, Sept. 4.—A sensational strike is reported from the Jumbo property in Utah county, but particulars are lacking. Nevertheless, there are good reasons to believe that another shipper from that end of the Deep Creek region will soon come to the front. Manager J. Lawton of the Queen mine near here has surveyed in the field a line for the proposed tunnel to be pushed into the mountain on that property which will cut the Queen ledge considerably below the present workings. It is understood the owners of the mine will have the mill in operation before the close of the present year.

CONCENTRATES.

Dr. E. W. Whitney has gone to Ocala, Nev., on mining business.
Last week's ore and bullion settlements reached the total of \$612,200.
E. W. Clark, manager of the Ophir Hills property, is in the city today on business connected with the mine.

Frank L. Wilson departed this morning on a two weeks' trip to the Lucy L. mining property in the Deep Creek country.

The directors of the Nuldridge Mining company met on Saturday afternoon and levied an assessment of 2 cents a share, calling for \$9,000. Development work is to be resumed.

Two Tintic mining companies posted dividends on Saturday afternoon—the Swansea and Uncle Sam Consolidated. Payments will be made on the 25th inst. Each company will pay \$5,000.

M. H. E. Boothie spent yesterday at the Nelson County property in the Snake creek district near Park City. He says the property is looking well, and brings with him some ore which would seem to bear out his statements.

Mr. Jas. J. Burke, the well known contractor, has reached the city, and expects to be here some time. Mr. Burke has just finished his contract for the erection of the 350-foot stack for the new smelter of the Utah Smelting company, near Ogden.

STRONG TONE PERVADES STOCKS

Opening Dealings Were Active With Large Blocks Changing Hands.

SELLING MOVEMENT CHECKED

Announcement of Gold Imports the Cause—Much Buying Centered in Obscure Properties.

New York, Sept. 10.—Opening dealings in stocks today were active and large blocks of some of the speculative favorites changed hands. Prices were higher throughout but the changes were generally small. Great Northern pfd. showed a gain of 1/4, Atchison 1/4 and Southern Pacific, Texas and Pacific and Interborough Metropolitan large fractions. A block of 450 shares of Erie sold at the opening at an advance of 5.

The announcement of large gold imports checked a selling movement that cost leaders of the list generally a fraction. Prices rebounded generally. Attention moved up 2 1/2 to 10 1/2 in response to the favorable findings. Republic Steel improved 1/4. Lead and Delamar and Hudson 1/4 and Texas an Pacific 1/4. A decline of 1/4 in St. Paul was the feature of the day. The movement was in the Southern group a recovery. Prices dropped again when selling became prominent in Reading, St. Paul and Erie. Fluctuations in the general list were steady at noon.

None of the active stocks showed the effect of any large operation and a good buying movement centered in the obscure stocks. Fluctuations in the general list were steady at noon. There was hesitation still manifest in the movement of prices, notwithstanding special points of strength. Northwestern preferred rose an extreme 8 points. Pullman 5 points, Minneapolis and St. Louis 5 Iowa Central 1/2 and Kansas City Southern 1/2. The Allis-Chalmers stock declined 1/4 to 1/2. Late in the day Atchison moved up to over 110, but the closing was irregular.
