DEPUTY SHERIFF ON SCENE.
Deputy Sheriff Jos. Sharp is the only representative of the law at Birmingham Junction, and he has gone out merely to look over the situation and be prepared in case of future emergency. The sheriff's office does not anticipate serious trouble, as the men are "whites," and are not as difficult to handle as the Austrians and Greeks who know but little English, and are uncommunicative when approached.

In case of a fight over the wage scale, the smeltering company is said to be prepared for a long struggle, as it is ready to ship its product to other plants, until labor conditions here become more settled.

UP GOES FLOUR.
Flurry in Wheat Causes Local Millers To Raise Price.
The flurry in wheat have sent the local flour market up 20 cents per cwt., and prices in this city are now as follows: High Patent, \$2.20; Straight Grade, \$2.00; Family Flour, \$1.80.

GIRL ARRESTED.
Story of Young Woman Who Began to Amass Wealth.
Pearl Moore of 17 east Eighth street, was arrested Saturday afternoon, on complaint of Photographer C. H. Monroe of east Second South street, on charge of theft, which may develop into grand larceny. The girl was taken into the photographer's employ three months ago, when she appeared in search of employment, and according to the statements made by the Monroe, she put up a most wonderful story about her father being a drunkard and no good, and of the great straits her family had been reduced to, and that the girl was nearly dead, and her appearance did not belie the assertions about her financial condition.

But, in a month, Pearl spruced up remarkably. It was noticed that she did not bring lunches with her any more; she went out for lunch at a popular restaurant, and she carried with her boxes of candies, salted peanuts, and other good things. Moreover, Mrs. Monroe noticed an improvement in Pearl's attitude that she was much larger salary than an office girl who is a photograph gallery was in the habit of receiving. In fact, Mrs. Monroe "kept cases" on the girls, new clothes, and estimated the cost of the girl's wardrobe at \$150. This was aside from the cost of lunches, perfume, and other things.

Mr. Monroe became convinced two weeks ago that with all the business they were doing, the receipts ought to have been larger—there was a leak somewhere. But how to catch the fish that was eating the bait was something of a poser. The goods were in an unsatisfactory shape, and on one or two occasions when Pearl was questioned too closely for comfort, she acknowledged having made errors, which were rectified. Finally, Mr. Monroe sent the girl out on an errand while he examined her pocket book, and she left in her coat in the hall. It contained 25 cents. Then he sent a man up to the gallery with a nickel dollar to pay an imaginary bill of \$2.50. Later he sent up another with \$2.50 in a nickel silver, on a similar errand. Pearl took the money, and presently the girl made but he did not find the girl's purse hid away in another drawer wrapped up in a handkerchief. The purse on being opened disclosed \$2.75, all but the nickel dollar, 25 cent piece being in the nickel silver.

Mr. Monroe then called Pearl up, when she brazenly denied knowledge of anything of the kind, and claimed she had done nothing wrong. But when confronted with the evidence, she owned up. Mr. Monroe says, to having taken pearls, but his police man was sent for, but his appearance failed to phase the girl, though she said she thought she could find means to repay what she had taken. As she went out, Pearl requested Mr. Monroe to please say nothing about this to any one. Mr. and Mrs. Monroe investigated further and ascertained that Pearl had as-

That Tired Feeling
That comes to you every spring is a sign that your blood is wanting in vitality, just as pimples and other eruptions are signs that it is impure.
One of the great facts of experience and observation is that Hood's Sarsaparilla always removes that Tired Feeling, gives new life and courage. Take Hood's Sarsaparilla.

Hood's Sarsaparilla
In usual liquid form or chocolate tablets called Sarsatabs. 100 Doses \$1. Guarantied. Manufacturing Drugs Aet. June 20, 1906. No. 24.

recitations which made it advisable to take a decision. So she was arrested. They feel reasonably sure the girl has taken several hundred dollars; but at this moment can not tell definitely.

NEVADA SUPERIOR MEETS.
Elected Officers, Directors, and Hens Reports of Mine and Its Affairs.
The Nevada Superior Mining company, owning and operating property in Humboldt county, Nevada, is holding its annual meeting in this city today. The officers elected are: E. D. Woodruff, president, and John W. Geiger, secretary. The directors are E. D. Woodruff, E. P. Saunders, Allen T. Sanford and E. Correll of Salt Lake and Ford W. Correll, D. R. Peterson and Otto Grantz of Rockford, Illinois. The company is capitalized for 300,000 shares, 22,000 constitute treasury stock and the remainder with the exception of 3,000 shares was represented at the meeting. The stockholders' meeting was held yesterday but adjourned without transacting any business. Immediately after being elected the directors met and elected the officers mentioned. The directors have authorized a managing board consisting of E. D. Wood, H. P. Saunders and Ford W. Correll. Mr. Correll is managing director of this board.

The mill being built on the property—a factor concentrating plant—was one of the few improvements brought up for discussion and under the splendid financial and physical conditions of the company and the fact that the good work is being overlooked. The mine is being worked by means of the 300-foot shaft. Drifts have been run on the 100, 200 and 300-foot levels and extensive development has been accomplished throughout. The property has shipped considerable ore but is now letting its milling stuff accumulate for treatment at the property. The Nevada Superior was one of the first properties in Humboldt county to get in producing shape.

A. L. THOMAS RETURNS.
Postmaster Back From Trip to the Opening of Jamestown Exposition.
Postmaster A. L. Thomas returned this morning from his 20 days trip to the opening of the Jamestown exposition. He managed to enjoy the occasion, although there were only four pleasant days during that time. He says that the president delivered a really great speech at the opening ceremonies, and the naval maneuvers with over 40 war vessels of different nations, was most imposing. The buildings are as yet incomplete, but when they are ready the exposition will be a great affair. The postoffice, the treasury, and other departments are making a fine showing, notably the treasury department which is making a specialty of the revenue marine. The location is nine miles from Norfolk, looking out upon the Hampton Roads where the Monitor thrashed the Merrimack early in the Civil war, and revolutionized naval warfare.

Postmaster Thomas arranged for Utah day to be observed Oct. 15, when Gov. Cutler and other prominent Utah people will be present. The best way to reach the exposition is to go to Washington by rail, and then take the steamship.

SOCIETY OF ENGINEERS.
Organization Launched and Committee Appointed at University Club.
A meeting of engineers was held last evening at the University club, to organize a Utah Society of Engineers. The membership will consist of electrical, mechanical, mining and civil engineers, as well as the individual members of the association is to foster and encourage engineering applications in the useful arts, to further the advancement of the individual member and the profession as a whole. For some time there has been need of such an organization.

Among those present at the initial meeting were: Oscar Lachmann, Jos. F. Merrill, Ph. D. of the State University; E. Beckstrand, M.E.; A. O. Gates, of the A.I.E.E.; D. McNeil, A.I.E.E.; W. N. Tanner, R. R. Corey, Geo. O. Chaney, R. C. Armstrong, Richard E. Lyman, Ph. D., H. P. Saunders, and other prominent engineers.

A committee was appointed, consisting of Messrs. Chaney, McNeil, Saunders, Armstrong, and Dr. Lyman, to draw up a constitution and bylaws for adoption at the next meeting of the club.

FOOD ORDINANCE DUE.
The special committee, consisting of Cornelius Peniston and Holley, appointed to formulate a new ordinance consolidating the city food inspector and city sealer of weights and measures, will meet tonight with the city council to consider the matter so as to submit an ordinance at the next meeting of the council. A delegation from the Builders and Trades association of this city will probably attend the meeting to offer suggestions.

MORTON TRUST CO.
FILES ITS ANSWER
Important Documents Placed on Record in U. S. District Court Today.

COVERING SIXTY-ONE PAGES.
Among Other Things the Statute of Limitation is Set Up in Defense By Corporations.

A very important document was filed this afternoon in the United States district court in the form of the separate answer of the Morton Trust company to the complaint and amendment in the case of the United States of America against the Pleasant Valley Coal company, the Utah Fuel company and the Morton Trust company. It will be remembered that suit was instituted by the government some months ago against the defendant companies, alleging that they had fraudulently come into possession of certain coal lands in southeastern Utah. That is, that the Pleasant Valley Coal company and the Utah Fuel company had obtained title to the lands in question, and the Morton Trust company was made a party to the action because of the fact that it held a mortgage on the lands for money advanced to the companies named.

FOUR BILLS IN EQUITY.
Bills in equity were filed in the federal court, two against the Pleasant Valley Coal company, and two against the Utah Fuel company, and in the four the Morton Trust company figures as a defendant. The bills are numbered 887, 888, 889 and 890, and are filed against the P. V. Coal company, and the Morton Trust company, and the Utah Fuel company. In each instance there are two phases to the complaint. The first alleges that individuals, at the instance of the defendants, secured title to coal lands, with the intent of securing said lands to the defendants, which action was subsequently taken. The second allegation is to the effect that the defendants and the coal company secured possession of the lands, of coal lands that had been acquired by such individuals under false pretenses, to-wit, that the Utah state land board had been advised that the said lands contained no minerals, and were fit only for grazing or agricultural purposes; whereupon, the state was induced to make choice of such tracts under the provisions of the grants made to it by the government, and in turn sold to individuals, whereupon the latter turned the acquired lands over to the defendants, company and coal company, knowing full well that the lands contained minerals and could not be secured lawfully in the manner in which they had come into possession of them.

THREE LINES OF DEFENSE.
As before stated, the papers filed in the federal court, contain the separate answer of the Morton Trust company. The document is composed of 61 closely type-written pages, and is a most carefully drawn instrument. Briefly stated, the lines of defense are three in number to each of the four bills, No. 888 excepted, which latter contains but two grounds of defense. First, it is denied by the Morton Trust company that there was any fraud whatsoever in the acquisition of the lands in question by the Pleasant Valley Coal company and the Utah Fuel company, and the Morton Trust company holds a trust deed in the lands. It is maintained that if there were elements of fraud in acquiring of title, such a condition does not affect the trust company, as it was an entirely innocent party in the transaction. The line of defense is that the trust deed being given by the company and the coal company to the Morton Trust company. Second, it is denied by the Morton Trust company that the Pleasant Valley Coal company and the Morton Trust company, the statute of limitation is set up to apply to No. 888, excepting No. 888, affecting the Pleasant Valley Coal company and the Morton Trust company, the statute of limitation is set up to apply to No. 888, excepting No. 888, affecting the Pleasant Valley Coal company and the Morton Trust company.

ACCOUNTING WANTED.
Step-Mother of Bessie Tufts Charged With Appropriating Charge's Money.
A request was made of Judge Armstrong today by Mrs. A. L. Young, guardian of the person of Bessie Tufts, for an accounting of the estate of the girl, and the former Judge W. C. Hall is guardian. An accounting is asked so as to ascertain what property belongs to the girl, who is the daughter of the late Don Tufts and was left a minor. The National Bank was the executor of the estate of the late Don Tufts, and it is claimed that the step-mother of the girl was given orders to consider the matter so as to submit an ordinance at the next meeting of the council. A delegation from the Builders and Trades association of this city will probably attend the meeting to offer suggestions.

GETS ONE YEAR.
Sheriff Smith Brings Colored Prisoner From Cache.
Harry Hutchinson, colored, who was convicted in the first instance for the crime of grand larceny, was brought to Salt Lake yesterday by Sheriff T. H. Smith of Cache county and delivered to Warden Pratt, of the state prison, where he was sentenced to spend one year. Hutchinson purloined a suit case from a passenger car on the Oregon Short Line at Cache valley, and the case was found to contain at \$55, which was \$5 more than necessary to make the offense grand larceny.

NINE NEW LAWYERS.
Supreme Court Admits That Number To Practise.
At the session of the supreme court today nine lawyers were admitted to the bar upon the recommendation of the committee of bar examiners. They are: J. R. Haak, J. O. Cross, C. C. Parsons, Jr., Arthur E. Moreton, Ruel Walton and Ernest Bramwell of this city; Charles W. Johnson of San Francisco; Peter Hansen of Vernal; Ezra E. Robinson of Bountiful.

Mr. Cross is principal of one of the city schools. Ruel Walton and Ernest Bramwell are attorneys at law in the city of Utah. Arthur Moreton is the son of City Recorder J. B. Moreton and is a clerk in the office of the clerk of the city division of the city court.

EveryBox of Sweet's Milk CHOCOLATES Sold, Sells Another One.
A matter of taste-satisfying which is becoming better known every day and more and more Candy Lovers are asking for the favorite confection of the candy-wise.

THE BRIGHT RED PACKAGES.
Found and half-pounds at the first-class candy stands.

BRIBERY RUMORED.
Sensational Charges Bring Damage Suit to Sudden Termination.
Judge Lewis today dismissed the case of Ida M. Hayes et al., against the Rio Grande Western Railway company without prejudice. This action was taken on motion of the attorneys for the plaintiffs. The suit was brought to recover damages for the death of John Hayes, who was killed in the Rio Grande yards over a year ago. The case had been sworn in to try it and part of the evidence had been taken for plaintiffs when the proceedings were stopped by an investigation by the court as to certain rumors of bribery of witnesses for the plaintiff. Nothing was done in that matter, however, but it was deemed advisable by the attorney for the plaintiff to dismiss the case without prejudice. This was done.

VAN LOONS SENTENCED.
Burglar and Wife Get One Year Under New Law.
Judge Armstrong today sentenced Walter Van Loon and wife, Marie Van Loon, to one year each in the state prison for the crime of burglary in the third degree. This is the first case sentenced for burglary in the third degree under the law defining that offense which was passed by the recent legislature. The Van Loons, a wife and son, lived on the old Walker property at 411 south Main street on May 1 and stole some property which belonged to Samuel Newhouse, the recent purchaser of the property. The defendants pleaded guilty to the charge.

J. S. Castleberry was arraigned upon two charges of embezzlement and was given until May 17 to enter his plea. Mike Acelio of Murray was arraigned upon the charge of assault with a deadly weapon with intent to do bodily harm and pleaded not guilty to the charge. The trial for the assault case is set for May 22. He is charged with attempting to shoot A. Theodore at Murray on April 15.

The case against John Long, charged with distributing the poison at Murray by discharging a gun on the street on Sept. 2, 1905, was dismissed by Judge Armstrong today after hearing the evidence. Long's bondsmen were released.

NURSES GRADUATE.
Impressive Exercises the Feature at Barratt Hall Yesterday Afternoon.
An impressive scene was that at Barratt hall yesterday when 37 graduates of the Relief society's free training class for nurses filed across the platform to the sound of inspiring strains of music, and received from the hands of General Superintendent Mrs. Emma Empey their certificates of graduation. Dressed in neat white gowns with the blue badge of the Relief society on the right arm, they presented a pretty sight, impressing on the audience a mental image of the ministering angels whose part it is theirs to fill.

The exercises closed with singing, and prayer by President Willard Young of the L. D. S. university, and the program included remarks by Mrs. W. W. Young, of Ash Grove, and Mrs. Robert Smith, president of the Relief society, D. Margaret C. Roberts and Mrs. Phoebe A. Beattie, the chief feature being the address of Mrs. Robert Smith, who spoke in absence of Mrs. Mathews B. Smith, president of the Relief society. She spoke of the noble mission opened to them in this preparation for ministry, and the duties of the class which she has so successfully taught. She spoke of the noble mission opened to them in this preparation for ministry, and the duties of the class which she has so successfully taught.

Response to this was made by Miss Marie Willardson of Ephraim, Utah, who spoke of the appreciation of the class for Mrs. Roberts' efforts and their feeling of loyalty to their teachings. She paid tribute to the noble character of their preceptors, and declared that they might all be worthy of her high example.

There was delightful music interspersed with the program. Miss Mattie Peterson, Miss Edith Grant and Miss Elma Young soloists, while entertaining papers were read by members of the graduating class. Miss Mattie Peterson, Miss Edith Grant and Miss Elma Young soloists, while entertaining papers were read by members of the graduating class.

With the graduation of this large class closes the work of the Relief society for this year. The Relief society has been a most successful organization in the worthy work of its pupils. Many words of praise were spoken for her high calling and efforts, the result of which cannot be measured in words. The meeting closed with prayer by Elder B. H. Roberts, and singing of the "Doxology" by the large audience.

SHIPPING SHEEP OVER CLARK ROAD
Five Trainloads of Fleece Covered Animals Will be Transported From Utah to Arizona.

AVOID THE DESERT REACHES.
Shipment Will Go to Daggett, Cal., Over the Salt Lake Route, Thence to Flagstaff on the Santa Fe.

J. T. McIntyre, one of the principal sheepraisers of Arizona, has consummated arrangements whereby he will ship by rail, from Milford, Utah, to Flagstaff, Arizona, about 9,000 sheep within the next few days. Heretofore Mr. McIntyre, and all Arizona growers using the Utah range, have been compelled to trail their sheep between the two localities, and the long reaches of desert country over which the sheep were driven usually resulted in considerable loss to the herds. But since the efforts of the freight officials of the Salt Lake route, acting in conjunction with the officials of the Santa Fe, over which the sheep will be shipped from Daggett, California, a rate has been put in which justifies the shipping of the sheep the entire distance.

About five trainloads will be loaded at Milford and conveyed as far as Daggett on the line of the Santa Fe. At that point the cars will be sent over the Santa Fe, which runs right into the city of Flagstaff, the destination of the shipment.

WILL BUILD ATHOL CUT-OFF.
U. P. Will Avoid Steep Hill Between Cheyenne and Denver.

Cheyenne, Wyo., May 14.—Telegraphic instructions have been received here to resume at once the building of the Athol cut-off, on the Union Pacific railroad between Cheyenne and Denver. The contract amounting to about \$500,000 was let some months ago, and soon after work began it was ordered discontinued. The cut-off is built to avoid the steep grade over Athol hill, which has caused a time of trains between the two cities.

E. M. HEIGHO HERE.
General Manager of the P. & I. N. Railroad Visits Salt Lake.

E. M. Heigho, vice-president and general manager of the Pacific & Idaho Northern railroad, and G. M. Wolfe, from the New York offices of the road, were in the city yesterday visiting the local office of the P. & I. N. known as the "Pin" road, is located in western Idaho, and extends from Weiser to Council, a distance of about 100 miles. "We are working on an extension of the road from Weiser to Council, and expect to reach Meadows, about 20 miles further on through the mountains, this season. The country is heavily timbered in this section, and a number of saw mills are already in operation. Idaho is a prosperous state, and especially the western portion," said Mr. Heigho. In the general state is the best in the country, her mineral wealth is just becoming known, and railroads is only in its infancy. We look for a great future for Idaho."

THE MACHINISTS NOW.
One Thousand Repairmen Want Wages Evened Up.

New York, May 14.—The machinists in the repair shops along the Erie railroad, it is learned, are dissatisfied and will demand important changes in a proposed new agreement which will be submitted to the officials. President O'Connell of the Erie Association of Machinists and a committee of 17 from the shops from Chicago to Jersey City arrived here yesterday and arranged for a conference today with J. Stuart, general manager of the Erie.

The members of the special committee represent about 1,000 machinists. The principal object of the strike is the inequality of the wages. L. McMillan, president of the Erie railroad district of the machinists, said:

"We hope to avoid trouble. We are not looking for trouble and will do all in reason to avert it." Mr. Stuart said that he believed matters would be adjusted satisfactorily.

BIG CAPITALISTS HERE.
R. V. Norris, consulting engineer for the Pennsylvania Railway and Coal company, W. S. Warringer, manager Lehi Coal & Coke company and R. L. Vardner, manager of the Harts Coal & Lignite mines company of South Africa, were here at the end of the week. They were guests of Ernest R. Poolley, president of this city's electric power company, and visited the mine under his guidance. The trio represents any amount of capital and in the near future a story may be published as a result of their visit.

THROWN OPEN JUNE 25.
Plats Received From Washington to Land Open to Entry.

The United States land office in this city has just received the following circular from the surveyor general's office relative to plats to be filed:

Notice is hereby given that the following township plats have been received at this office from the United States surveyor general for Utah, viz:

Township 2 south, range 2 west, S. L. M. Township 4 south, range 18 west, S. L. M.

Said plats will be filed in this office June 25, 1907, and the land embraced therein will then be thrown open to application under the public land laws. E. D. R. THOMPSON, Register.

WAS HE BOGUS LORD?
Speculation as to Whether Dead Man Is Bereford Hope of England.

Many Salt Lakeers who recall the career of Lord Bereford Hope in this city, and his final disappearance from Boston, after papers were issued here for his arrest, are wondering if telegraphic reports as to his death in Asheville, N. C., are correct.

According to the dispatches sent out from Denver the body of a man found dead in the North Platte river was identified by a Georgia attorney as that of the notorious Lascalle, which it was claimed by some was the real name of Lord Hope. While here he was positively identified as a "Dr. Arnold Kingsley," who had worked extensively in Denver this morning but was soon recognized by a Georgia attorney as that of the notorious Lascalle, which it was claimed by some was the real name of Lord Hope. While here he was positively identified as a "Dr. Arnold Kingsley," who had worked extensively in Denver this morning but was soon recognized by a Georgia attorney as that of the notorious Lascalle, which it was claimed by some was the real name of Lord Hope.
