Another Terrible Explosion in Paris!

The Tuilleries Burned Down!

Fighting Resumed—The Federals Disputing Every Inch of Ground!

WASHINGTON, D. C.

Probable vote on the treaty to-day—Claims against the government of Venezuela.

WASHINGTON, 24.—The probability is that the Senate will remain in session to-day until the treaty is voted on.

In the Senate this morning the presiding officer, Anthony, presented a memorial of Flanagan Henry Woodruff, for himself, and as trustee for the undersigned Courtland, Palmer and John M. Donalson, trustees of the Poultney National Bank, by Henry Woodruff, attorney, stating that they have just claims to the amount of one quarter of a million dollars against the government of Venezuela for losses accruing by its failure to perform its obligations and duties under certain grants relating to the construction of a railroad from Carcaste to Petare, and its wrongful and arbitrary acts in seizing, by military force, materials tools and equipments connected with the construction of the road, etc.; they, therefore, ask the Senate to give some one of its committees power to send for persons and papers to make examination into matters connected with the proceedings, and, in the meantime, that such proper action may be taken as may cause said money to remain undistributed to the holders of the certificates payable to bearer until such time as the committee may make a report thereupon, to the end that corruption may not be deprived of its reward and justice be done. The memorial was referred to the committee on foreign relations.

NEW YORK.

The Erie Railroad Affairs.—Bonds.

NEW YORK.—The parting banquet to the British Commissioners was given yesterday p.m. and evening, by Cyrus W. Field, at Delmonicos. Besides the Commissioners the guests numbered over one hundred of our most prominent citizens. Speeches were made by Earl De Grey, Wm. Cullen Bryant, Sir Stafford Northcote, ex-Senator Williams, Gen. McDowell, Lord Tenterden; Rev. H. W. Beecher and others.

Rumors of the removal of Collector Murphy are renewed by Washington correspondents. The *World's* correspondent says Murphy tendered his resignation, on account of political reasons, and the President accepted it, giving him the privilege of naming his successor, and that Murphy named General C. A. Arthur and the nomination was made out yesterday.

The *World's* special dispatch has a similar statement.

It is now stated in positive terms that a radical change is about to be made in the management of the Erie railroad, and that a number of railroad magnates, now in the city, have combined for this purpose, and for the reorganization of the Erie directory. The prominent officers of the Great Trunk lines are now in the city and have held several secret conferences within the past few days at the Grand Opera House. At these meetings Sebell Clark and others of the Vanderbilt party present, said that finding the American credit abroad to be seriously affected by the difference between the Erie management and foreign owners of Erie shares, a number of capitalists and railroad men have set to work as mediators, and after due consideration, finally arranged a basis on which both parties to the war have agreed to cease hostilities. The impending change in the Erie directory and the sudden restoration of confidence in its securities it is claimed are the first grand result of the arrangement. An extraordinary meeting of the Erie directory will be held in a few days, when the report of the committee of investigation appointed will be submitted, and it is stated that the resignations of three if not more of the present directors will be offered.

NEW YORK, 24.—There were twenty proposals for bonds to the Government to-day, amounting to about $5,216,800.

ILLINOIS.

A murderer brought from Germany—Religious intelligence.

CHICAGO.—Dixon arrived here yesterday, with Zeigenmeyer, the alleged murderer of one Gumbleton in November last, in this city. The prisoner was arrested in Germany. He confessed having personated Gumbleton after the latter's death, and forged his signature to obtain his money and other effects, but denies murdering him.

In the Presbyterian Assembly yesterday the report of the committee appointed to raise and disburse the memorial fund was submitted, showing that over seven and-a-half millions of dollars had been contributed during the year, or over two and-a-half millions more than was originally contemplated to be raised. The announcement of this fact created profound emotion in the Assembly and the audience broke forth in loud applause, then some one raised the hymn "Praise God from whom all blessings flow," and the immense concourse joined. The remainder of the session was devoted to prayer, and in the evening congratulatory addresses were delivered by a number of eminent divines.

The various Baptist socities which had been in session here this week, all adjourned, *sine die* yesterday.

CALIFORNIA.

Fatal accident—Descent on gamblers.

SAN FRANCISCO, 24. — A dispatch from Murphys says, the eastern correspondents' party reached there last night delighted with the trip. They visited the Angeles and Sickles quartz mines yesterday; at the latter an accident had just occurred, by the breaking of some timbers by which two Chinamen were fatally injured and Mr. Sickle's barely escaped being killed.

Ah Kien, a Chinese burglar, who cleaned out a house on Davis street, was held to answer this morning.

It is proposed to form a club of Californians to purchase the beautiful palace car recently manufactured in this city and present it to the President of the United States for his special use to be kept at Washington.

The police late last night made another descent on Congress Hall and arrested the keno dealers and then visited the notorious den on Barbary Court, where the same game was going on, and brought in nine men.

FOREIGN NEWS.

GREAT BRITAIN.

The Derby Race—"Alabama" claims settlement satisfactory—Parliamentary.

LONDON, 24.—The House of Commons, last night, rejected the amendments made to the tests bill in the House of Lords, and passed to its second reading the bill in favor of a Presbyterian church in Ireland.

The *Times* thinks the settlement of the *Alabama* question honorable to England. The object of England and America is realized. Though the treaty represents no perfect compromise, still it is acceptable for the sake of peace. Both countries have already ratified the labors of the Commission.

The *Daily News* special dispatch says Thiers is indefatigable in the direction of operations looking to the commissariats.

The *Telegraph's* special dispatch says the foreign powers ordered their Paris representatives not to protect the insurgents. It is said Washburne did not act in concert with the other representatives.

The census of London is three and a quarter millions.

The barricades at Bellville hold out. The insurgents are discouraged. The Versaillists' losses are heavy. Hopes are entertained that everything will terminate to-day.

The result of the Derby is, Seeper Colt, 1; Albert Victor, 2; King of the Forest, 3. Seventeen horses ran.

FRANCE.

VERSAILLES, 24.—This morning the Louvre and Tuilleries were burning. The Federals ignited it with petroleum. Dombrowski is wounded and imprisoned at St. Denis. Yesterday we dislodged the Federals from the Faubourg St. German and elsewhere, continuing a victorious march. It is thought the Federals will attempt to escape toward Belleville.

OUTSIDE PARIS, 24, 1 p.m.—A terrible explosion has just occurred in the centre of Paris, probably at the Hotel de Ville. The Tuilleries are entirely burned down. It is hoped that the Louvre galleries may be saved.

ST. DENIS, 24.—After a brief lull, fighting in Paris recommenced yesterday, continuing all night. The troops under Douay and Vinoy were surrounded at the Tuilleries, Louvre and Place Vendome. Desperate fighting followed, the federals disputing every inch of the way. At daylight these positions still remained in the hands of the federals. A combined assault of all the troops is now going on.

WEST INDIES.

Financial demoralization.

PORT AU PRINCE, 17.—The financial condition of Hayti is highly unsatisfactory. The new ministers are likely to repudiate the debts of their predecessors.

KINGSTON, 22.—The steamer *Henry Chauncey* has arrived. She sails for Aspinwall this afternoon. She brings Hon. Kester and the Washington special general commissioner to Ecuador.

PRUSSIA.

Postal.

BERLIN, 24.—The Reichstag has passed a supplementary clause to the postal treaty between America and Germany. Letters are hereafter forward to be forwarded to and from America for two and a half groschens.

SOUTH AMERICA.

A battle expected.

PANAMA, 18, via KINGSTON, 22.—The revolutionists are within three miles of Panama.

The American consul declares the seizure of the Anacheeta steamer Morgo to be piracy, and requests the captain of the British war ship Cameleon to capture her.

There is great excitement in Panama; business is at a stand still.

A battle is expected to-morrow, but a rebel success is not likely.

HOW TO WASH LACE.—The first thing to remember is that lace, and all such fine materials, should be washed in hot, soft water. Well soap them, and squeeze and shake, but on no account rub them. Repeat the squeezing and shaking out again, until they are clean and put them into a sauce-pan with enough hot water to cover them. Soft water is best, but if that cannot be procured, add a piece of soda—say a quarter of an ounce to half a gallon of water, or according to the hardness of the water. Boil for half an hour. Then wash them out again and rinse in cold, blue water. Hang them on a clothes-horse to dry, when they can be starched. Lastly, roll them up in a dry cloth for two hours, by which time they will be fit to iron.

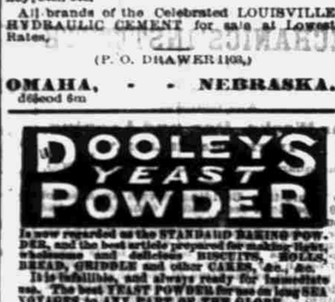
CANTON, OHIO.



IT HAS NO EQUAL!

It Mows—It Drops—It Self-Rakes.

☞ Prices Reduced to a Gold Basis.

This Machine is the harvest gathering of twenty years' experience in the manufacture of Agricultural Machinery, and takes rank with the Printing Press, Engine, Lath and Planing Mill in the qualities of perfection, simplicity and durability.

Its foundation is a single piece of solid iron, of shape to resist all possible strains.

The gearing is shielded to exclude gumpf, and cast out of solid iron, with mathematical exactness.

The working parts are permanently fixed and fully protected from water, dust, grass and all other external causes of disorganization.

By these means we reduce friction to the lowest point, stop the self-destruction common to all rough cast machines, avoid breakages in harvest, secure easy draft and the same durability which characterizes the STANDARD SEWING MACHINE, the WORLD has long since learned to appreciate in the Machine which suits in declaring that, "it runs easily."
