SOCIAL AND PERSONAL.

Miss Eva Snow entertained at shower party this afternoon for Miss Eva Pierce, about a dogen friends of The bride-elect being present. The rooms were decorated in red and white hearts and sweet peas in the same color, the hearts being festooned from the chandellers to the four corners and all about the rooms and the table in the diting-room being done in red and white sweet pease. The guests besides Miss Pierce were: Miss Vivian Little, Miss Edith Kingsbury, Miss Merty Berkely, Miss Maud Fherrell, Miss Stella Daynes, Miss Dolores Pierce, Mrs. M. 52 Snow, Mrs. Fugate, Mrs. A. L. Hay-mond, Mrs. Virginia S. Stevens.

Demonstration. New York, Sept. IS.-A special to the Times from Pittsfield, Mass., states that the Aero club of America is planning the biggest demonstration in ballooning that has ever taken place in America. It is proposed to send up about five large bal-loons here in one day, each balloon car-rying from three to five passengers. The latter part of this month has been select-ed for the time of the ascension. Those who will make the ascensions are A. N. Chandler and party of Philadelphia. H. Clay Green of the Lamb's club, George P. Butler, Beals C. Wright, Raymond D. Little Homer W. Hedge, Leo Stevens and Dr. Thomas and party. Mrs. W. Rash has visiting her Mrs. W. J. Payne of Denver. Mrs. John Delano was hostess at

pretty affair yesterday in honor of Miss Helen Boxrud, who leaves shortly for the east. A 10 A Miss Ione Morrison entertains tomor-

row at a luncheon.

Mrs. Maggie C. Roberts gives a large party at her home on Friday afternoon

Mrs. Simon Bamberger gave a box party at the theater last night. Mrs. Harry S. Joseph and Miss Clau-dia Morris have returned from Cali-

fornia. Mr. and Mrs. Joseph Daynes gave a

box party at the theater last night.

Miss Jane Wilson of Payson was married last evening at the Wilson ho-tel to L. C. Splegel of this city, by Rev. F. F. Eddy, Mr. and Mrs. Splegel will remain in Salt Lake.

Mrs. Murray C. Godbe entertains the Sewing club this week.

Mr. and Mrs. A. R. Keyes leave this week for New York.

Miss Annie Cannon is back from a brief business trip to the north.

### **ORIGIN OF THE**

The following translation of an stract of articles by Dr. Richard Wein. berg, which appeared in the Revue Scientifique of Paris, is from the Literary Digest:

Chicago, Sept. 18.-Chicago shut out Philadelphia today in the second game of the series. The batting of Owen and Rohe was the feature.

#### A MISCHIEF MAKER.

The gypsy moth shows signs of becoming one of the most troublesome pests that have ever taken root in this country. Having devastated the fo-

stitute perfectly definite races. We find them in central and western Af-rica, in south Africa (the bushmen), in Asia, especially in India, as well as in America, And Sergi has found traces of skulls that seem to imply the exist-ence in southern Europe, particularly in Sicily, of races of pygmies, traces of which have also been tound in Egypt

by Schweinfurth. Thus, although psychologically these dwarfts would appear to be more in-telligent than the tallest negroes, some been led to think that we have here the primitive type of human dif-ferentiation, and Kollmann has prepared a genealogical table of man, founded on the differentiations of pygmies. According to him, soon after the anthropoid apes, with well-devel-oped skulls, of the end of the tertiary

epoch, and by descent from them in a direct line, appeared the pygmies, whose descendants comprised three sub-species that have been perpetuated until the present time—the Veddahs of India, the African negritos and the American pygmles, all distinguished by hair, color of skin and form of skull. "But besides this, each sub-species gave rise to a variety that, instead of the typical height of 130 to 150 centi-meters, reached 150 centimeters. And from these tallor, varieties accentuation of the characteristic gave races of 170 contimeters, and ancestors of the pres-

ent prevailing types, "But this hypothesis does not rest on a very firm paleontological foundation. Although certain primitive character-istics seem to belong to types of small

stature, we have no assurance, since our material for investigation is so slight, that these are no, simply types accidentally dwarfed. For \* \* dwarf-ism is an anthropological variety that et at all epochs in certain indishuth:

Indeed, it has been attempted to establish a 'gigantic' theory of the origin of man, and to show that stature is on the decrease. So that gigantism and dwarfism may both be referred, on curtheories, to a reversion to anostral traffs.

"The fact is that gigantism would appear to be a pathologic form, in-capable of giving rise to types perpetuating this characteristic. And dwartism is often also related to the processes of disease, such as cretinism.

"But beyond these cases it would ap-pear that stature, within less extend-ed limits, is still susceptible of notable variations and that these individual variations have an influence on hered-Could not the pygmies have arisen then, through similar variations, forming varieties and races-sister races to those of greater stature, without neces-sarily representing either primitive transition forms in human evolution or stages of terminal degeneration in a process of decay more or less rapid?"

Washing Big Ben.

For the first time in three year Big Ben at Westminster is having his hands and face washed. The process occupies three weeks, for each of the

spaces between each minute are a foot square. The work has necessarily to be thoroughly done, for probably three years more will elapse before the soot and grime deposited by London's at-

The dial on which the men are work-ing today is the dirtiest of the four. It is the one which looks on to West-minster bridge. The change that has

#### A NOTED LAWYER.

Samuel Untermyer, the attorney for the International Policy Holders' committee, has been very prominent the

been wrought almost startles the citizen who takes his time from the great clock, and has perhaps forgotten that the face is set in a glided frame. Two dwarfs-who are in reality buriey men -swing in a "cradie" 180 feet above the pavement. They are the cleaners.

Actually, Big Ben's hands have not been washed for 14 years. They have been taken down from the southern dial, and they will be painted before they are put back in their place. From the street people have the impression that they are black; as a matter of fact, however, their color is dark blue. Before this work is completed a good deal of paint will have been used, for each of the minute hands is 14 feet long, and weighs about 224 pounds,-London Tribune.

We men of the world boast that we are always ready to pay for so-called Behemian happiness, but I have ob-served, and profited by the observation, that the pendulum invariably swings back the next morning as far as it went abnormally forward the night before. We pay double: we pay in gold, and, not infrequently, in a loss of self respect.-"The Buildera," by Willis George Emerson.

Never can tell when you'll mash a fuger or suffer a cut, bruise, burn or seald. Be prepared, Dr. Thomas Ec-lectric Oil instantly relieves the pain-quickly cures the wound.

Ma, may I go 'long with Lou And take the 'Keister' tailoring too ""
