

When he came out, Faurer shot dead.

LEVELAND, 24.—Two freight cars collided yesterday on the Shore and Michigan Southern five miles east of Huron, Ohio. Several rods of track were torn up, 12 cars wrecked and track blockaded for several days. Disasters on the road are of daily occurrence.

ST. CRY, Ia., 24.—Gustave Rich, a crazy German saloon-keeper, 46 years old, this morning with a double-barrelled shot-gun instantly killed Julia Eber, aged 14, and then put two bullets into his own body, the latter falling away his heart. No one is known except insanity.

ST. CRY, 24, 3 a.m.—Up to this hour there have been recovered from the ruins of the Italian Opera House, destroyed by fire last night. It is estimated that many more lost their lives. The fire commenced soon after the curtain had risen for the performance of "Lucia di Lammermoor." Subscribers for the orchestra and boxes of the grand opera mostly not arrived. The bodies of the victims belong to the lower classes. Shortly after the fire, the gas exploded and the opera house was plunged into complete darkness. A scene of terror and confusion, which beggars description. A detachment of sailors from the harbor arrived on horseback, and displayed great gallantry in rescuing people and combating the fire, which was subdued to 10 o'clock. Strakosch, the impresario, was slightly hurt; Signorica Danada, one of the lead-singers, made her way from the opera house to the street safely. One family of five persons, and another family of three persons, are reported to have perished. Relief committees for the sufferers have been organized throughout Nice. There has been countermanding of the value of the prizes to be contested for will be continued toward the relief of the

YORK, 25.—A writer in the Standard favoring the proposed connection of the Northern Pacific terminal the interest of the Oregon and Co., says: I repeat that Oregon party care not a button for the Tacoma line aside from the expense of constructing at a time when it is not known by whether the Northern Pacific Co. will have money enough to their bond negotiations to continue their road even to the mouth of the River. They have as yet no survey or estimates of the difficult portions of their route, probably the most difficult of the route to be the Tacoma branch. Why should the Northern Pacific make a war with the Navigation to the detriment of its own interests which must result in the expenditure of dividends for a long time, and if it relies upon the Tacoma route for its profits, it is a waste of time for ever. Such a utterly fruitless and waste in my judgment will never be attained by the real parties in

Mexican correspondent says: Willard exploring party have been actively engaged, but the presence of Mexico prohibit any extension of antiquities. It is expected the coming session of the Congress will pass a bill which will facilitate that object. One of the Mexican Central Railroad town was discovered in the advanced civilization there, paved streets, iron stone steps and carved stone indicating a high order of civilization.

Commercial Bulletin says: Recent statements respecting the decrease of the St. Louis and Kansas grain export trade are character to arrest attention in connection with this matter. The important movements of wheat exporters on the Pacific Coast are said to be dependent upon St. Louis and New Orleans transportation companies and in San Francisco, for the consignment of 20,000 car loads of California wheat from the former city, in New Orleans for European export. If rail and water shipment of this magnitude can be made at a profit one thing is certain that there will be a great deal of tonnage in the Pacific ports during season.

From St. John's River, says: The orange crop here is the smallest one ever here. A large number of trees here thought to be 60 or

70 years old are utterly ruined. There has been ice four inches thick on the creek.

Later particulars from Nice are that most of the artists were in the dressing room and were aware of their danger but it was too late to escape. The choristers rushed along the narrow passage in darkness, presumably too much disabled in the rush to escape. The basso, tenor and baritone must have been suffocated. Their bodies are presumably under the ruins. The parts of the theatre most filled were the upper galleries and as the distance from them to the doors was long and by narrow corridors and stairways the people in the galleries had the greatest difficulty in escaping. There was a very inadequate supply of water. Sailors who volunteered as firemen plied buckets of sea water which, however, were almost useless. Two midshipmen rescued two persons from the chamber who are still living, but horribly scorched, one being a raging lunatic. Some of the bodies found are so horribly charred that recognition is impossible. The body of one of the singers has been recognized.

The Times comments: The theory of the defense was that De Young shot first, and that Kallouch merely defended himself. This theory was accepted by the jury, who were evidently willing to be convinced that Kallouch should be acquitted in any case. His defense raised a doubt and the defendant was given the benefit of it.

A St. Petersburg special says: A female nihilist was arrested to-day, named Sophie Pieofski. She is the daughter of the Counselor of the Ministry of Domain. She has confessed to having given the signal to Hartman for exploding the mine under the train near Moscow, and also the signal to Roussakoff to throw the bomb which shattered the Czar. The government has assigned to the prisoners able counsel. Feliaboff declines the assistance of counsel.

The Herald's Paris special says: There was a large gathering of Americans to-day to witness the laying of the corner stone of the new American Protestant Episcopal Church of the Holy Trinity, in Avenue de Lalma. Among those present were General and Mrs. Walker, Father Hyacinthe and Mrs. Laysen. The ceremonies were conducted by Right Rev. Bishop Littlejohn, of Long Island, New York, assisted by Rev. Mr. Morgan, rector; Rev. C. M. Morrison, a curate; and a number of American and English clergymen. The church will cost half a million dollars. About half the amount has been paid up.

FOREIGN.

ST. PETERSBURG, 23.—To-day being Emperor William's birthday, the Russian Grand Dukes and Princesses and others called at the German embassy. Grand Duke Vladimir was specially commissioned by the Czar to offer congratulations.

The police, on Sunday, discovered an important rendezvous of revolutionists on the Island of Vasili Ostroff. In a tobacco shop, compromising papers and a number of male disguises were found.

Students of St. Petersburg and Moscow universities have opened a subscription for a silver wreath for the tomb of the Czar.

The principal assistants of Gen. Fedroff, of St. Petersburg, and several police officers of the district where the mine was laid, have been dismissed.

The rector of the university recently told the students that they would be invited shortly to discuss impending reforms.

Colonel Dorjibky, wounded at the time of the assassination of the Czar, has been granted a pension of 6,000 roubles.

It is stated that peasants are flocking to St. Petersburg from all parts of the country, on a pious pilgrimage, to the spot where the Emperor fell.

Prof. Martius, in the *Golos*, strongly urges international co-operation against conspiracy. He says: If Russia could seal up her territory against plots emanating from Geneva, Paris and London, she could soon settle accounts with the nihilists. Everybody knows the spot in Geneva where Russian emigrants mature their devilish schemes for murder. Conservatives of the Russian press urge as a matter of reprisal against Switzerland, a rupture in diplomatic relations, a protective tariff against Swiss, and encouragement to Germany to annex Switzerland.

London, 23.—A dispatch states that a parcel was received to-day

from Manchester, addressed to S. R. William Harcourt, who requested the police to open it. The box was found to contain a loaded pistol. This attempt upon the life of Harcourt has created a profound sensation.

Madrid, 23.—A bomb with lighted fuse attached was placed outside the Royal Theatre last night, but it was discovered by the police before it could explode.

Nice, 23.—The Italian Opera House burned this evening. The fire broke out at the beginning of the performance. The bodies of 14 persons, suffocated, have been taken out and placed in the church opposite the theatre. It is feared a hundred men and women perished in the flames.

Dublin, 22.—At a meeting of the Land League to-night, all who addressed the meeting explained or apologized for Dillon's speech about Judge Fitzgerald, in which the judge was warned that he had better take care that the league did not do away with him.

The Fenian Council of Ballenimore has resolved to shoot the landlord who, last year, shot a man in self defense during a riot on his farm, from which the tenant had been evicted. It is stated that two men have been selected by ballot to execute the assassination. The police are in possession of all the facts.

The French minister of marine has a dispatch from the government of Senegal, reporting an engagement between 1,500 natives and 150 French infantry, detailed to establish a telegraph line to Fouta Djallon. After some sharp fighting the natives fled with a loss of 100 killed and wounded. The French lost four officers and nine men killed and wounded.

Correspondence.

LOA, Fremont Valley, Piute County, March 14th, 1881.

Editor Deseret News:

Our valley is located in the eastern part of Piute County, 18 miles east of Grass Valley, is about 12 miles long and from five to six miles wide, with an abundance of water for irrigating purposes and machinery, the Fremont River running through the entire length of the valley, also numerous springs breaking out of the mountain sides. The water being exceedingly soft, is well calculated for factories and tanning purposes. We number about 600 inhabitants, who have gathered here from various counties of Utah. About 8,000 acres of land have been filed upon, and plenty of land yet to be taken up, with water.

We desire tradesmen to come and locate with us, a shoemaker and blacksmith, and someone to engage in the tanning business. We have two saw mills, one sash and one circle saw, with plenty of good timber to saw, and one of the best sites for a grist mill in Utah, with water power from a large spring.

We raised last year over 4,000 bushels of small grain. Our range is good in the low hills and mountains for all kinds of stock, and they have done well here the past winter, fat beef on the range now. I am told by individuals who have explored down the Fremont River to the Colorado River the past winter, that much good land and a Dixie climate is within forty miles of this valley, and that a good road can be made to the Colorado.

We laid off a town plot last summer, and some few have built upon it. We are building a meeting and schoolhouse on Public Square 20 x 30 feet. We had three schools running in this valley the past winter, they were well attended considering our scattered condition, as the majority of our people live on their quarter sections. Our Church organizations are in a thriving condition. Our Sabbath meetings are well attended considering the scattered condition of the Saints. We have a good Sabbath School under the vigilant superintendency of Bro. John Ellett, who is laboring for the welfare of our youth. Our Relief Society is in good working order, under the wise management of Sister Martha Allred and her counselors. We have two Primary Associations in this ward which are doing much good amongst the young under the direction of Sisters Burgess and Oberlund.

Our Bishop E. H. Blackburn and counselors are busy among the people teaching them the gospel and visiting the different meetings in the valley.

Your valuable paper comes regular to hand, and is a welcome visitor to our people. May you ever continue to wield the sword of truth in the defense of Zion.

Your brother in the gospel,
BLACKBURN.

Mt. Carmel, Kane Co., Utah, March 14, 1881.

Editor Deseret News:

Our Sunday School and day school, our Relief Society, Young Men's and Young Ladies' Mutual Improvement Associations and Primary Association are all in splendid running order, under the able supervision of their superintendents and presidents. I have never seen such union existing in this Ward before. I think it is the case generally throughout the Stake. We have just had a visit from Apostles Lyman and Smith, which was a great treat to us.

Our Bishop H. B. M. Jolley, who has been absent on a mission for a few months, returned on March 10th. The meeting house having been decorated and prepared by the sisters with pictures and evergreens and artificial flowers of their own make, the people all gathered to the meeting house on the 11th, the next day, to shake hands and hear from the Bishop; it was a day of rejoicing for both Bishop and people, that they will never forget.

The DESERET NEWS is a welcome visitor. I notice that since we have got the DESERET NEWS in almost every house the people feel much better than they did before.

Respectfully, a well wisher to truth,
W. J. J.

The Beaver "Chronicle."

Editor Deseret News:

At the solicitation of friends, and having learned that some attach blame to me for the influence I used in the interest of the Beaver Chronicle some two years ago, by which I was quite successful in obtaining subscriptions, soon after which it changed hands. I beg to make the following statement:

I was constituted editor and traveling agent, and was requested by the company, consisting of several of the most prominent men of Beaver, to canvas for the paper in which, however, I had no financial interest beyond my wages. The morning I left Beaver I told the president of the company that if there was any likelihood of the paper going back into the hands of the original owner, "I did not want to go." He replied, and repeated, he did not think there was the slightest prospect of such an event. I spent about three months.

Soon after my return it was ascertained that it was not a financial success. The original owner wanted it, and the company, who had only paid in part for it, turned it back to him. I am not disposed to criticize the act or say aught against anyone, but simply state what facts are necessary to exonerate myself from the censure of those who were disappointed, including myself. I trust this will be satisfactory to all parties.

Yours truly,
DANIEL TYLER.

HALL'S VEGETABLE SICILIAN HAIR RENEWER is a scientific combination of some of the most powerful restorative agents in the vegetable kingdom. It restores gray hair to its original color. It makes the scalp white and clean. It cures dandruff and humors, and falling out of the hair. It furnishes the nutritive principle by which the hair is nourished and supported. It makes the hair moist, soft and glossy, and is unsurpassed as a hair dressing. It is the most economical preparation ever offered to the public, as its effects remain a long time, making only an occasional application necessary. It is recommended and used by eminent medical men, and officially endorsed by the State Assayer of Massachusetts. The popularity of Hall's Renewer has increased with the test of many years, both in this country and in foreign lands, and it is now known and used in all the civilized countries of the world.

The People's World-Wide Verdict.

Burnett's Cocaine has been sold in every civilized country, and the public have rendered the verdict that it is the cheapest and best hair dressing in the world.

Burnett's Flavoring Extracts are invariably acknowledged the purest and the best. d tues, thurs. sat. s&w

HEALTH AND HAPPINESS.

It seems strange that anyone will suffer from the many derangements brought on by an impure condition of the blood, when SCOVILL'S BLOOD AND LIVER SYRUP will restore perfect health to the physical organization. It is indeed a strengthening syrup, pleasant to take, and has proven itself to be the best blood purifier ever discovered, effectually curing Scrofula, Weakness of the Kidneys, all Nervous disorders and Debility. It corrects indigestion. It makes the old feel young, and the young feel gay; and will invariably drive out of the system the many ills that human flesh is heir to. A single bottle will prove to you its merits as a health renewer, for it acts like a charm, especially when the complaint is of an exhaustive nature, having a tendency to lessen the natural vigor of the brain and nervous system.

Great Excitement in Sixth Avenue.

The people of this city and vicinity seem to truly appreciate the enterprise of our friend Crittenton of 7, Sixth Avenue, who has, at a large expense, purchased that popular article now known as HALE'S HONEY OF HOREHOUND AND TAR, for the cure of all Coughs, Colds, Influenza, Hoarseness, Difficult Breathing, and all affections of the throat, bronchial tubes and lungs, leading to Consumption. We understand that the article has performed some wonderful cures, and that its merits are heralded from one to another in this country, the same as they were in Europe when manufactured and prescribed by Dr. Hale, the originator of the same. It is now sold by all druggists in New York, Brooklyn, Newark, N. J., Jersey City, Hoboken, and, in fact, all over the country, at 50 cents and \$1 per bottle. Great saving by buying large size. Depot, Crittenton's, 7, Sixth Avenue, New York City.
