Correspondence.

Two feet and a Half of Snow—No Hay—Stock Dying—Co-operation—Dancing.

RANDOLPH, Rich Co.,
March 14th, 1876.

Editor Deseret News:

The question is daily asked, "When are we going to have a thaw?" The weather being seemingly as cold and stormy now as it was in January. The snow fell about twelve inches deep in the middle of November, and it has kept accumulating ever since, until now it will average about two and a half feet deep, and no signs of a thaw yet. In consequence of this stock has suffered greatly this winter, and a great many have died and are dying now every day. Some of the people are entirely out of hay, and a great many others will be out before the snow is gone.

There are three or four men in the settlement that have more hay than they need, but on account of the scarcity they ask extortionate prices, and they want the money down, but it is an impossibility for men to pay money that have not got it, and have nothing that they can sell for money. These men have been offered two loads of hay next summer for one now, but they refuse, and yet when you ask these men what they are, the answer is, "Oh, we are Latter-day Saints, working for the welfare and the building up of the kingdom." Query—"What kingdom?"

The health of the people, as a general thing, is very good at present.

We have a co-operative store here that is in a lively condition. It is run on a small capital, and in consequence of it being turned over several times in six months, the dividend being declared every six months, the dividend is very large. Some of the shareholders are pleased with a large dividend, while others do not want any, thus proving it is impossible to please every body, and I often ask myself the question, "When shall we all be able to see alike?" for Jesus said, "Except ye are one, ye are not mine, and cannot enter into my Father's kingdom," or words to this effect.

I am sorry to say the counsel of President Young in regard to dancing is ignored by a certain class here. In their endeavors to be "free," they throw to one side the very principles that would make them free.

I do not wish it to be understood that the people of this settlement are all deserving to be found fault with. No, far from it; the majority are trying to live up to the principles of the gospel as they are taught by the servants of God.

Respectfully yours,
W. H.

SEWING MACHINE PATENTS.

Adverse Report of the House Committee, Adopted by the House, March 10.

The memorialist, Allen B. Wilson, on the 12th day of November, 1850, obtained letters patent covering the invention of the device for feeding sewing machines. These letters patent were reissued in two parts, Jan. 22, 1856, and Dec. 9, 1856, and at the expiration of the term of the letters patent an extension thereof was granted by the Commissioner of Patents for seven years. The extension expired November 12th, 1871. So that for twenty-one years Mr. Wilson has had the benefit of the protection of the patent laws, and has been the recipient of great advantages accruing therefrom.

The invention was a very important and useful one, supplying a mechanical principle in the manufacture and use of sewing machines, and had long been felt necessary to their successful operation. Its value was at once recognized, and by various arrangements with the inventor it was adopted by all the more important and extensive manufactories in the United States, the inventor becoming a stockholder in one of them. In addition to this, the several sewing machine companies using this invention conceived the idea of forming a combination for the purpose of buying up and using for their joint and sole benefit the several patents which had been recognized as valuable to their trade. Their combined wealth enabled them to do this, and, taking this invention as a basis, they did form an association known as the Sewing Machine Combination, by which they have succeeded in controlling the trade throughout the United States for many years.

The power thus consolidated in their hands has been used oppressively and tyrannically in many instances; it has been able to keep the prices of the machines at an unusually exorbitant figure; it has brought great wealth to the companies and individuals belonging to it; and it has stifled the growth of a free and healthy competition, and by this means has kept from the public other and useful machines which could have been sold at a much less price.

Your committee are satisfied that the memorialist has been fully and amply recompensed for all his trouble and expense in the invention and development of this device; indeed, from a position of comparative poverty he has been raised by it not only to competency but to wealth.

From the statistics furnished us in the examination of this subject it appears that this sewing machine combination, in one of the companies of which Mr. Wilson was and is a stockholder, sold during the

Year 1870	343,599 machines.
" 1873	442,813 "
" 1874	389,506 "

Making a total of 1,175,918 machines.

These machines are retailed to the public at an average price of $65, and it further appears that they can be manufactured and sold, including a reasonable profit, at $32.50. This "combination" in 1856 fixed the fee for licenses to use this and other patents owned by it, at $15; in 1860 it was reduced to $7; in 1863 to $5, and in 1870 to $3. In addition to his profits as stockholder in one of the "combination companies," Mr. Wilson was entitled to, and no doubt did receive, a portion of the royalties paid in license fees under the above scheme.

With one exception, which will expire next year, all the patents introduced and used by this combination are at an end, and the motives for such a combination will end with them; and then it is believed that the sale and manufacture of sewing machines—a trade now so great and extensive, affecting directly almost every family in the land—will be thrown open to a free and healthy competition, which cannot be but highly advantageous to the public.

Your committee are satisfied that the public have paid very heavily for said invention, and that the inventor has been fully rewarded; and they therefore are of the opinion that the prayer of the memorialist ought not to be granted, and

SPECIAL NOTICE TO OUR READERS

SPECIAL CALL.

AGENTS WANTED!

To sell the New Patent Improved EYE CUPS.

Guaranteed to be the best paying business offered to Agents by any House. An easy and pleasant employment.

The value of the celebrated new *Patent Improved Eye Cups* for the restoration of sight breaks out and blazes in the evidences of over 5,000 genuine testimonials of cures, and recommended by more than one thousand of our best physicians in their practice.

The Patent Eye Cups are a scientific and philosophical discovery, and as ALEX. R. WYETH, M. D., and Wm. BEATLEY, M. D., write, they are certainly the greatest invention of the age.

Read the following certificates:

FERGUSON STATION, LOGAN CO., KY., June 6th, 1872.

DR. J. BALL & CO., Oculists.

GENTLEMEN: Your *Patent Eye Cups* are, in my judgment, the most splendid triumph which optical science has ever achieved, but, like all great and important truths, in this or in any other branch of science and philosophy, have much to contend with from the ignorance and prejudice of a too sceptical public; but truth is mighty and will prevail, and it is only a question of time as regards their general acceptance and endorsement by all. I have in my hands certificates of persons testifying in unequivocal terms to their merits. The most prominent physicians of my county recommend your Eye Cups. I am, respectfully, J. A. L. BOYER.

WILLIAM BEATLEY, M. D., Salvisa, Ky., writes: "Thanks to you *for the greatest of all inventions.* My sight is fully restored by the use of your *Patent Eye Cups*, after being almost entirely blind for twenty-six years."

ALEX. R. WYETH, M. D., Atchison, Pa., writes: "After total blindness of my left eye for four years, by paralysis of the optical nerve, to my *utter astonishment* your *Patent Eye Cups* restored my eyesight permanently in three minutes."

Rev. S. B. FALKINSBURG, Minister of M. E. Church, writes: "Your *Patent Eye Cups* have restored my sight, for which I am most thankful to the Father of Mercies. By your advertisement I saw at a glance that your invaluable *Eye Cups* performed their work perfectly in accordance with physiological law; that they literally fed the eyes that were starving for nutrition. May God greatly bless you, and may your name be enshrined in the affectionate memories of multiplied thousands as one of the benefactors of your kind.

HORACE B. DURANT, M. D., says: "I sold, and effected future sales liberally. The *Patent Eye Cups*, they will make money, and make it fast, too; no small catch-penny affair, but a superb, number one, tip-top business, promises, as far as I can see, to be life-long."

Mayor E. C. ELLIS wrote us, November 16th, 1869: "I have tested the *Patent Ivory Eye Cups*, and I am satisfied they are good. I am pleased with them. *They are certainly the greate-t invention of the age.*"

Hon. HORACE GREELEY, late Editor of the New York *Tribune*, wrote: "Dr. J. BALL, of our city, is a conscientious and responsible man, who is incapable of intentional deception or imposition."

Prof. W. MERRICK writes: "Truly, I am grateful to your noble invention. My sight is restored by your *Patent Eye Cups*. May Heaven bless and preserve you. I have been using spectacles twenty years. I am seventy-one years old. I do all my writing without glasses, and I bless the inventor of the *Patent Eye Cups* every time I take up my old steel pen.

ADOLPH BIORNBERG, M. D., physician to Emperor Napoleon, wrote, after having his sight restored by our *Patent Eye Cups*: "With gratitude to God, and thankfulness to the inventors, Dr. J. BALL & Co., I hereby recommend the trial of the Eye Cups (in full faith) to all and every one that has any impaired eyesight, believing, as I do, that since the experiment with this wonderful discovery has proved successful on me, at my advanced period of life—80 years of age—I believe they will restore the vision to any individual if they are properly applied." ADOLPH BIORNBERG, M. D.

Commonwealth of Massachusetts, Essex, ss.

June 5th, '73, personally appeared Adolph Biornberg, made oath to the following certificate, and by him subscribed and sworn before me. WM. STEVENS, J. P.

LAWRENCE CITY, Mass., June 9, 1873.

We, the undersigned, having personally known Dr. Adolph Biornberg for years, believe him to be an honest, moral man, trustworthy, and in truth and veracity unspotted. His character is without reproach.

M. BONNY, Ex-Mayor.
S. B. W. DAVIS, Ex-Mayor.
GEORGE S. MERRILL, P. M.
ROBERT H. TEWKSBURY, City Treas.

Reader, these are a few certificates out of thousands we receive, and to the aged we will guarantee your old and diseased eyes can be made new; your impaired sight, dimness of vision and overworked eyes can be restored; weak, watery and sore eyes cured; the blind may see; spectacles be discarded; sight restored, and vision preserved. Spectacles and surgical operations useless.

Please send your address to us, and we will send you our book, A GEM WORTH READING!

A DIAMOND WORTH SEEING!

Save your eyes and restore your sight; throw away your spectacles!

By reading our Illustrated *Physiology and Anatomy of the Eye*, of 100 pages, tells how to restore impaired vision and overworked eyes; how to cure weak, watery, inflamed and near sighted eyes, and all other diseases of the eyes. Waste no more money by adjusting huge glasses on your nose and disfiguring your face. Book mailed free to any person. Send on your address.
