DEATHS DOINGS.

WITHIN the last two or three days death has taken away two men of note—Judge Nelson, late of the United States Supreme Court, and Professor Louis John Kendis, a native of Switzerland, but who became a resident of this country in 1846.

LABOR PLENTIFUL.

THAT there is an abundance of unemployed labor in New York, is certain. Previous to the production of the other week of Fox's new pantomime of "Humpty Dumpty," at the Grand Opera House, in that city, Mr. Augustus Daly's call for superintendents was responded to by upwards of 2,000 persons, two-thirds of them genteel young girls. The stage door in Twenty-fourth street was besieged every day for a week by a clamorous throng of two hundred women, and this employment was long in ceasing, nor did it moderate until the door was closed for several days.

Besides these two hundred superintendents, this pantomime, says an exchange, employs 42 of the regular company, 47 first-class variety performers, a ballet of 50, 40 children, 22 acrobats, 10 carpenters, 10 men in the line, 10 callipers, prompters, callboys, and other regular assistants to the total number of nearly 500. The pantomime, which is a very popular one, has been constantly employed during the time, and the total cost before the admittance of the public is estimated at \$50,000.

MEDDLING WITH THE MORMONS.

THE New York *Graphic*, of Dec. 15, has some sensible ideas respecting the new crusade against the "Mormons," and comes also in which we cannot concur.

"One of the recommendations of the President in his message looks to an interference with the Mormons as the part of Congress. His suggestions are designed to run a ploughshare through the greenhouse of Mormonism and to drive the sect under the sod forever. A strong party in Congress favor measures of this kind, and the *Graphic* is in the thought that such measures will hasten the downfall of a diabolical custom, and cover the country and cover its advocates with honor, especially in the eyes of religious people."

Brigham Young is neither venerable nor venerable, nor is he a man of high character, and his influence upon him and his peculiar institution might be as popular in the country as the country in the eyes of the people. He knows that the House against the Mormons is a powerful ally in the eyes of the people, and he knows that the House against the Mormons is a powerful ally in the eyes of the people.
