LONDON, Sept. 22 .- The British steamer Romeo, Capt. Williams, from New Orleans, Aug. 30, for Rouen, rounded at Ville Guier and capsized. The vessel is submerged at high tide and is dangerous to navigation. An engineer and fireman were drowned, and five of her crew and passengers are missing.

Brisk Bond Business.

WASHINGTON, D. C., Sept. 22 .- A circular is published this morning offering to purchase fourteen millions of the four and four and a half per cent bonds now being printed at the treas-ury department and will be distributed this afternoou. The effect of the pub-lication was made instantly apparent at the department by the receipt of affers to sell within a short time after who oppose truth admit the correctthe doors of the department have been opened. Acting Secretary Thompson was at the White House and treasury department last night until after midnight consulting with the President and financial officers of the treasury relative to the prices to be offered, the mount of bonds to be purchased and other details of the new plan for re-leasing some of the treasury surplus.

Several treasury officers are of the opinion that after the first few days, there will not be any considerable amount of bonds offered to the government, but the moral effect of the circu ar, it is believed, will be good, as the knowledge that the government stands ready to purchase fourteen million oonds and throw that amount of money upon the market will, they say, tend to reassure timid financiers.
