

COMMISSION'S REPORT ON THAW

New York, April 4.—Harry K. Thaw today was declared sane by the unanimous report of the commission in lunacy appointed to inquire into his present mental condition.

The report of the commission in full is as follows:

"We, the undersigned, appointed by this court by orders dated March 25, 1907, and March 27, 1907, a commission forthwith to examine into the mental condition of Harry K. Thaw and to report to the court with all convenient speed the facts and their opinions as to whether at the time of such examination Harry K. Thaw was in a state of insanity, imbecility, lunacy or insanity, so as to be incapable of rightly understanding his own condition, the nature of the charges against him and of conducting his defense in a rational manner, do respectfully report:

"That before commencing our examination we took the oath prescribed by the statutes;

"That the commission was organized by the selection of David McClure as chairman, William H. Penny as clerk and Bartholomew Moynihan as stenographer;

"That we were attended by the Hon. William T. Jerome, district attorney of the county of New York, and counsel for the defendant took part in the proceedings. The defendant attended in person all hearings and was orally and physically examined;

"That we examined a large number of witnesses furnished by the district attorney, the counsel for the defendant and called by the commission. Among them were prison physicians, chaplains, keepers, probation officers, sheriffs, guards in charge of the defendant, two of the defendant's counsel, and 15 physicians, 12 of whom were alienists. We have received in evidence many documents and papers, including written communications from the defendant to his counsel.

"After careful examination of the defendant personally and all of the evidence, we find the following facts:

"In the frequent, and in some cases daily, during the several months last past, intercourse had by the defendant with the Tomba physicians, chaplains, keepers, other attendants and the probation officer, these persons failed to discover anything irrational in his conduct or speech.

"The defendant has taken an active part in the conduct of the trial; has made numerous suggestions orally in court and by letter as to the selection of jurors and examination of witnesses.

"Many of these suggestions were deemed valuable and were adopted by his counsel, and examination of the letters referred to shows that generally the suggestions contained in them were material, sensible and apparently the product of a sane mind. While the testimony of numerous experts called by the district attorney and the defendant's counsel is irreconcilable, that given by certain experts who personally examined the defendant during the trial and since the appointment of the commission, and who of all the alienists examined, had greatest opportunity of observing, disclosed the fact that no indication of insanity at the present

They act like Exercise.

Cascarets

-for the Bowels-

All Druggists

time could be found in the speech, conduct or physical condition of the defendant.

"The direct oral and physical examinations of the defendant by the commission themselves disclosed no insanity in the defendant at the present time. Upon all of the facts it is our opinion that at the time of our examination the said Harry K. Thaw was sane, and in sane, and was not and is not in a state of insanity, imbecility, lunacy or insanity, so as to be incapable of rightly understanding his own condition, the nature of the charges against him and of conducting his defense in a rational manner.

"The minutes of the proceedings had before us and the evidence received in evidence are herewith submitted.

"DAVID MCCLURE,
"PETER OLNEY,
"LEOPOLD PUTZELL."

It was authoritatively stated tonight that Dist. Atty. Jerome will appeal from the decision of Justice Fitzgerald in refusing to allow him to inspect the minutes of the Thaw commission in lunacy, which reported today. The appeal will be in the nature of an action to obtain a review of the justice's decision and will be taken in the appellate division of the supreme court.

CONSULAR APPOINTMENTS.

Three Utah Men Pass Examination And Receive Promotions.

Washington, April 4.—As a result of the examination held on March 14 the following consular appointments have been made:

James C. McNally, Pennsylvania, from consul at Liege to consul at Kan-king.

Walter D. Shaugnessy, Utah, from consul agent at Carleton to consul at Puerto Cabello.

Theodore Botkin, Utah, from consul at Port Louis to consul at Campbeltown.

G. A. R. MEMORIAL DAY PROCLAMATION.

Zanesville, Ohio, April 4.—Commander-in-Chief Robert B. Brown of the Grand Army of the Republic, today issued his memorial day proclamation of which the following is a summary:

"On Thursday, May 30, will occur the annual ceremony of garlanding the graves of the dead and commander-in-chief calls upon the posts to see to it that the last resting place of each union soldier, sailor or marine in his respective localities is fittingly decorated.

"Wherever practicable public commemorative of the heroism of the dead and their unmatchable services in the defense of the government and the flag should be held at some central point.

"Department commanders are charged with the duty of patriotic instruction in the public schools, insofar as the co-operation of the school authorities can be secured. Let Friday, May 24, of the year just past, preceding Memorial day be set aside for this laudable purpose.

"In accordance with a time honored custom each post will attend divine service in a body on Sunday, May 25, to render praise and thanksgiving unto the God of nations for the manifold blessings of the past and the undiminished enjoyment of the future of an enduring peace won by the Union arms."

BROWNSVILLE CASE.

Senate Military Committee Examines Two Officers.

Washington, April 4.—After Maj. Charles W. Peckham, who was commander of the negro troops at Brownsville, completed his testimony today, the senate committee on military affairs examined two officers who made tests at Fort McJannet to determine whether it was possible to distinguish between white, negro and Mexican soldiers wearing uniforms of moon-light or star-light nights. The conclusion of the officers was that such a thing is impossible and they asserted that in making their tests they made the conditions as near as possible like the conditions were said to be at Brownsville on the night of the shooting.

MURDERER CONFESSES.

Spokane, Wash., April 4.—A special to the Chronicle from Loon Lake states that Ernest Hesser has confessed to the killing of Alfred Everman at Loon Lake last Tuesday night. He is reported to have confessed as follows to the sheriff and prosecuting attorney of Stevens county:

"I committed the murder and I think I did just what any other man would have done under the same circumstances. I was down there and heard all that was said and that was what prompted me to do the deed. It will all come out in the trial."

LIEUT. CROWNE'S CASE.

President Approves Sentence of the Court-martial.

Washington, April 4.—The president has approved the sentence of the court-martial dismissing First Lieut. Eugene

R. Crowne, Twenty-ninth Infantry, who was tried at Fort Douglas, Utah, on charges of embezzlement and dishonorable discharge.

He has taken the same action in the case of Second Lieut. Morris H. Boone, Twenty-eighth Infantry, who was convicted at Fort Columbus, Cuba, of failure to pay his debts.

DEPARTMENT OF INTERIOR TO SUE SOUTHERN PACIFIC.

Reno, Nev., April 4.—The department of the interior is to sue the Southern Pacific company at once to cancel all patents issued to the railroad on the White Horse mining district on the claim that the land was agricultural. It is now alleged that the land for which the railroad received patents was developed into a great producing district and the action will affect lands worth millions of dollars for mining but worthless for anything else.

The announcement was made this afternoon by Land Agent Cohn at Carson City at the conclusion of the hearing of the protest of Aaron Ingalls against the Southern Pacific company in which a similar question was involved.

STANFORD WHITE SALE.

Sofa Cushions, Sixteen Inches Square, Brought \$170 Each.

New York, April 4.—Sofa cushions 15 inches square sold for \$170 each at the first session of the Stanford White sale yesterday and this was a fair index of one of the most remarkable auctions in recent years. A limited assemblage of wealthy folk was admitted to the sale. Only the smaller articles—the vases, lamps, ornaments, teapots and mirrors—were sold yesterday, but the total sum realized was \$20,525.50. Tomorrow the furniture, the first place and the structural parts of the house will be offered and on Thursday, Friday and Saturday of next week White's paintings will be put under the hammer at Mendelssohn Hall.

VENICE ART EXHIBITION.

Venice, April 4.—Nearly 400 applications have been received from artists to exhibit their works at the coming art exhibition here. The jury, which considered the applications, has admitted 148 artists with 212 works.

DON'T PUT OFF.

for tomorrow what you can do today. If you put off buying a bottle of Ballard's Snow Liniment, when that pain comes you won't have any, buy a bottle today. A positive cure for Rheumatism, Burns, Cuts, Sprains, Contracted Muscles, etc. T. S. Graham, Prairie Grove, Ark. writes: "I wish to thank you for the good results I received from Snow Liniment. It positively cured me of Rheumatism after others had failed. Sold by Z. C. M. I. Drug Dept., 12 and 14 South Main Street."

UTAH, JUAB COUNTIES.

You can return home by Salt Lake Route, Sunday 10 p. m. Be sure and have your conference tickets read over Utah's Most Popular Road.

Talks on Teeth

By B. I. REX, M. D., D. D. S.

NEW TEETH

The world is moving along.

New inventions, new discoveries, new ways of living follow close upon one another.

The pine knot and tallow candle have given way to the incandescent light; steam, electricity, telegraph, telephone, wireless telegraphy have all come within the century. Science has added much to the sum total of knowledge along practically all lines save one.

She has done very little for dentistry. There have been no radical changes from the old method of pulling decayed teeth and plugging those that were partly gone, and for supplying missing teeth there has been nothing better offered than a partial plate or a "bridge," the former a nuisance and the latter a torture, which was bound to make trouble before it had been long in the mouth.

I have it now, the way to offer a radical departure from these old methods in over a hundred years, when I gave my Alveolar Method to the world. I spent a number of years perfecting the method before going before several of the great dental colleges giving clinics and practical demonstrations of this new way of supplying missing teeth without the aid of plates or bridges—but I created a sensation when I did so!

All that I require is that a patient have two or more teeth left in either jaw, and I don't ask that they be tight or sound, for along with my other discovery I found a cure for the cause of loose teeth—pyorrhea, which is another remarkable addition to the sum of knowledge about dentistry it has been my good fortune to discover and give to the world.

The governments of all countries to whom I have made application have granted me patents on my inventions, showing that they were original with me and considered valuable.

I should like to have you talk with some of my patients who are scattered all over this country. Some of them have come from far away up in Canada to have this wonderful work done. You would find an enthusiastic crowd. I have letters from many of them.

The Alveolar method is saving more lives and bringing more happiness to humanity than any other one invention that has been given to the world. It carries this message of hope and comfort to men and women who have lost nearly all their teeth through disease or ignorant dentistry. "Never mind, you can have new teeth through this method that will be just as satisfactory as though a new set had grown in your jaw!"

A promise of that sort makes the man or woman who is struggling along with a partial plate or bridge want to know more about this new method.

We can't send it to you. You must come to one of our offices and have the work done; but what of that?

What price or cost to be put upon a beautiful set of teeth so natural in feeling and looks that your best friend would swear that you had never lost a tooth?

You can't measure the value of such a service, aside from the value from a health standpoint. Good teeth, good health.

The work is simple, painless and permanent. Meanwhile, send for Dr. Rex's book, "Alveolar Dental Method," which explains the method in full—an illustrated book that brings patients to us from the four corners of this continent. We send it, with book of testimonials, free.

REMEMBER—In addition to our Specialty of Alveolar Dentistry (Restoring Lost Teeth), we are experts in every branch of dental work, viz.: Porcelain, gold and silver fillings, crowns, plate work, correcting irregularities, etc. Specialists in each branch of dentistry at your service.

THE MISSION OF "CHESTERFIELD" CLOTHES

Is to make men look as they ought to, and not as they are.

A man's shape can rarely be changed physically, but we can and will make a new man of you if you will let us dress you in a "Chesterfield" suit or overcoat. Prices range from \$20.00 to \$50.00. We would be egotistical indeed to assert that no one else can manufacture such clothing as the "Chesterfield." The Proud Fact in the case is all we refer to. No one else does make and sell such clothing as the "Chesterfield." That's a proven fact. In reality, an undisputed fact.

If the front of any "Chesterfield" Suits we sell you breaks or gets out of shape in twelve months, your money back or a new suit, and there will be no controversy whatever :: :: :: :: ::
