

MOYER LOSES IN FEDERAL COURT.

Judge Beatty Quashed the Writs Of Habeas Corpus in His Haywood's and Pettibone's Case.

HE HAS NO JURISDICTION.

To Remand Prisoners to Sister State After Being Brought Into Idaho.

Boise, Ida., March 20.—Judge J. H. Beatty in the United States court today quashed the writs of habeas corpus in the cases of Charles H. Moyer, William D. Haywood and George A. Pettibone. He first granted the motion of the prosecution to strike out the answers. Atty. E. F. Richardson gave notice of appeal to the United States supreme court.

Judge Beatty stated that he had thoroughly investigated the question before him and had carefully examined all the references noted in the briefs. He stated that it was the practice of his court to be governed by the decisions of the United States supreme court and by the decisions of the federal courts; that where the state courts and federal courts gave adverse decisions on the same issues the state court decisions were denied.

He took up the points raised by the defendants that they should be discharged because they had been brought to Idaho under fraudulent means and that they were not extraditable from Colorado because they were not fugitives from justice from Idaho. Judge Beatty decided that his court had no jurisdiction to inquire into the methods whereby the prisoners were brought to this state in the proceedings at bar. "There is no provision that I have been able to find in law," said Judge Beatty, "whereby I have jurisdiction to inquire into the methods whereby the prisoners were brought to Idaho after they have been brought into the demanding state, as in the present instance. Now that the prisoners are in Idaho I cannot make any order to prevent their detention and trial here."

OPERATORS AND MINERS WILL HOLD CONFERENCE.

New York, March 20.—There will be a conference between the two committees of seven members each, representing the anthracite coal operators and the miners of the hard coal district. This was decided upon at a meeting in this city today of the committee of operators.

Later President George F. Baer of the Philadelphia and Reading railway, forwarded a letter to President Mitchell of the United Mine Workers of America, notifying him that the operators' committee are willing to meet the miners' committee any date Mr. Mitchell may select.

President Baer's letter is in reply to a communication from President Mitchell, in which the leader of the miners expressed disappointment because the operators had rejected the demands of miners without calling their committee into conference.

Mr. Mitchell asked for another conference. In reply Mr. Baer says that the operators fully expected to have another conference with the miners and asserts that President Mitchell has not replied to a counter proposition made to him by the operators' committee to the effect that the miners allow the present conditions to prevail.

MAJ. H. M. CHITTENDEN.

St. Louis, Mo., March 20.—Major H. M. Chittenden, U. S. engineer in charge of the Missouri river and Yellowstone National park work, has received official notification of his transfer to Seattle to be in charge of the river and harbor work at Seattle, Tacoma and Grays Harbor. Maj. Chittenden will be succeeded by Col. James H. Quinn, of Savannah, Ga., and Lieut. E. D. Peck, now stationed in Cincinnati. Col. Quinn will have charge of Missouri river work and will be stationed here. Lieut. Peck will have charge of the Yellowstone park and will be stationed at Yellowstone.

MINERS' DEMANDS.

Referred to Scale Committee and an Adjournment Taken.

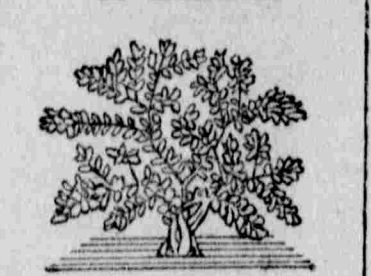

Indianapolis, March 20.—The second joint conference of the coal miners and operators of the competitive district comprising the states of Illinois, Indiana, Ohio and western Pennsylvania, which was the result of the efforts of President Roosevelt to effect a permanent peace in the coal industry throughout the United States, adjourned this afternoon, after referring the demands of the miners to the joint scale committee, which will begin its deliberations tomorrow morning.

After the conference had effected organization, President Mitchell delivered a brief address. He outlined his views as to the purpose of the extraordinary joint conference, at the close of which he moved the adoption of the scale of wages demanded by the miners in the joint conference which adjourned Feb. 2.

The scale provides for an increase of 12 1/2 per cent. The motion was lost on a strict party

vote, the operators voting unanimously in the negative, while the miners voted as a unit in favor of its adoption.

vote, the operators voting unanimously in the negative, while the miners voted as a unit in favor of its adoption.

John H. Winder of Ohio, the newly elected chairman of the operators, moved the adoption of a resolution, which provided that the present wage scale, with all its attending conditions, be adopted for a period of one year, beginning April 1. The motion was defeated.

The miners voted against the proposition to a man. The operators voted "aye" with the exception of those from Illinois.

Mr. Robbins then moved that the matter be referred to the joint scale committee, which will meet tomorrow morning at 8 o'clock, and that the conference adjourn to reconvene at the call of the committee.

Mr. Mitchell seconded the motion, which was carried unanimously.

TROOPS HOLD BACK NEGROES AND PREVENT BLOODSHED

Chattanooga, Tenn., March 20.—A squad of 100 policemen backed by four companies of militia tonight held a large crowd of negroes variously estimated at from 2,000 to 4,000 in number in check and prevented a riot which might have resulted in a great loss of life. The negroes were bent on revenge for the lynching last night of Ed Johnson.

With the execution of a small fusillade of shots in which two white men were shot, and the burning of a house, there were no further disorders, the injured are John Curtis, a railway man; shot in the shoulder by unknown negro.

Dick Light, deputy sheriff, shot in the hand by unknown negro. The officers are satisfied with the situation here tonight and it is believed that if tomorrow passes without trouble the crisis will be over.

The funeral of Johnson will occur without trouble, but it is feared that some outbreak may occur after that.

During the day all the manufacturing plants in the city were closed because of the refusal of the negroes to work and by night they were forming into parties, which the officers broke up as fast as possible.

ATTEMPT TO WRECK CAR.

San Francisco, March 20.—Another attempt to wreck an electric car on the San Mateo line by placing an obstruction on the track was made today, and Bonini Benito, an Italian laborer, is in jail at San Mateo, charged with the offense. He was captured after a hot chase through the marshes that he believed the United Railroads' private right of way and Point San Bruno, on the bay shore of San Mateo county, and was taken only when he became stranded in soft mud up to his waist.

The officials of the United Railroads believe that the arrest of Benito will unravel the mystery attaching to the repeated attempts that have been made during the past several weeks to wreck San Mateo cars.

FIGHT WITH HIGHWAYMAN.

Shoots a Druggist While Trying to Steal a Bag of Money.

Portland, Or., March 20.—Dr. J. J. Fisher, who conducts a drug store, was shot and seriously injured by a highwayman, who secured admittance to the store just after it had been closed for the night on the pretense that he had a severe toothache.

Dr. Fisher went to get some medicine, holding in one hand a sack of money. While he was in the act of reaching for a bottle the robber said: "Say, old man, I don't want medicine. I want that money," and attempted to grab the sack.

Fisher and the robber grappled and wrestled about the floor, the doctor having the better of his assailant. The robber put his hand in his coat pocket and a muffled explosion occurred. The aged doctor fell to the floor with a wound in the groin, and the robber left without the sack.

BANK ROBBERY MOSCOW, RUSSIA.

An Unusually Daring Job. The Robbers Getting Away With \$432,500.

THE WHOLE THING A MYSTERY

No Explosive Used But Safe Unlocked. Men Being Directed by Motions.

Moscow, March 20.—The Credit Mutual, one of the largest banks in Moscow, was mysteriously robbed by masked men at dusk tonight the robbers securing \$432,500.

It was an unusually daring job. The facts already developed raise the question whether the robbery was committed by or under the direction of some one at present or previously employed in the institution.

The bank is situated in Linka street, in the heart of the city. The last of the clerks had just departed leaving an inside guard of three men, while the two porters outside, were a policeman and the house porter.

The street was crowded with people hurrying home at dusk. According to the story of the guards in the twinkling of an eye they were confronted with revolvers in the hands of 20 masked men, who had entered silently by the main door which had been locked when the office force left.

After a command to the guards to hold up their hands not a word was spoken. The guards were quickly bound and gagged and thrown into a dark corner. The robbers then took up positions at all the entrances, the curtains of the windows were lowered and the chief of the robbers, who directed the operations of his associates by gestures and without speaking, showed the greatest familiarity with the location of the vaults.

When all was ready he went to the burglar-proof safe and with a few whistles and the assistance of a combination of the lock, the heavy doors swung open and the treasure of the bank was revealed. The plunder, consisting of gold, silver and notes, was speedily thrust into sacks.

When a clean haul of the money had been made, not a kopeck being left, the robbers departed as silently as they came, making their exit through the main entrance and leaving no trace behind them. They had been in the bank less than an hour.

Twenty minutes later one of the guards succeeded in releasing himself and gave the alarm. The dumbfounded policeman and house porter, who had been standing in front of the bank throughout, claimed they had seen no one enter or leave it.

An immense crowd was attracted to the scene by the news of the robbery. Mr. Vitchinskoff, the managing director of the bank, after a hasty investigation, hastened off to consult Gov.-Gen. Doukassoff.

It is the general impression that the key to the mystery is within the bank itself.

FRENCH MINERS' CONGRESS.

Lens, France, March 20.—The miners' congress today rejected the company's proffer of an increase of 10 per cent in wages. The action of the congress, however, will be submitted to the referendum of the 61,000 strikers.

The congress has issued a manifesto calling on the miners to remain calm and not to listen to revolutionary agitators, urging that thus they will best serve their own interests and render more likely an improvement in their condition.

The strikers are still excited. Tumultuous demonstrations occurred this evening, but there was no intervention of troops.

The agreement calls for rapid transit by subway and elevated lines inside of three years; an assurance of competition and the size of the city of millions of dollars' worth of franchises.

While the late Republican political organization under I. W. Durham has in power, the transit company secured franchises which precluded competition.

SMUGGLED JEWELRY SEIZED.

Detroit, Mich., March 20.—An amount of jewelry which has not been appraised, but the value of which has been estimated at various amounts from \$200 up to \$400, was seized yesterday by the Canadian customs authorities on the ground that it had been smuggled from the United States.
