Mayfield, Ky., July 31.—The hanging of Allen Matthews, the negro who criminally assaulted Miss Ethel McClain last Wednesday night, took place at 8 o'clock tonight in a legal manner in the yard of the county jail. Fully 10,000 people were on the scene, but only a few hundred could see the execution, although the entire fence surrounding the yard had been torn down by the enraged citizens while the trial was going on. It was only 50 minutes from the time the jury was sworn in until the negro was pronounced guilty. Matthews arrived here at 4:30 tonight from Louisville in charge of a deputy sheriff and company of militia from Hodginsville. The local militia met the train and the negro was marched to the courthouse. Several attempts were made to get the negro and twice he was in the possession of the mob, but the soldiers finally succeeded in forcing their way with their prisoner to the courthouse, where Matthews' trial was at once begun.

Robinson, members of the grand jury, were all called today to testify to the story told by George W. Hawk, when summoned before that body when the big fencing scheme was under investigation. All these testified to Hawk's having appeared before them in a highly nervous condition; told how he sweated and fretted under Mr. Hawk's cross-fire of questions, and afterward broke down and declared that he had been lying, and that he was going to tell the truth and take the consequences. He then admitted that he had been induced to take up a homestead, and that he was to sell it.

Hoksett was the best witness among the grand jurors examined. He recalled the incident more distinctly and remembered that Hawk produced a piece of paper after he had confessed, and of signing his name to it. This paper had been given him by Hendricks to refresh his memory as to what to testify to when before the grand jury.

Constipation, Biliousness, Indigestion, Dyspepsia, Torpid Liver, Appendicitis, Colic, Worms, Piles, Headaches, Heartburn, Gas-belching, Acid-risings in the throat, and Colicky feeling are sure signs of bowel trouble from food poisons, and should be dealt with promptly.

One Cascarel will stop the coming trouble, and move on the Bowel load, if taken at the first signs.

A number of speeches were made, mostly denunciatory in character, but there was no trouble, and the large force of police present was not called upon for service. ## GREAT CONSPIRACY SPRINGING TOO SOON

Object Was to Capture the Sea Fortresses, Cronstadt, Sebastopol and Sveaborg.

ATTEMPTED ARREST UPON IT.

Fighting Lasted All Day—Hundreds Were Killed—Trouble Not Over.

Helsingfors, July 31.—A gigantic military conspiracy aiming at the simultaneous capture of Russia's three great sea fortresses, Cronstadt, Sebastopol and Sveaborg, arranged by the Revolutionary Military league, was prematurely sprung here last night by an attempt to arrest members of a company of sappers who had mutilated on account of the death of one of their comrades, alleged to have been due to ill treatment.

The entire garrison of the fortress at Sveaborg flamed out instantly in revolt. All the artillerymen and sappers garrisoned the fortress, and even with this aid they were unable to hold the main fort against the loyal garrison. The fight continued all night long. The heaviest firing was heard from 10 o'clock in the evening until 11 in the morning.

This morning a detachment of civilian revolutionaries entered the marine barracks on Skatudden island, hoisted the red flag and were joined by all the marines. Nine cruisers, torpedoboats and destroyers which were lying in the harbor opened fire on the barracks. This fire was answered from the third story windows of the barracks with machine guns and rifles. The torpedoboats and destroyers which were lying in the harbor opened fire on the barracks. This fire was answered from the third story windows of the barracks with machine guns and rifles.

Rumors are in circulation that the entire fortress has now fallen into the hands of the insurgents, but they lack confirmation. It is believed that this cessation of fighting is only a prelude to the renewal of the battle between the mutineers and the government troops.

While Rheumatism is usually worse in Winter because of the cold and dampness of a changing atmosphere, it is by no means a Winter disease entirely. Persons in whose blood the uric acid, which produces the disease, has collected, feel its troublesome pains and aches all the year round. The cause of Rheumatism is a sour acid condition of the blood, brought about by the accumulation in the system of refuse matter, which the natural avenues of bodily waste have failed to carry off. This refuse matter coming in contact with the different acids of the body, forms uric acid which is absorbed by the blood and distributed to all parts of the body, and Rheumatism gets possession of the system. Rheumatic persons are almost constant sufferers; the nagging pains in joints and muscles, are ever present under the most favorable climatic conditions, while exposure to dampness or an attack of indigestion will often bring on the severest symptoms even in warm, pleasant weather. Liniments, plasters, lotions, etc., relieve the pain and give the sufferer temporary comfort, but are in no sense curative; because Rheumatism is not a disease that can be rubbed away or drawn out with a plaster. S. S. S. is the best treatment for Rheumatism; it goes down into the blood and attacks the disease at its head, and by neutralizing the acid and driving it out, and building up the thin, sour blood, cures Rheumatism permanently. Being made entirely of roots, herbs and barks, S. S. S. will not injure the system in the least. Book on Rheumatism and any medical advice without charge.
