PRICE OF GOLD.

Corrected Daily by BANK OF DESERET.
The Salt Lake City July 16, 1872.
Buying at \$11.15; selling at \$11.14.

LOCAL AND OTHER MATTERS.

THE EMIGRATION.—By the following it will be seen that the emigrants now on the way left Omaha on Sunday—

Brigham Young, Mr. Peterson left here by special train yesterday, with party of about 400 in all.

THOMAS L. KIMBALL.

THE EMIGRANTS.—The following dispatch was received from Ogden to day:

"The emigrants are expected at Green River to-morrow morning. They will arrive at Ogden to-morrow evening."

We would judge from the foregoing that they will also be likely to arrive in this city to-morrow night.

UTAH NORTHERN.—Brother Charles Shumway, of Mendon, Cache Valley, called yesterday. From him we learn that the grading of the U. N. R. R. is within a little of being completed to the above mentioned place.

THE NEW POSTAL LAWS.—The July No. of the Western Postal Record contains the New Postal Laws in full, information required by everybody. Published by the Western Postal Record Printing Co., Chicago.

POLITICAL PAMPHLETS.—We have received from the office of the Golden Age, New York, a pamphlet containing the "Proceedings of the Liberal Republican Convention" in Cincinnati, with Horace Greeley's Letter of Acceptance and the Address of the New York State Committee to their Fellow-citizens; also a Golden Age "campaign tract," "The Philadelphia Failure, a Review of Grant's Re-nomination." By Theodore Tilton.

FINE BUILDINGS.—Col. John R. Winder has a fine building nearly completed near the corner of East Temple and Third South Streets. It is a two story structure, and is roomy and every way commodious, and has a fine large basement underneath. We understand it is the design of the proprietor to rent it.

An excavation is being made on the building spot next to it, preparatory to the erection of a large hotel, which will cost about \$30,000.

PUTTING UP THE WIRES.—A corps of hands under the superintendence of Messrs. Cox and Wheelwright are now engaged in stretching the wires on the new and handsome telegraph poles of the Deseret Telegraph Company in this city. There will be six wires from their office on First East Street to the pole standing at the junction of that street with South Temple Street; five thence to the depot of the Utah Central; and from their main office on East Temple St. to the above mentioned pole there will be eight connecting wires. It is expected to be finished in a day or two. When the promised lamps are suspended to these poles, at the principal street crossings, the increase of light thus afforded for night travelling will be a great convenience to the public.

PROVO CITY, July 12th, 1872.

Editor Deseret News:

The name of David Johns appeared in your issue of June 12th, as signed a petition against the admission of Utah into the Union as a State. I do not know of any person in the Territory bearing that name except myself, and my son who is 4 years old.

I wish to inform my numerous friends that I was in Europe at the time said petition was signed, and did not know that my name was attached to it till yesterday. If, however, another person resides in Utah bearing that name, I should be most happy to make his acquaintance, as he may be some distant relation of mine, and I should like to have him converted.

Respectfully yours, DAVID JOHNS.

WHOLESALE STOCK STRALING.—The following extract from a letter, dated July 12th, from a prominent resident of Brigham City to a friend in this city, will doubtless be read with interest, tending as it does to clear up what has heretofore been somewhat of a mystery in the minds of some people—how some of the inhabitants of Corinne have managed to make a living:

"I have recovered some more of my stock since coming home from Salt Lake City. I got them under rather peculiar circumstances, which I will relate, as near as I have received correct information. It appears that some of our most worthy friends (I) in Corinne made a whole sale business of driving stock from the range, especially if they were 'Mormon' stock, during last winter and early this spring, but, rather accidentally, they happened to drive away a head belonging to an outsider, by the name of Wyatt, whose stock had gone with Nebeker's herd, at the point of the mountain, and through this slight mistake, certain ugly facts have been disclosed, which place some of the most prominent of the 'loyals' in Corinne in rather an awkward position for honest men. In the employ of these worthless driving out this stock from the Territory to Snake River was one S. H. who eventually makes certain revelations in the premises, implicating about six or seven of the most influential citizens of Corinne. At the head of this honorable body of honest men, the name of A. T. appears, and others, whose names are well known to your humble servant, including lawyers, merchants and butchers. And now comes a second edition of Baker & Co. An affidavit (a sad like) springs into existence, in the twinkling of an eye, and has emanated from the illustrious H. name affixed at the bottom, and all in regular order of course, setting forth that his previous statements in relation to Mr. T. & Co. were 'all in his eye.' But the funniest part of the concern was the disappearance of H. and some bad men have been heard to say that he disappeared with five or six hundred dollars 'hush money' in his pocket; but of course no one believes his story, it is too ridiculous. If the statement of H. can be relied on, no less than 500 head of 'Mormon' cattle have been taken from Box Elder county range and driven beyond Snake River, to Helena, Virginia, &c., since last December. The drove which was brought to Brigham City on Tuesday, amounted to 13 head, forty of which had been stolen from Nebeker's herd, 40 from Wyatt and the rest from the settlements around. I had two in the bunch. They were brought from 35 miles beyond Snake River. It is said that there are 115 more in another place on Snake River, belonging mostly to 'Mormons,' which were stolen by the same parties. These, and the others brought in on Tuesday, were to have been sold at the first opportunity, but—had made bad work of their reviving to do as they promised."

Per Deseret Telegraph.

Will not go on the reservation.

The following was received this morning:

Fountain Green, 16.—Dr. Dodge, Indian agent, held a conference with the Indians yesterday afternoon. They would not agree to go back on their reservation as they previously agreed to do at the conference held at Nephi, on the 4th inst. They complain of much sickness among themselves, that better can reason for refusing to do as they promised."

HORSE STRALING.—A man, named McIntyre, had a horse stolen a few days since, and a person, giving the name of John Wilson, was arrested yesterday, on suspicion of being the thief. The suspicion arose from the fact of it being known that Wilson had sold a horse to a gentleman in this city, but it was discovered that the animal in question did not belong to McIntyre. Wilson, however, was retained in custody, as it was known that a gentleman, named Sanford, who lives on the State Road, had lost a horse, which was supposed to be the one sold by the prisoner. Sanford had employed the latter on Saturday to drive some cattle from town to his place, and since then his horse had disappeared. Wilson is in the habit of changing his name frequently, being sometimes known as John Smith.

GENERAL JOHN A. LOGAN, U. S. Senator from Illinois, arrived in the city last evening. He comes on a visit, we understand, to relatives who reside here. The General's career in Congress has been a marked one, having served in the 36th and 37th, the 40th and 41st Congresses. He resigned while a member of the 37th Congress and entered the Union army as Colonel, and by hard fighting and soldierly conduct reached the rank of Major General. He when quite young, was also a soldier in the war with Mexico, and became quartermaster before the war ended. He afterwards served four years in the Illinois Legislature. Since attaining to manhood the General has been in almost constant public service. We trust that his visit to Utah will be an agreeable one.

BEHIND TIME.—The train from the west, which should have arrived here yesterday morning, got in to-day at 11 o'clock, about twenty-five hours behind time.

BING FENCED.—Square cut red wood posts are being put up around the market lot, through which chain will be run, making a very nice looking fence.

IMPROVED SCHOOL DESK AND SEAT.—We were shown to-day, by Mr. Wiley Watson, of Visalia, California, the model of an improved school desk and seat combined, of which he is patentee. By an ingenious contrivance the seat revolves on a kind of pivot, and can be raised or lowered at will, according to the size of the pupil, and the lid of the desk can be adjusted at any desired angle to suit the taste or convenience of the person using it.

Mr. Watson is desirous of selling the patent right of his invention to any of the States or Territories willing to purchase it, that being the nature of the business upon which he has come to Utah.

NEW SCHOOL BUILDING.—The directors of the St. Mark's School have purchased the property formerly owned by Jos. M. Simmonds, opposite the City Hall, with the object of erecting a building for school purposes. It is to be built of frame, about 50 by 120 feet, two stories high, and will be fitted with gas and other modern improvements. Mr. Jordan has the tract, under the superintendence of Mr. Williams, an architect of San Francisco.

The cost of building and lot will exceed twenty thousand dollars. The structure is to be completed by the 15th of next September.

THE MINING DIFFICULTY.—We understand the Territorial Marshal will give the belligerent miners at the Silver Circle mine, Camp Floyd District, another chance to surrender peacefully to the officers of the law, and will send a letter to them to that effect. Should they treat this notification as they have previous ones, prompt and efficient measures will be taken to compel them to come to terms.

A letter was received yesterday, by a gentleman in this city, who has an interest in the mine in dispute, which states that after Deputy Marshal Grover left Lewiston, Kelly, one of the leaders of the party, and several others, all armed to the teeth, visited that town, and bought a quantity of provisions, which they took with them to their fort.

Since the above was written we have learned that the Marshal or one of his deputies will visit the parties in person, and will be accompanied by Mr. Huggan, who was yesterday retained by him as legal adviser. Mr. Huggan will advise Kelly and his party to surrender peacefully to the officers of the law, and will ascertain whether they have any civil rights to the disputed claim.

WILL ARRIVE TO-NIGHT.—Col. B. F. Bristow, Solicitor General, and Acting Attorney General, of the United States, is expected to reach here this evening. Col. B. has achieved distinction both as a soldier and a lawyer; but it is as a jurist that he is best known. He has probably no superior of his age, as a sound constitutional lawyer and wise adviser, in the country. These acquirements and qualities, joined to his probity and courage, have gained him the confidence of the Government and of the public who have been brought in contact with him. He is accompanied by U. S. District Judge Ballard, of Kentucky. Such visitors we are glad to see in Utah.

DEDICATION.—A new School House was dedicated on Saturday afternoon in the Third Ward. The dedicatory prayer was offered by President Geo. A. Smith, and remarks were made by him, President Wells and Geo. Q. Cannon, President Young was present, but was prevented from speaking by the cold from which he has suffered of late. The room was comfortably filled by members of the Ward and friends from adjacent Wards. The building is frame, neatly painted outside and plastered inside, and it is well-lighted and cheerful looking; and if the suggestions made by some of the speakers respecting the arrangement of seats are adopted, it will make a very pleasant, healthy school-room. We congratulate Mr. Ballard, Mr. Wells and his ward upon the completion of this building.

SPECIAL NOTICES.

LOST—A Memorandum Book, containing accounts for harness making with several of my customers, as well as my name. The finder will be rewarded by returning the same to me. L. P. Bono, Harness Maker, 241 South-st. d1011
