FORECASTS TILL 6 P. M. SATURDAY.

Local forecasts for Salt Lake City and vicinity:

Fair tonight and Saturday; slight changes in temperature.

Forecast for Utah, made at San Francisco:

Fair tonight and Saturday; cooler tonight in northern portion. Light frost Saturday morning.

WEATHER CONDITIONS.

The area of low pressure now forms a trough extending from the upper lake region southwestward to Texas. An area of high pressure, with its crest over Alberta, covers the northern Rocky Mountain slope. Rain has fallen over Washington, Montana, northern New Mexico, South Dakota, Nebraska, Minnesota, Oklahoma, and northern Texas. It is cooler over the northern Rocky Mountain slope.

LOCAL BRIEFS.

Thus far there are eleven bidders on the work of erecting the new University buildings.

Rabbi Reynolds will deliver the third of his series of lectures on "The Literature of the Prophets" at the Jewish synagogue this evening.

Col. H. B. Maxson left this morning for Reno. He says that he won't be able to complete the survey of the 198,600 acres in Lincoln county before the fall. It will therefore be several months before that land will be open for entry.

The watermasters of the five big canals met today at Jordan Narrows at 12 o'clock to receive their quota of water for the several canals, pursuant to the orders of the board of presidents to take the planks out of the impounding dam today.

As heretofore stated several thousand sheep died in the canyons and valleys near here during the last rainstorm, and since Saturday over 2,000 carcasses have been gathered in and buried. Much energy has been displayed in burying the dead sheep and Chief Deputy Sheriff Eldredge says that the work has not only been done quickly but well. The owners of the dead sheep will be asked to contribute money to meet the expense of the work of burial.

Some time ago Postmaster Thomas had printed for several business firms of this city blank applications for money orders, in which the name of the firm and address was printed. These blanks are sent out by the firms to customers, who order goods. This was done to obviate, as far as possible, the numerous errors which creep into the applications. The blanks were printed by the general department at Washington, and has had beneficial result. The errors have decreased, and one business firm reports an increase of over 100 per cent in the number of money orders received.

EVERYDAY SCENE ON FLOOR OF NEW YORK STOCK EXCHANGE.

Almost every day a new record in the amount of business transacted is made at the New York Stock Exchange. Just now the members are in temporary quarters at the Produce Exchange while their old building is being razed to make room for a splendid new one. This, however, has no effect at all on the boom in the stock market. The rage for speculation is unprecedented.

OPENING OF THE
RESORT SEASON.

Salt Lake & Ogden Inaugurating
a Number of Improvements.

SOME THOUSANDS OF TIES.

Overhauling Rolling Stock—Work Out
at Lagoon—J. B. Benn Again Ap-
pointed Executive Agent.

General Manager Simon Bamberger, of the Salt Lake & Ogden railway, is having several thousand new ties put into the roundhead between Salt Lake and Farmington preparatory to the opening of the resort season. In addition a force of painters and machinists are overhauling the cars and engines of the company and generally putting them into first class shape.

Visitors to the resort at Farmington will find that there are some big improvements inaugurated which include the removal of the merry-go-round to an abode of its own, while the space made vacant in the center of the booth has been filled up with long tables for the accommodation of parties. A boiler and engine have been put in for the electric light plant, five new artesian wells have been bored and some big tanks erected which are filled by means of a windmill pump.

J. B. Benn has again been appointed excursion agent for the road, this making his third year in that capacity, and he has already started to book dates. J. S. Critchlow will again manage Lagoon resort this year and is now busy looking up attractions. He has already secured a miniature railroad as one of the attractions for the juveniles.

Lagoon will open on May 30, when special trains will be run on the coast line of the Decoration day road race that is being engineered this year by C. S. Wilkes and associates.

Taken altogether Lagoon officials will make a big effort to enter into active competition with Saltair and the Salt Palace.

RECORD SALT Haul.

Oregon Short Line to Move 1,500
Tons to Idaho.

Early next week the Oregon Short Line will make a mammoth shipment of salt for the Idaho Woolgrowers' association which will consist of 1,500 tons of 75 carloads. This shipment was ordered in this city last Tuesday and will be sent in four trains north and be distributed at points along the Short Line in Idaho for the members of the association who are included in the order. The Oregon Short Line handled a similar consignment last season, but this year the tonnage is greater.

Meeting at Del Monte.
Del Monte, Cal., May 10.—The Western Classification Committee in session here has decided to change the time of the first Tuesday in May and November to the second Tuesday in April and January. St. Louis has been chosen as the place for the next meeting. The Burlington and Northwestern railroad has been admitted to membership.

SPIKE AND RAIL.
The majority of the local railroad men are out of town today.

Larry Malley, ex-superintendent of the Wyoming division of the Union Pacific, died yesterday at Portland.

J. T. Andrus, formerly chief clerk of the auditing department of the Oregon Short Line, is in this city on a visit.

Some of the returning Clark forces from Nevada report that the Oregon Short Line refused them rates on party tickets home.

The Freight and Passengers in the Oregon Short Line auditor's office will cross bars on the classic diamond on the Fourteenth ward square tomorrow afternoon.

The remodelled Oregon Short Line ticket office on East Temple street will be an accomplished fact by June 1. Revell & Co. of Chicago have the contract for the improvements.

Division Engineer J. Q. Barlow of the Oregon Short Line has returned from a trip across the desert below Nevada. He is silent regarding the survey and route to be taken by the Short Line on its way to the coast.

The Rio Grande Western earnings for the last week in April were \$161,500.

an increase of \$23,300; for the month of April they were \$427,900, an increase of \$51,000, and for the first week in May \$79,100, an increase of \$12,400.

The Ogden Standard states that Ed H. Green "is an old-time railroad man, having been in the business for the past fifty years." The Oregon Short Line boys are wondering what road Green represented for twenty years before he came upon this mundane sphere.

At a meeting of the executive committee of the Western Passenger association held in Chicago yesterday a fight resulted over the agreement which is being made to get all the lines west of the river to adopt a uniform, interchangeable mileage book. At present the Rock Island and the Missouri Pacific have an interchangeable book, but the other lines, for some reason, are averse to adopting it. It is thought there will be a combination of all other lines against the Rock Island and Missouri Pacific.

WANT GIRLS RELEASED.

Proceedings Entered Against T. M.
Fisher in the Jap Case.

Proceedings have been begun in the Third district court against Thomas M. Fisher, Chinese and immigrant inspector for the United States at the port of Seattle, for the release of the two Japanese girls who were held as witnesses against Wackachi Ogasahara, the Japanese who was arrested and placed under \$2,500 bonds to appear for trial at the next session of the United States district court of the State of Washington on the charge of having bought in Japan and smuggled into the United States two Japanese girls, for immoral purposes.

The Japanese woman who runs the Commercial street brothel in which the girls were found, signed the complaint and Judge Henry Rives secured a writ returnable on Saturday afternoon at 3 o'clock from Judge Hall, against Inspector Fisher and Marshal Miller. The petition alleges that the two Jap women are illegally restrained from their liberty because no order has been issued by the court.

Inspector Fisher held the two women after the hearing and placed them in a house of refuge to await the time when they should be taken to Seattle. Mr. Fisher maintains that his instructions from the treasury department are all the orders he needs to hold the two girls and to deport them from the country as they have testified that they came from Japan to do immoral business in the United States, which is against the laws of the country.

ANOTHER FOR BROWN.
Police Will File an Additional Charge
Against Him.

The police say they have additional evidence against Charles Brown, the man recently sentenced to sixty days at hard labor by Judge Timmony for insulting young girls down in the western part of town, and that another charge will be preferred against him at once. An officer who has been working on the case for several weeks said last night that there were at least half a dozen witnesses who would testify against Brown, and who will positively identify him as the man guilty of indecent conduct towards a number of children. The offense is alleged to have been committed prior to the one of which the man now stands convicted.

Brown went out to work with the chain gang yesterday morning. He seemed to take his position calmly and offered not the slightest resistance, and the guards report that he behaved well. He says he has not the means to appeal his case and will meet whatever charges the police may bring against him. He still protests his innocence but the police are absolutely positive they have made no mistake.

NOBLE WARRUM JR. BETTER

After Suffering Intensely He is Now
on Road to Recovery.

The hosts of friends of Noble Warrum, Jr., who have been anxious over his serious physical condition, will learn with great satisfaction that he is much better this morning, due to the skillful manner in which the physicians have treated him. The specific trouble from which he has suffered intensely is pericarditis.

Col. Warrum was visiting in Logan last week, when a few days ago he was attacked with an acute pain in the bowels. Every effort to alleviate it proved useless, and on Wednesday he returned to the city accompanied by Dr. George W. Thatcher. His trip home caused him great pain, and when he arrived in Salt Lake he was almost delirious. Drs. Wright and Fisher were called, and on examination concluded that he was suffering from an

internal abscess. The probing needle was applied, and the abscess was tapped. After a brief spell, in which the patient was very much relieved, the pain again recurred with added acuteness. The doctors, however, worked faithfully with him with most encouraging results.

Col. Warrum's trouble began with an abscess of the prostate gland, which spread and developed serious complications. Dr. Wright states, however, that they have the trouble pretty much under control, and that after a subsequent operation for the extraction of the puss, he thinks Mr. Warrum will speedily recover.

WILL GIVE RECEPTION.
An Enjoyable Event to Occur at the
Gardo House.

The Young Men's and Young Ladies' Mutual Improvement associations will give a reception to the general and stake officers of the associations at the Gardo house on the evening of June 5. A similar reception was tendered last year and was one of the most enjoyable features of the general conference of the associations. This year, it is also promised to be one of the events of the conference. Mrs. A. W. McCune has very graciously invited the general board to hold the reception at her beautiful home, the Gardo house, and the invitations have been accepted. The officers are now preparing a program for the reception, and it will include some of the finest talent in the state.

No Lost of Time.
I have sold Chamberlain's Colic, Cholera and Diarrhoea Remedy for years, and would rather be out of coffee and sugar than it. I sold five bottles of it yesterday to threshers that could go no farther, and they are at work again this morning.—H. R. Phelps, Plymouth, Oklahoma. As will be seen by the above the threshers were able to keep on with their work without losing a single day's time. You should keep a bottle of this Remedy in your house.
