

MORE UNION MINERS DEPORTED

Gen. Bell Sends Thirty Nine Away
From Victor to Colorado
Springs

TEST CASES TO BE BROUGHT.

Editor of Victor Record Issues a
Statement Saying His Life Has
Not Been Threatened.

Victor, Colo., June 28.—Thirty-nine union miners affiliated with the Western Federation of Miners, who have been arrested at various times since June 6, were deported tonight. In the number were several men arrested at the time of the Dunnville expedition. According to Adjt. Gen. Bell, their destination is Colorado Springs. There was no demonstration at the time the train pulled out of the depot, and few people are yet aware that another deportation has taken place.

Atty. Frank J. Hanks, representative of the Western Federation of Miners, indicated tonight that he will tomorrow commence test cases in the district court before District Judge Seeds, to determine whether the detained union men, affiliated with the Western Federation of Miners, are held as civil or military prisoners. He will apply for writs of habeas corpus directed to the sheriff or city marshal and if the applications are granted, these officials will be required to show cause why prisoners are being held in the city and county jail with no charges against them.

COLORADO SPRINGS KICKS.

Colorado Springs, Colo., June 28.—Another train-load of deported men was sent out from Victor tonight with orders to unload the men at Colorado Springs, but upon the arrival of the train in this city at 5:20, Capt. H. J. Moore, in charge, was met by Chief of Police Reynolds and a force of policemen and ordered not to permit the men to get off the train. At 12:30 the train was still being held awaiting the result of efforts on the part of the military and police to arrange for the transportation of the men to Palmer Lake or Denver over the Rio Grande. Chief Reynolds says that the men will not be permitted to get off the train here.

EDITOR KYNER'S STATEMENT.

Victor, Colo., June 28.—The following statement was given out tonight by George E. Kyner, editor and owner of the Victor Record: "My attention has been called to certain statements printed in various papers to the effect that I have stated that my life had been threatened and that I held the Citizens' alliance responsible for the wrecking of the Record plant. I take the opportunity of denying these statements in which, or in part, I have stated that my life had been threatened and that I held the Citizens' alliance responsible for the wrecking of the Record plant. I have suggested to me that I owe this statement to the citizens of this community and state, and particularly to the military now in power here. However, I make them in defense of the Record, believing that an injustice has been done and with the determination not to be a party to such an injustice."

"I will state further that the editorial published in the Record on June 6 was written by me and on the suggestion of no other person. It was not written through fear, but represented my honest convictions in the matter in question, namely, the ending of the strike and the possible advent of peace in this state."

"GEORGE E. KYNER."

The editorial referred to in the above advised the miners to end the strike at once and go to work. Two days later the Record office was wrecked by a mob.

APPEAL TO PRESIDENT.

Fort Wayne, Ind., June 28.—Resolutions denouncing the action of Colorado officials during the recent labor disturbances in Teller county and asking President Roosevelt "to take such steps as will guarantee to every citizen of Colorado his rights as to life, labor and the pursuit of happiness" were today passed by the Fort Wayne federation of labor.

Investigating Colorado Troubles.

Washington, June 28.—The bureau of labor is making an investigation of the labor difficulties in Colorado under the organic act of the bureau, which charges the commissioner of labor to investigate the causes and the facts relating to controversies between employers and employees. The investigation, which is already under way, may last for some time, as it is the intention of the bureau to go to the very beginning of the trouble and endeavor to ascertain exactly what the difficulties are and the causes leading to them.

To Aid Miners of Colorado.

Batte, Mont., June 28.—At a meeting of the business men and the unions tonight Silver Bow county to aid the miners of Colorado and their families who might be in distress. All the unions throughout the state will be asked to contribute to the fund to be sent to Colorado.

Anti-Wolcottites Win.

Denver, June 28.—The anti-Wolcott wing of the Republican party in Colorado captured control of the state central committee today and by a vote of 66 to 49 postponed the election of a new chairman to succeed D. B. Fairley until the state convention meets. This action was in opposition to resolutions adopted by the recent state convention directing the committee to elect

Digestion isn't a mere chemical process alone.
The walls of the stomach move against one another and grind, or "churn," the food.
"FORCE" is already half digested and well milled. It gives these over-tried twentieth-century stomachs of ours a fair show.

Sunny Jim

There is a certain crisp, appetizing, delicious taste to the flakes of "FORCE" which creates a sensation you long to repeat.

The delicious taste is a sure sign that you are eating something which is going to do you good.

W. S. Boynton chairman at today's meeting. The committee called a state convention in Denver Sept. 14 to nominate candidates for governor and other state offices.

EFFIE CULLEN'S DEATH.

Arrist of Chinese Doctor May Clear Up an Old Mystery.

Olympia, Wash., June 28.—The mystery surrounding the death of Miss Effie Cullen, young woman printer, about five years ago, may be cleared up through the indictment filed today against Lum Jo, a Chinese doctor, for the murder of Don Yin, a vegetable vendor, who was shot in the back on his way home at a late hour last Saturday night. Miss Cullen disappeared one evening during the fall of 1898, the next day her body was found on the tide flats in front of the city. There were marks of violence on her body, but it is known that Miss Cullen was in ill-health and that Lum Jo had been treating her. The authorities claim they will be able to show that Don Yin "knew too much" concerning the death of Miss Cullen and was put out of the way for that reason.

Anti-Parker Committee.

New York, June 28.—Judge Seabury who was directed by the anti-Parker convention held here on June 26, to appoint a protesting committee of 25 to present to the Democratic convention at St. Louis the protest of the convention has named the committee which includes J. G. Phelps Stokes and Henry George, Jr. of New York. The delegation, headed by Judge Seabury, will leave for St. Louis Saturday morning. Headquarters will be open by the committee in the Planters hotel in St. Louis.

Gifts to Yale.

New Haven, Conn., June 28.—President Hadley of Yale in his annual report says the year just closing has been an exceptionally prosperous one, and that the financial condition of the university is good. The gifts and bequests exceed half a million dollars.

Mark Twain Sails for Home.

Naples, June 28.—Samuel L. Clemens ("Mark Twain") sails for New York today on the Hamburg-American line steamer Prinz Oskar with the casket containing the remains of his wife, which will be interred at Elmira, N. Y.

Monetary Law for Panama.

Panama, June 28.—President Amador today signed the bill for a monetary law passed by the legislature. The law practically establishes the gold standard and provides for a coin to be called the "Balboa," equal to the American dollar or two silver pesos.

KNOX AND CORTELYOU.

They Take Leave of Their Cabinet Association.

Washington, June 28.—Atty. Gen. Knox and Secy of Commerce and Labor Cortelyou took leave of their cabinet associates at today's meeting. Their successors, Secy. Moody and Victor H. Metcalf, are expected to take the oaths of their new offices next Friday, the beginning of the new fiscal year. Paul Morton, Secy. Moody's successor in the navy department, probably will not assume the duties of his office until next Monday.

Mr. Cortelyou, while he leaves the cabinet, in taking up the duties of the chairman of the Republican national committee, will remain in close touch with the president and the cabinet. Secy. Dover will have headquarters at the Arlington hotel. Campaign headquarters will be opened in New York and Chicago about the 1st of August, but it is not expected that the campaign work will be in full operation before Sept. 1.

EX-SECY. OLNEY PROBLEMS FOR THE LAWYERS.

Wants to Know Where Constitution Grants Power to Civilize
An Alien Race.

PROBLEMS FOR THE LAWYERS.

Shall Revered American Ideals be
Relegated to the Limbo of Anti-
quated Superstitions?

Cambridge, Mass., June 28.—Upon the completion of the exercises in Sanders theater the members of the Harvard Law School association proceeded to the Harvard union, where dinner was served.

The banquet speakers included Richard Olney, Justice Knowlton of the Massachusetts supreme court; Baron Kamekura, special envoy from Japan to the United States and Great Britain; and President Eliot of Harvard university. Mr. Olney in his address, referring to Secy. Taft, said:

"Having absolute mastery over the lives and fortunes of 7,500,000 of people, he has won general admiration and applause by the justice and skillfulness of his rule and by the tact, patience and humanity of his dealings with an alien and subject race."

Continuing and referring to American rule in the Philippines, Mr. Olney said: "According to him (Taft), we are rich enough and can afford it, and therefore it is our duty to sacrifice American lives and American treasure indefinitely and without stint for the education and elevation of Filipinos according to American standards. But out of any such proposition, one might suggest another legal puzzle for the modern American lawyer to find in the national Constitution any authority for purely philanthropic enterprises—any right in that government to turn itself into a mission to the benighted tribes of islands in the South seas, 7,000 miles from our shores, or any powers to tax the toiling masses of this country for the benefit of motley groups of the brown people of the tropics whose civilization, or in any other name or in any other pretext whatsoever. And if the search be successful and the doctrine vindicated that there are superior peoples in whose interest it is to improve the lives and property of weaker and inferior citizens in any community be rightfully expropriated for the benefit of the stronger and superior?"

"That new conceptions of law and of government, like those just indicated with others akin to them are rife among us today is not to be denied. It is imperative that the lawyers of the day should give them earnest consideration. It is for them to say whether the break with our old past which ought to be and is to be perpetuated; whether American principles as embodied in American constitutions and state papers, once deemed models of wisdom and inspirations to humanity the world over, are now to be relegated to the limbo of antiquated superstitions; whether the flag shall symbolize the ideas and the ideals of the great Americans who are identified with all our men and aspirations in our past history or shall stand for the theories of the new guides and teachers of the present hour."

STATEMENT BY GORMAN.

He is in no Combination to Defeat Judge Parker.

Washington, June 28.—Senator Gorman today made the following statement regarding the report that he, with national Committee Chairman Guffey of Pennsylvania, McLean of Ohio, Smith of New Jersey and others, had held a conference here for the purpose of ascertaining how many votes could be combined in the convention against the Free Silver platform, but in no case more than one-third of the convention in order to prevent his nomination:

"The persistence and regularity with which statements of this character have recently appeared would seem to indicate a studied desire to misrepresent me. The fact is that at all the conferences, I have attended the object was solely the promotion of the platform of the convention, which is the duty of the members of the national committee to consider. So far as I am concerned, I have not been a party to any arrangement for effecting a combination to obstruct the efforts of any candidate for the nomination. The Maryland delegates have not yet determined the course they will pursue in regard to the candidates at St. Louis, and will probably not reach any consensus until after their arrival at St. Louis, and after an opportunity to confer with the delegates from other states."

"As to the two-thirds rule, it is necessary where the unit rule obtains, as in Democratic conventions, but in no case since the adoption of the two-thirds rule, has any nomination been prevented when a candidate has had a clear and undoubted majority of the convention, and where the majority of the delegates from Democratic states. They have always controlled the convention."

"I have perfect confidence that the convention will adopt a sound, conservative platform and nominate a ticket which will command the confidence of the country."

Reduction Mill Closes.

Colorado Springs, June 28.—The reduction mill at Colorado City, owned by the Portland Cement Mining company, closed down this afternoon for two weeks. The necessity of making repairs and a shortage of ore, occasioned by the recent closing down of the mine at Victor by the military authorities, are given as the reasons for the action. There is no doubt that the mill will be non-uniformed when it resumes operations, since the Mill and Smeltermen's union is affiliated with the Western Federation of Miners, against which the Portland directors directed themselves ten days ago. If this action is taken the non-uniforming of all four of the Colorado City reduction plants will be completed.

Perdicaris Must Have Rest.

New York, June 28.—Messrs. Perdicaris and Varley, just rescued from the

For Pain Take a Dr. Miles' Anti-Pain Pill, and the Pain will disappear Like Magic.

Not by paralyzing the nerves and glands, like opium, morphine, cocaine, and other dangerous drugs, but by increasing the natural secretions. This action is obtained as a result of modern discoveries in medicine, making it possible to relieve pain without any after-effects.

You can safely depend upon Dr. Miles' Anti-Pain Pills to relieve any and every such pain as Neuralgia, Headache, Stomachache, Menstrual Pains, Rheumatism, Backache, Toothache, etc.

They will also, by their calming action on the nerves, almost instantly relieve such distressing feelings as Dizziness, Car-Sickness, Indigestion, Irritability, Sleeplessness, Nervousness, etc. Not merely do they relieve, but they also absolutely cure, because by perspiring in their use, you do away with the cause.

Dr. Miles' Anti-Pain Pills are guaranteed that first package will benefit, or your money back. Never sold in bulk. "I am thankful for the good Dr. Miles' Anti-Pain Pills have and are doing me. I never since I took a pill and had relief from my headache, caused by catarrh, until six years ago. I began to feel better, and I am now well. The only remedy that ever gave me relief. Since then I have not had any more of the trouble. I take a pill and it overcomes the difficulty." GEO. SAUNDERS, Greensburg, Ind.

FREE Write to us for Free Trial Package of Dr. Miles' Anti-Pain Pills, the Standard Remedy for Pain. Also Symptom Blank. Our Specialist will diagnose your case, tell you what is wrong, and how to fight it. Free. DR. MILES MEDICAL CO., LABORATORIES, ELKHART, IND.

Moroccan brigands, are expected with their families to spend the summer in the Bernese Oberland, says a Herald dispatch from Geneva, Switzerland. Physicians recommend absolute rest for Mr. Perdicaris, and it is probable that the families will not return to Morocco for some time.

LOW STEERAGE RATES.

Result in Enormous Increase of Travel to Europe.

New York, June 28.—New rates in steerage passage eastward already have resulted in an enormous increase of that class of passenger traffic to Europe. On some lines cheaper tickets have doubled and in some cases tripled the volume of business done at this season of the year. In some cases persons who wished to sail this week have been told that steamships were filled to their utmost capacity.

Steamship agents generally agree that the bulk of those who are taking advantage of the low rates merely desire to pay a short visit to their relatives on the other side and return, and that few are leaving America permanently. On some of the English steamers it has been remarked that a comparatively large number of college men are seeking the opportunity of passing the summer in Europe at comparative small cost.

JEFFERSON'S PORTRAIT.

Will be Only One Hung in the Democratic Convention.

St. Louis, June 28.—It was stated at the headquarters for the national Democratic convention, which will convene in the coliseum on July 6, that the only portrait that will be hung in the convention hall will be one of Thomas Jefferson.

John I. Martin, temporary sergeant-at-arms of the convention, said that would hardly do to have portraits of living Democrats displayed as permanent fixtures in the convention hall.

Plans for the decorations have been completed and the large hall will present a gala appearance. Red, white and blue will predominate, but the Louisiana Purchase Exposition colors will be a feature of the decorative scheme.

The dome of the hall will be formed of coarsely painted canvas, which will be decorated with national colors exclusively and the stage will be done in a star-spangled effect. The coats of arms of several states and territories will be placed at intervals along the walls and on the platform.

The standards, indicating the seats of the delegations, will be of white, with red rims and blue lettering.

July Dividends.

New York, June 28.—Despite several suspensions of payments by industrial companies and occasional omissions by railroads the total of July dividends apparently will fall but little below the record figures of last summer, while it runs slightly ahead of the total for last January.

Dividend payments due July 1 are estimated at \$58,509,000, and interest payments at \$16,250,000. The only noteworthy feature of the statistics is a decline of over \$2,700,000 in payments by industrial concerns, as compared with July, 1903. This is accounted for, however, by the suspension of dividends on the common stock of one great corporation.

RESERVATION A BIG WINNER.

Geo. T. Odell Tells of the Resources
And Outlook for the Uintah
Region.

LOCATORS ARE NOW CATERING.

Campers are Dotted Along the Line
Ready for the Opening Next
Spring.

"Uintah is the best watered county in Utah. It will be a close second to the great Snake river valley in Idaho." So says Mr. George T. Odell, who has just returned from an extended visit in Uintah county, having driven some 200 miles over the northern portion of the county. He is emphatic in his praise of its possibilities, based on what he saw, and what he believes will be the result after the lands now idle are located and improved, which, according to all reports from the United States government will be open for bona fide settlers on and after March 1, 1905. Information regarding the manner in which these lands can be obtained will be published in the daily papers, and all the information necessary can be obtained from the United States land office in this city.

Mr. Odell's trip was from Price to Vernal via Port Duchesne, and from Vernal to Heber via the White Rocks agency. He believes that he crossed at some point or other all of the streams in the county, and says if combined he thinks there would be as much water as flows in the Snake river in Idaho.

"SOONERS" GATHERING.

Numerous camping outfits, owned by parties who intend to make ground on what is now the Indian reservation, were found in the vicinity of Vernal and at other points where permitted to camp, and he was credibly informed that people coming in continuously will remain in the vicinity of Vernal until such time as the reservation is thrown open to settlers. It having been very widely advertised, there is little doubt but what a great many locators will be on hand March 1, or at such other dates as they may be notified that the reservation will be open, and while one can hear of the many thousands expected at least two or three thousand people will become owners of this idle ground as soon as there is opportunity to locate. Freight into the Uintah valley has to be hauled by teams at the present time, taking some eight or ten days from Salt Lake City to Vernal, but there is reason to believe from surveys already made, that within a very few years it will have better railroad facilities than at the present time.

ROUTES TO GOOD LANDS.

Mr. Odell calls attention to the fact that there are many ways by which the agricultural lands can be reached, the present important shipping point being Price on the Rio Grande. Surveys have been made at different points through the country to the passes reaching Heber and Park City, and one of these points will have consideration. Both of the strong lines into Utah have an eye on this country, and when it is covered with farms, some railroad will take advantage of the conditions and give the residents of Uintah county an opportunity to find a market for their products. At present it costs approximately \$1 per 100 pounds to move stock from Vernal to Price, and half a million or more pounds of wool have been brought out this season. It is reported that the Gilsonite and possibly the Elaterrite mines will be operated, and Mr. Odell says that the conditions are at Price, that some 30 or 40 teams would be put on at an early date hauling Gilsonite from the deposits, 12 miles south of Duchesne, to Price, for shipment to Chicago. The streets and sidewalks of Vernal are paved with Gilsonite, and all it needs to make it a progressive town is railroad facilities.

SOME RESOURCES.

There are one or two saw mills in the valley. Plenty of timber can be found in the mountains. Coal deposits are abundant. For grazing land the country is not surpassed, and when the waters from the numerous rivers are brought on to the agricultural lands, what is now apparently a desert will be made a garden spot. From Mr. Odell's experience with the conditions surrounding the country in the Snake River valley, Ida., going back for a period of 15 or 17 years, he is convinced that in a reasonable length of time under the conditions named, Uintah county will become a close second in production to the agricultural lands in the Snake River valley, and as he believes with less possibility of frost conditions.

It is also to be noted that a line is being built from Mack, a station in Colorado, 272 miles from Salt Lake City, which will, as we are advised, reach a point about 60 miles southeast of Vernal. While this will be the nearest railroad communication to that point, it is hardly expected that it would be of much benefit to Salt Lake merchants unless the promoters of this line decide to continue the same into the Ashley valley.

WANT THEIR LIBERTY.

Five Distracted Wives Seek Needed Relief Through the Courts.

Five divorce suits were filed in the district court yesterday and in one of them, Laura Redmond against Edward J. Redmond, the defendant and plaintiff was granted a decree of divorce yesterday afternoon by Judge Lewis. The ground upon which the decree was granted is that defendant had been convicted of a felony and is now serving a term in the state prison. Plaintiff was awarded the custody of their minor child, and was allowed to resume her maiden name, Laura Frost.

Clara Lockard asks for a divorce from Robert Lockard on the grounds of desertion and failure to support. They were married in this city on July 28, 1897, and have one child, of which plaintiff asks the custody. She also asks the restoration of her maiden name, Clara Griffin.

Desertion is the ground upon which Annie S. Salter seeks a divorce from Andrew Salter, whom she married at Blackfoot, Idaho, on March 2, 1892. Plaintiff asks that her maiden name, Annie Stuart, be restored to her.

Failure to support is the cause of action in the suit filed by Lillian B. Rogers, and also in the suit filed by Jennie Louder against James Newell Louder. The former couple were married at Pueblo, Colo., in April, 1902.

ROUND THE WORLD TO BIG EXPOSITION

St. Louis World's Fair Great
Objective Point for Globe-
Trotters.

LONG-DISTANCE TRAVELING.

Distinguished People Coming From
Many Distant
Lands.

The Chinese prince, Fu Lun, crossed the Pacific Ocean to the World's Fair, and he returns by the Eastern route, thus circumnavigating the globe.

Two Bavarian princes are just starting for St. Louis, and after seeing the World's Fair, they will make a trip around the world.

Members of the Egyptian royal family are now in the United States and are considering the prospects of a world's tour.

Distinguished people from Asia, Africa and Europe, publicists and scientists and official commissions from many countries have begun journeys to St. Louis, and many of them will make a trip around the world.

St. Louis, of course, is the objective point of their journeys, and they must believe that the attractions there must take the trouble to come.

The World's Fair is directly to be credited with much of the long-distance traveling done this year. That foreigners should place such high estimates on the World's Fair is itself a convincing advertisement.

Ordinarily, people whose means are more or less limited can't make a trip around the world, but they can come across in their travels, and in such a way as to acquire much useful knowledge.

Those, however, who cannot visit the Fair in person will find a most interesting substitute in "The Forest City" series of World's Fair Art Portfolios, which is a thoroughly official publication, since the views are reproduced from photographs taken by the official photographer of the Fair, and the descriptions are written by Walter B. Steves, Secretary of the Exposition.

This series is now offered to our readers on terms so easy as to place it within the reach of all. Thousands of foreigners will secure the work, and hundreds of thousands of Americans throughout the country will wisely place the portfolios in their homes for future reference and study.

Although the regular price of each portfolio, containing sixteen views, is 25 cents, our readers may secure any of the portfolios as issued by bringing or sending only 10 cents to the "News" office.

This is an opportunity which is thoroughly appreciated and the distribution is constantly increasing.

Light as a Feather
