George B. M. Harvey.

THE FOUR MEN WHO ARE TRYING TO SETTLE THE GREAT STEEL STRIKE.

of the executive board got here early in the morning and were confined in the conference rooms of the headquarters all day with the exception of a brief lunch hour. They were the same guards displayed outside of the offices and newspaper men were kept back from all approaches to the meeting.

At four o'clock in the afternoon President Shaffer, acting on behalf of the board, sent word to the newspaper men that there would be no statement given out for publication today, and that there would be a meeting of the board tomorrow morning at 10 o'clock to consider matters before it. The meeting did not adjourn at this hour, however, but remained in session until nearly 6 o'clock.

During the afternoon Joseph Bishop of the board of arbitration of Ohio, was present for some time. Ex-President M. M. Garland, of the association, was also in the offices for a time, but both of them left early. They declined to discuss the situation in any form, except to say that they did not know what the probabilities were for a settlement.

May End This Week.

San Francisco, Aug. 2.—An early settlement of the trouble between the Employers' association and the City Front federation now seems probable and an early end of the strike is anticipated. Labor leaders and prominent merchants are alike hopeful that tomorrow will see the end of the strike, and that on Monday the striking workmen will return to their former employment.

Mayor Phelan has in his possession a letter from the City Front federation asking for more light upon some features of the terms of peace upon which the employers insist. This letter will be laid before the Employers' association today. Numerous conferences will be held and it is expected by many of those interested that an understanding will be reached before night. Whatever decision may be reached will not directly affect the striking iron workers.

Strike of Garment Workers.

New York, Aug. 2.—The striking garment workers decided to call out the cutters employed by several manufacturers, partly to force those who have not complied already with the demands of the strikers to do so at once and partly to force the manufacturers to accede to the demands of the contractors, in order that the strikers may return to work as soon as possible. The attitude of the contractors is said to be unchanged. They have issued a letter or proclamation, alleging that for the last few years the clothing trades have been agitated each year by the strike of the workers, who have won all their demands. The contractors say the allegations of the labor leaders are false or exaggerated.

Notified of Advance.

New York, Aug. 2.—The coastwise steamship companies running off this port, including the Ward, City, Malory, Old Dominion, McLaughlin and Southern Pacific, have been notified of the adoption of a wage schedule by the Wage Earners' Beneficial association. These figures are an advance over the present scale, but it is said that the steamship owners are disposed to grant the demands of the engineers, though they consider them unjust.

Hod Carriers Return.

Denver, Colo., Aug. 2.—The strike of the union hod carriers of Denver, which began June 1, has been declared off. Eight hundred men were out and the strike has seriously interfered with building. The other labor unions of Denver refused to sanction and support the strike.

American Shoes in Europe.

New York, Aug. 2.—An American shoe manufacturer who has stirred up feeling in Vienna by his attempt to establish a number of American shoe stores in that city, is Julius A. Barthman, of Newark, says the Tribune. Barthman formerly kept a store in Broad street, Newark, but was burned out more than a year ago.

Last winter he went to Europe and on his return said there were limitless opportunities for American shoes in Austria and that he intended to open a number of American shoe stores in Vienna and afterward in other cities of Austria and Germany. Mr. Barthman had capital but also interested others in his project. He returned to Vienna and sent orders to this country for large consignments of shoes.

Charitable to Broderick.

New York, Aug. 2.—The effect of the death of Lady Hilda Broderick on the quarrel between the newspapers and the secretary of state for war is explained by the London correspondent of the Tribune as follows: The secretary of war has been exposed to general criticism for lack of tact in dealing with the press. Even the Daily Mail is now moved by generous impulses since death has suddenly darkened his home. Lady Hilda Broderick was an accomplished woman with a large circle of devoted friends in London society, while her husband was a plodding official and a politician with an unsavory appetite for public work. She was a welcome guest in country houses and he often accompanied her against his will. Her death has occurred after a short illness, due to blood poisoning. It is charitable to conclude that Mr. Broderick's recent errors of judgment have been caused by domestic anxiety and distraction.

NO COMPETITION.

New Sugar Refinery Promises to Mind Its Own Business.

New York, Aug. 2.—The Journal of Commerce says:

The backers of the new refinery which is being erected at Edgewater, near Fort Lee, N. J., on the shores of the Hudson river, opposite the tomb of Gen. Grant, are Robert Crooks & Co., among the largest importers of refined sugars in this market. However, the fact that Robert Crooks & Co. have been identified with the foreign sugars is not a factor in the new company's policy, as the firm will merely act as agents for the new refinery. E. H. Laing, of Robert Crooks & Co., said

that the new company would be known as the Knickerbocker Sugar Refining company.

The refinery is to be in a large extent a western enterprise, a number of western wholesale grocers and merchants, operating under the New Jersey charter, being interested in the company. Geo. K. Ross of Cleveland, Ohio, will probably be offered the presidency and be the official head of the new company. Mr. Ross is president of the Ross & Sprague company, wholesale grocers, of Cleveland, Ohio. The firm of George H. Newhall Engineering company, of Philadelphia, who will supervise the erection of this plant, built the Arbuckle refinery, also the National, of Yonkers, the McCann of Philadelphia and the United States of Camden, N. J. The capacity of the refinery will be 1,500 barrels daily. The men interested in the plant say that they will have a distributing outlet of their own for over 50 per cent of the output. It is not the intention of the concerns identified with the refinery to enter into competition with anybody.

Adopt Old Plan.

New York, Aug. 2.—Frederick L. O'Leary, of Boston; D. H. Burnham, of Chicago, and Chas. F. McKim of New York, who were appointed a committee to devise means for beautifying Washington, returned on the Deutschland. They visited the principal European cities in search of suggestions for their work. Mr. O'Leary said:

"Broadly speaking, we intend to go back to the plan made a century and a half ago by Charles Peter L'Enfant, under the direction of George Washington. It is an extraordinary plan and we shall attempt to bring about a realization of it so far as practicable."

Costly Fight.

London, Aug. 2.—In the house of commons Lord Stanley, financial secretary of the war office, replying to a question, said the cost of the war in South Africa from April 1 to July 31 was £35,750,000, partly chargeable against the deficit of last year. The actual cost in July was £1,250,000 weekly. The statement was greeted with ironical Irish cheers.

The chancellor of the exchequer, Sir Michael Hicks-Beach, said that if the war continued at the same cost for the next three months it would necessitate spending the whole of the reserve he had provided for financing the third quarter, but he had reason to hope that this would not be necessary.

Engaged a Violinist.

New York, Aug. 2.—According to the World, Daniel Frohman, who has just returned from Europe, has departed from his usual custom in engaging a musician, Kubelik. It is explained, however, that Mr. Frohman had heard while abroad that Kubelik, whose work as a violinist had surprised London, was disengaged and in Russia, where he was held for military service. Mr. Frohman negotiated his release and after paying a bonus, succeeded in getting him. Kubelik will appear in this city the first week in December. He will play in New York and Boston for six weeks, when he will go on a tour through the west.

Eagles Spreading Wings.

New York, August 2.—The Fraternal Order of Eagles of New York has presented the grand president, Del Carey Smith, of Spokane, Washington, with a silver loving cup. The presentation took place at a banquet held last night. President Smith, who was elected grand president at the convention of Eagles in May last in San Francisco, is making a general tour of the eastern states. He said that although the order had its birth in the far west, and is less than five years old, there are upwards of 100,000 members enrolled.

Vermont Will Be Preserved.

New York, Aug. 2.—It is stated at the Brooklyn navy yard that the idea of destroying the old Frigate Vermont, which for the past forty years has done duty there as a receiving and training ship, has been abandoned. All that is to be done is to have the ship removed and the hull preserved as a relic. Just what disposition will be made of the ship will be decided by the authorities at Washington. At present she is infested with water bugs and fleas and is thought to contain microbes that are productive of disease.

VENEZUELA WILL FIGHT COLOMBIA.

Midget Republics in South America
Have Much Bother.

URIBE MAKES HIMSELF BUSY

Plans an Invasion of Colombia, but
the Scheme Was Detected and
Promptly Met.

Port of Spain, Trinidad, Aug. 2.—In consequence of the resignation of Senor Pulido, minister of war, it is feared that President Castro of Venezuela, as proposed to the cabinet, will declare war against Colombia, notwithstanding public opinion against such a move. The President, it is understood, suggested that passports be handed to the minister from Colombia.

It is feared that the most serious complication will follow the present situation.

DISTRACTED VENEZUELA.

New York, Aug. 2.—Venezuela is again on the eve of a revolution and not only is that unfortunate republic approaching a state of civil war, but serious complications will, in all probability, arise between the governments of Venezuela and Colombia, says the Port of Spain, Trinidad, correspondent of the Herald. President Castro, while facing the uprising against his own authority, is also accused of furthering directly the revolution against the Colombian government.

Arms, ammunitions and the other accessories of war have been quietly smuggled into Venezuela through the water ways of the republic and the first engagement is expected to be the signal for uprisings in several widely separated districts. Gen. Castro is expected to again assert his power by placing a strict censorship on telegraphic dispatches from that country as well as ordering a close scrutiny of all mail matter passing through the general postoffice in Caracas.

To add to the seriousness of the situation in Venezuela itself, it is well known that in the adjoining republic of Colombia a very strong feeling of resentment against the Castro government exists on account of what is considered a serious breach of international law on the part of Venezuela in its alleged recognition of, if not actual assistance to, the leaders of the revolutionary party of Colombia.

It is even said that not only has the Venezuelan government permitted its ports to be used by the Colombian revolutionists as a base for the collection of supplies but it has winked at, if not actually assisted, the Colombian revolutionists with certain articles of war.

GEN. URIBE HAS BUSINESS.

New York, Aug. 2.—A dispatch to the Herald from Port of Spain, Trinidad, says:

A report has been current here that General Rafael Urbina, from Antioquia, Republic of Colombia, arrived in Caracas several days ago under the name of "Senor Victor Toro" and had an interview of about three hours with Gen. Castro. He went to La Guayra soon after and proceeded on board the Venezuelan gunboat Austro, a sister of which had been changed to Zumbador. He found it well supplied with munitions of war and started immediately for Malacalibo, where he met about 1,000 troops on the frontier between Venezuela and Colombia, ready to act at once in the invasion of Colombian territory.

Within 24 hours another dispatch was received here that the Colombian government had discovered the plan laid down by Uribe-Urbina, after his consultation with Gen. Castro, and that six thousand Colombian soldiers had been sent out to meet the invaders.

ANOTHER VIEW.

Chicago, Aug. 2.—The men who are trying to overthrow the Venezuelan government by exciting a revolt in the western mountains and by trying to draw Colombia into the trouble are friends of former President Andrade, says Pedro Alvarez, Venezuelan consul in Chicago. "When the ex-president was expelled some of the mountain people were still in sympathy with him, but they are few in number and can accomplish little. They are trying to induce Colombia to take their side against President Castro and the government now in control in Venezuela. I do not think they can succeed in that. The heads of the two governments are on the best of terms and there is not the slightest enmity between the people. Dr. Carver, the leader of the revolution, may possibly be able to find a few recruits among the Colombians, but they will be so very few that they will not add materially to his forces."

"There is another reason why Colombia will not interfere with affairs in Venezuela. Colombia is herself engaged in a revolution at the present moment."

PLAYED "POSTOFFICE."

Gratifying Outcome of a Request for
Cancelled Stamps.

New York, Aug. 2.—The announcement of the approaching marriage of Solomon Berliner, of this city, United States consul at Tenerife, Canary Islands, and Miss Emma Ottenberg, of Washington, D. C., has brought to light an interesting romance.

Mr. Berliner received in his mail one day at Tenerife a letter from Miss Ottenberg, a student at Columbian University, Washington, asking that he save her such used postage stamps as came to the consulate. The tone of the letter brought about a regular correspondence between the consul and the school girl.

A few weeks before leaving the Spanish island possession for America, Mr. Berliner wrote for and received the picture of his correspondent. During his vacation he visited Washington, and the announcement of the engagement has followed as a sequel.

Go ing on a Cruise.

Newport, R. I., Aug. 2.—The vessels of the North Atlantic squadron will leave Newport next Monday for a month's cruise. Rear Admiral Higginson proposes during that time to continue the land drills at Nantuxet. The squadron is expected to return to Newport early in September to participate in the manoeuvres.

Unpleasantness in Bunches.

Berkeley, Cal., Aug. 2.—At the closing session of the summer school at the University of California, James Earl Russell, dean of the teachers' college and professor of history and education at Columbia University, struck some hard blows at the teaching profession. He called teachers the most narrow and bigoted set of people on the earth. He said that they were pusillanimous and cringing, and accused them of being as a class totally unfit and unprepared for the work they were pretending to do.

Although the hall was filled in great part with teachers attending the sum-

SOAP DIGNITY.

IT IS easy to find a pure soap; it is easy to find a cheap one. The problem is to find both combined; a soap that is pure yet inexpensive. Ivory Soap is the best solution of that problem. It is an original product, evolved after years of experiment and research. It is the most of pure soap for the least money. It stands approved to-day by a second generation of Ivory Soap users.

mer school, the professor's packages of unpleasant truths were well received. He spoke of himself as of the teaching profession.

Will Adopt Wireless Telegraphy.

Milwaukee, Aug. 2.—W. L. Mercereau, superintendent of the Pere Marquette system, announced today that his company would, in the near future, install wireless telegraphy between Manitowish and Ludington, over 55 miles of open water. Later on the Pere Marquette company expects to equip all of its steamers with the system.

From Holland to Holland.

New York, Aug. 2.—Capt. Tromp, the foreign representative of the Cramps, has received a cablegram from Hollander informing him that Queen Wilhelmina has ordered the secretary of marine of Holland to send a detail to the United States to examine and report on the submarine boat Holland. This detail consists of Rear Admiral Tadema, chief of the general staff of the Holland navy; Capt. Wentholt, chief of the torpedo bureau, and Naval Constructor Sir H. Rappard. These officers will arrive about Sept. 29.

Not Related.

New York, Aug. 2.—J. McGregor Adams, a Chicago millionaire, has just married Miss Edith McGregor, well known in Brooklyn society circles. Mr. Adams is the president of the Adams and Westlake Co., of Chicago. The marriage took place at the home of Mrs. Ferdinand Weigand, a sister of the bride, in Brooklyn. Mr. McGregor Adams said:

"We were not related, as may be inferred from the names. I am an Irishman, while my wife's family is of Scotch descent. We shall return to Chicago in a few days' time."

Pinnaces Completed.

New York, Aug. 2.—Four pinnaces for the Russian war vessel, building at the Cramps, Philadelphia, will sail today from the Nixon ship yards, Elizabethport, N. J., for Philadelphia to join the battleship.

The boats have had their trial trips and developed a speed of fifteen knots. They will act as convoys to the warship. Each carries a torpedo to be shot from the bows. Their draught is four feet and length sixty feet. Capt. Willis will have charge of the fleet.

Protest to McKinley.

Tacoma, Wash., Aug. 1.—The Tacoma Machinists' union today sent the following telegram to President McKinley:

"Moran Brothers at Seattle, with a strike on involving all iron-workers have been awarded a government contract, while men on the government work at Bremerton have been laid off on account of lack of work. A member of the Metal Trades' association has influence with the administration and

For mosquito bites, bites or stings of insects, animals or reptiles, apply BALLARD'S SNOW LINIMENT. It counteracts the poison in the wound, subdues the inflammation and heals the flesh. Price, 25 and 50 cents. Z. C. M. I.
