

LI HUNG UNDER GREAT SUSPICION

Looked Upon as Originator of the Anti-Foreign Plot.

WOMEN HACKED TO PIECES.

Children Carried on Spears—Lack of Unity Among Allies—Rockhill's Appointment Approved.

London, July 20, 4 a. m.—The Shanghai correspondent of the Daily Express says: Intense indignation is felt here at the honors in Hongkong accorded to Li Hung Chang, who is looked upon in Shanghai as the originator of the whole fiendish anti-foreign plot.

A Chinese merchant who has just arrived from Peking gives horrible details of the massacre. He says he saw European women hauled into the street by shrieking Boxers, who stripped them and hacked them to pieces. Their dismembered limbs were tossed to the crowd and carried off with howls of triumph. Some were already dead, having been shot by foreign civilians.

He says he saw Chinese soldiers carrying the bodies of white children aloft on their spears, while their companions shot at the bodies. He gives other details too horrible to be particularized here.

It seems that the Boxer leaders had organized a plan including the offering of rewards and rich loot for the annihilation of Europeans throughout China and that Prince Tuan's soldiers have been emphasizing the opportunity the soldiers have had of seizing the bodies of white women.

WASHINGTON IDEA GOOD.

The Washington idea of sending Mr. Rockhill to China, says the Standard editorially this morning, is an excellent one and might advantageously be imitated by the British and other governments. The Standard then proceeds to comment upon the great ignorance prevailing in Europe, not only of recent events but of Chinese affairs generally.

The cabinet council convened by Lord Salisbury yesterday made a day earlier than usual, and it is expected that it will be followed by a statement in parliament throwing light upon the situation. The Chinese assertions that members of the foreign legations are still safe have been so often repeated that they are again beginning to raise hopes in some quarters.

According to the Daily Telegraph's St. Petersburg correspondent, however, the Russian government is already in possession of definite news that all the foreigners in Peking were massacred on July 20.

Mr. Delcasse's circular only goes to prove that so far the powers have failed to arrive at any concerted plan of action.

LACK OF UNITY.

Very little further news is available this morning. The Yokohama correspondent of the Daily Mail, who repeats his statement regarding the jealousy felt among the allies on the subject of the Japanese commander-in-chief and the general lack of unity among them, adds:

The Japanese correspondents charge the Russian soldiers with appalling brutality toward the Chinese. They declare that the Peiho is full of the corpses of women and children, and that the Russians loaded 3,000 boys on a junk and burned them.

Shanghai reports that three mission stations on the Yangtze have been destroyed and it is believed that the missionaries escaped. All the missionaries at A-shih-Ho, Kerin and Kuan-Sheng-Tsu, in Chinese Manchuria, have arrived in safety at Vladivostok.

VICTORY SUICIDES.

It is rumored that Lu Lu, the missing viceroy of the province of Chi Li, has committed suicide.

Various conflicting stories are published of the manner of Gen. Neli's death.

The correspondent confirms the statement of the correspondent of the Daily Express regarding the indignation caused by the British reception of Li Hung Chang at Hongkong. He says it is interpreted by the natives as weakness on the part of the allies, and he asks why Li Hung Chang could not have been received from Peking.

The Times understands that the chief representative of the Mohammedan clergy in Constantinople have issued a strong protest, based upon the Koran, against palace sympathy with the Chinese massacres. According to the Canton correspondent of the Daily Telegraph six Chinese soldiers have been beheaded for assaulting an American medical missionary.

RUSSIANS DEFEAT CHINESE.

The Russians, according to the latest news from St. Petersburg, have now completely defeated the Chinese and have occupied Badkovechensk, capital of the Amur government, with a force of 3,000 men. Since Gen. Gribiski, chief of staff at Port Arthur, has taken over the supreme command in Manchuria, reinforcements have been rapidly pushed up, and the general situation has been greatly improved.

GERMAN INTERESTS.

Berlin telegrams dwell upon the immense German interests in Manchuria. They say that the many German merchants and numerous German employees and the immense stores of goods belonging to Germans in that territory will compel Germany to co-operate with Russia in resisting the Chinese.

CATHOLIC ARCHBISHOP.

Appointment of Archbishop Keane Confirmed by the Pope.

New York, July 20.—A dispatch to the Journal and Advertiser from Rome says: The appointment to be archbishop of Delago of Archbishop Keane, former rector of the Catholic university at Washington, is confirmed by the pope. Archbishop Keane, of Milwaukee, sent a strong letter in opposition to the appointment.

It was the most violent epistle ever received at the Vatican.

Archbishop Keane is now at Brussels under treatment for his eyes. He will come immediately to Rome and as quickly return to the United States, where he will take possession of the see.

This appointment is the fastest on record, coming only six weeks after his name was presented.

Manufactured from a Cargo of Wheat Sent from Portland.

Portland, Ore., July 20.—J. C. Robinson, a well known mill man, has received a sample of flour from a mill in Yokohama. The flour was manufactured from a cargo of wheat sent from Portland.

BAD BLOOD, BAD COMPLEXION.

The skin is the seat of an almost endless variety of diseases. They are known by various names, but are all due to the same cause, acid and other poisons in the blood that irritate and interfere with the proper action of the skin.

To have a smooth, soft skin, free from all eruptions, the blood must be kept pure and healthy. The many preparations of arsenic and potash and the large number of face powders and lotions generally used in this class of diseases cover up for a short time, but cannot remove permanently the ugly blotches and the red, disgusting pimples.

Eternal vigilance is the price of a beautiful complexion when such remedies are relied on.

Mr. H. T. Shobe, 254 Lucas Avenue, St. Louis, Mo., says: "My daughter was afflicted for years with a disgusting eruption on her face, which resisted all treatment. She was taken to two celebrated health springs, but received no benefit. Many remedies were prescribed, but without result, until we decided to try S. S. S. and by the time the first bottle was finished the eruption began to disappear. A dozen bottles cured her completely and left her skin perfectly smooth. She is now seventeen years old, and not a sign of the embarrassing disease has ever returned."

S. S. S. is a positive, unfailing cure for the worst form of skin trouble. It is the greatest of all blood purifiers, and the only one guaranteed purely vegetable.

Bad blood makes bad complexions. S. S. S. purifies and invigorates the old and makes new, rich blood that nourishes the body and keeps the skin active and healthy and in proper condition to perform its part towards carrying off the impurities from the body.

If you have Eczema, Tetter, Acne, Salt Rheum, Bores, or your skin is rough and pimply, send for our book on Blood and Skin Diseases and write our physicians about your case. No charge whatever for this service.

SWIFT SPECIFIC COMPANY, ATLANTA, GA.

tured from a cargo of wheat sent from several months ago, and to all appearances is a first class article. Along with the sample over which the Japanese are seemingly quite proud, comes the statement that the actual cost of the manufactured article was on the basis of \$2.50 per barrel at a Pacific coast point.

As \$2.50 per barrel is the lowest figure yet reported for flour sent to the Orient it would seem from this that the Japanese were in a fair way to become active competitors for the flour trade of the Orient.

Refugees Arriving in Japan.

Yokohama, Thursday, July 19.—The United States battleship Oregon has arrived at Kure, where she will undergo temporary repairs. The leading papers still urge the dispatch of more troops to China, but there is a growing sentiment against Japan's engaging in extended operations. The decision of the government in the matter is not known, but another division from Sendai is on its way to embark at Utsunomiya.

Many refugees from China are arriving in Japan.

Powder Magazines Explodes.

Nevada City, Cal., July 20.—The powder magazine of Geo. F. Turner, situated about a mile from this city, which contained fifteen tons of hercules and giant powder, exploded last night. There was no loss of life. The men from the home mine, not far distant, who had just come up the shaft, where thrown down, but none were hurt. The debris and surrounding woods caught fire and for a time the flames threatened to spread to the Legg and Shaw and Gaylord magazines, but the efforts of a large number of volunteer firemen succeeded in averting the disaster, which would have followed the explosion of powder there stored. The total property loss is estimated at \$10,000.

Lipton Will Not Challenge.

New York, July 20.—A dispatch to the Journal and Advertiser from Glasgow says: Sir Thomas Lipton, who is cruising in the Clyde waters in his steam yacht Erin, has changed his plans and will not challenge for the America's cup right away. He is not having a new yacht built, but will wait until he gets better plans and details worked out. It may be a year before this is arranged.

"I am prepared to wait two years if necessary to get a perfect yacht," he said. "I have nothing to gain by haste and everything to lose. I am not satisfied with the Erin as it is. I intend to have another try, but must have the best boat that can be devised."

"I will race the Shamrock in British waters next season to gain practical knowledge and experience for a new challenge."

The change in Lipton's plans is due to his inability to get a design which he considered an improvement over the Shamrock.

Captured by Mohammedans.

Chicago, July 20.—A special to the Record from Peoria, Ill., says: Geo. Shimon, a Persian student who has been attending college in Illinois for several years and is passing the summer in Peoria, today received a cablegram from his home at Grodzna, Persia, stating that his brother had been captured by Mohammedans, and that there has been a general massacre of 3,000 Christians in Grodzna. The letter states that this feeling of the Mohammedans against the native Christians is growing, and that there have been several hand to hand battles with fatalities on both sides. Mr. Shimon's father is a native missionary and this fact adds to the wrath against him and his family.

Transport Logan En Route Home.

San Francisco, Cal., July 20.—A telegram received by the quartermaster's department here brings the information that the transport Logan, en route to this port from Manila, bringing the customary quota of sick and insane soldiers, left Nagasaki on July 17 with seventy-one refugees from China attached to the passenger list. The transport comes by way of Kobe and Yokohama.

The 2:05 pacing event furnished a pretty contest. Prince Alert made his only winning in the second heat, but he made the fast record of the day.

AMERICANS WERE SCUBBED.

They Were Winning Too Much and Had to be Pushed Out.

Paris, July 19.—The manner in which the American athletes had been sweeping the field in the international games in connection with the Paris exposition opened the eyes of the organizations, and the result was shown in the handicapping of the day, which practically left the Americans out in the cold. The effect upon the Americans was demonstrated by the fact that whereas on the previous days they had secured four-fifths of the games, today, out of nine events, they captured only one, the first by four seconds, and five thirds. The feature of today's program was the twenty-five-mile marathon foot race. The first and second prizes, valued at 500 and 250 francs, respectively, were the gifts of an American silver manufacturing company, who had been a large silver loving cup, and the second one somewhat smaller, the company having given prizes in the standing high and broad jumps.

The race, a trying one under any conditions, threw an exceptional strain upon the contestants today, owing to a blazing sun that poured upon their heads throughout the run, a aid of the thirteen who entered, only seven were able to finish. The result was a victory for a Frenchman and his compatriots celebrated their first and only win in the sports with characteristic enthusiasm. French spectators invaded the track and carried Theatre Michod, the first being a large silver loving cup, and the second one somewhat smaller, the company having given prizes in the standing high and broad jumps.

The three American competitors to whom the course was quite new, and who were a severe handicap, fared badly. Newton made the best showing, keeping pace with the leading band of Frenchmen until about twenty miles had been covered. By this time all the weaklings had been weeded out. Newton made the best showing, keeping pace with the leading band of Frenchmen until about twenty miles had been covered. By this time all the weaklings had been weeded out.

Several days, overcome by the heat and exertion, was now obliged to drop behind. He struggled on pluckily to an hour, but reached the goal nearly an hour and a quarter after the winner.

INTERESTING EVENTS.

Fine Program of Utah Volunteers at Calder's Yesterday.

The cycle and horse races under the auspices of the Utah Volunteers at Calder's park yesterday brought out about five hundred people. The races were scheduled to take place at 2 p. m., but were delayed until nearly 5 o'clock, owing to the slow arrival of the people.

The first race was a five-mile race between John Lawson's motor and Gus Lawson and William Vaughn on a tandem. John Lawson and Oscar Johnson came in first with Gus Lawson and Vaughn less than two feet behind them. Time, 11:32 2-5.

The next race brought out Winnie, ridden by Julius Livingston, a ten-year-old lad. Jack was ridden by Shorty Evans. Winnie won a full length from Bernice, with Jack a close third. Time, 37 seconds.

The five-eighths dash was easily won by Miss Rawson, ridden by Shorty Evans, from Red Bird, ridden by Carbury. Golden, ridden by Lynville, came in third. As the horses came into the stretch nearly abreast, Miss Rawson forged ahead, winning first place. The judges disqualified Red Bird on a foul and gave Lynville second place. Time, 1:04.

The prettiest race of the day was the half-mile dash. The entries were Ben Bolt, ridden by Shorty Evans; Skagmuck, by Carbury, and Bernice, was kept abreast for three-eighths of a mile, but on the home stretch Ben Bolt showed his good qualities by gaining on the others. He won by a neck in 51 seconds. Skagmuck second and Bernice took third place.
