

THE ELDERS IN EUROPE.—From a letter, under date of Oct. 26th, written by Elder Franklin D. Richards, President of the European Mission of the Church, to President Brigham Young, we are kindly permitted to copy the following items of interest respecting the Elders abroad.

"Since my last, Elders Levi W. Richards, Nephi Fawcett, Henry McCullough and Edwin Walker have had the small pox, but are now either well or recovering. Levi had it very severely, and it was then followed by several very bad abscesses, all which reduced him very low. The others had ordinary attacks, excepting Bro. Walker, who had it but lightly. They had the best of attention, and have appeared to get along as well as possible under the circumstances. Elder Edgar Dalrymple, in Channel Islands, has been very low of a fever, but is now at his labors again.

"Immediately on receipt of your letter, dated August 29th, I published the portion relating to the health of the Elders, and br. Moses Thatcher's reply to my letter to him about his health, in *Star* No. 40, for October 5th, and made some remarks upon the subject in an editorial. The condition and health of the Elders have been much improved thereby, and I know of no one who would feel it a privilege—or whom I think it expedient to release—to return home.

The cost of keeping up the Hollandish mission has become so great, that I have thought it best to retrench by appointing br. F. A. Brown to labor in England.

Elder Widerborg is about to test the religious liberty professed in the Constitution of the North German Confederation, by sending Elders into the Duchies of Schleswig Holstein.

KILLING THE CHOLERA BY ARTIL- LERY.—It is a well known fact that the presence of ozone is fatal to the exist- ence of cholera. Telegraph operators are rarely attacked with this disease for this reason, and the accumulation of atmospheric electricity during thunder showers exerts a salutary influence in infected districts. Depending on this fact, Dr. Zantedeschi, of Padua, Italy, has proposed a plan for the destruction of the poison of cholera, by the explo- sion of gunpowder mixed with common salt and the chloride of lime and of sulphur. The Doctor suggests the plac- ing of cannon loaded with the disin- fecting mixture on towers or high emin- ences in the locality where cholera ex- ists, then at every discharge the air would be cleared of its poison by the combus- tion of the sulphur generated by the sul- phurous vapors, and the consequent formation of ozone. Caution must be practiced, by closing doors and windows, as the descending gaseous substances are very irritating if inhaled.—*Scientific American.*

DESERET MILL

COTTON YARN!

Messrs. Stubbs & Kirkwood

Opposite Salt Lake House,

GREAT SALT LAKE CITY,

Are appointed Agents for the Sale of the Justly

CELEBRATED DESERET MILL

PROCLAMATION.

WHEREAS, by the resignation of Joseph S. Murdock, a vacancy has occurred in the Office of Representative in the Legislature of the Territory of Utah, for the County of Wasatch.

Therefore, it is ordered that a Special Election be held on the Second Monday in December next, in the said county of Wasatch, for the purpose of choosing one Representative to the Legislative Assembly.

Such Election shall be held at the same pre- cincts, and be governed in all respects by the same regulations, as other elections.

In witness whereof I have hereunto set my hand and affixed the great seal of the Territory of Utah, this 7th day of November, A.D. 1867.

CHARLES DUNN, Governor.
