Morale of Whole Army Being Shaken
By-Revolutionary Propoganda—
Mutiny in Fleet Predicted.

St. Petersburg, June 21, 11:50 a. m.—A serious mutiny which for a time threatened to place the fortress of Sankt-Yanlopel in possessions of the mutineers was suppressed yesterday, according to a special dispatch to the Novorossiysk Vremya. The mutiny was started by a battalion of fortress artillery which declined to obey orders, whereupon the men were promptly disarmed. Two other battalions then mutinied and took possession of the guns in the

Gen. Nepiëst, commander of the fortress of Novorossiysk, is represented to be greatly concerned about the temper of the sailors as well as the soldiers of the fortress. That the morale of the whole army is being shaken by the revolutionary propaganda is proved by the continual extension of the rebellious outbreaks among the troops. It appears to be confirmed that the Bolshevik regiment at Lyazab has driven the Russian officers out of the town.

Another report says the soldiers deliberately attacked the Officers' club at Ryazak, killing one and wounding two officers. A panic prevails in the town.

Four companies of the Viborg regiment stationed in St. Petersburg have presented demands which were acceded to and they have now returned to duty.

The soldiers of the notorious Semenovskiy regiment, whose name became

synonymous with repression, owing to the deeds committed by these troops at Moscow, are reported to have held a meeting and to have decided that they cannot any longer endure the public opprobrium and must wipe out the stain on the regiment.

The tenderness with which the mil-

tary officers are treating these and recurring exhibitions of the mutinous spirit among the troops is sufficient evidence that they fear the entire army is infected.

MUTINY IN FLEET PREDICTED.

New York, June 21.—Discussing reports from London, which were denied

from St. Petersburg, of trouble at Cronstadt, Ivan Narodny, a Russian who came here in the interests of the revolutionists, said yesterday:

"There will be soon a great mutiny in the Baltic fleet at Cronstadt, with vastly more success than the already

"The fact is the army officers drawn from the noble classes are in sympathy

with the men from the peasant and artisan classes. The common people and the nobles in Russia are not separated by the gulf that stood between these classes under the ancient regime in France. The nobles throughout Russia—and the gentry, too—are the peasants' closest friends, on the most cordial and friendliest footing. The nobles are the backbone of the revolution in Russia. The bureaucracy is drawn from neither class, and is hated by both classes.

"The reason why the bureaucracy stirs up this resentment against the Jews is that they are seen to be an element strong for revolution—radicals."

**IN BEHALF OF OPPRESSED
JEWS OF RUSSIA.**

London, June 21.—Mr. Montefiore, president of the Zionist federation, and Israel Zangwill, president of the Jewish Territorial organization, publish a joint appeal through the newspapers this morning to the prominent Jews of Great Britain and the United States on behalf of oppressed Russian Jews.

They remark that the United States senate's adoption of the bill further to restrict immigration threatens to close even this land of refuge without opening another, and say that therefore it is more than urgent to find permanent means of grappling with the problem.

**WYOMING SOCIALISTS
NAME STATE TICKET.**

Cheyenne, Wyo., June 21.—A full state ticket was nominated by the Socialist party at Laramie yesterday. William T. Brown of Sherman was named for Congress, and W. L. O'Neill of Laramie for

SEVERE FROSTS IN WYOMING.
Cheyenne, Wyo., June 21.—Severe frosts have occurred in various parts of the state and reports received here indicate that much damage has been done to growing crops.

INCREASE IN WAGES.

Fall River, Mass., June 11.—The cotton manufacturers of this city have granted the operatives a 14 per cent increase in wages. About 15,000 hands are benefited. The new scale which will take effect July 2 is practically the same as that

PANIC ON RIVER STEAMER.

The propeller shaft of the steamer Eagle snapped with a terrific noise as the boat was just below Hardin, Ill., and the liner's helpless steamer began tumbling about in the heavy current of the Mississippi river. Nearly 100 passengers were aboard. A panic ensued and required the utmost efforts of the boat's officers to keep the passengers from jumping overboard. Finally the steamer was saved safely.
