

## WAS STEINHEIL MURDERED BY WIFE?

She Charged Man Named Wolff  
With Crime and Then  
She Weakened.

### WAS LOCKED UP IN PRISON

Members of Deputies Threatened to  
Raise Question Unless Government  
Probes Scandal to Bottom.

Paris, Nov. 26.—Paris has been in a state of intense excitement today, over developments that have come thick and fast since last night in the Steinheil murder case, and the sensation has made itself felt even in the chamber of deputies, where many members declared they would raise the question, unless the government undertook to probe the scandal to the bottom.

Mme. Steinheil made a confession to two newspapermen last night. She declared that a man named Alexander Wolff was the murderer of her husband. Wolff was arrested and examined by the authorities. He denied all guilt and said he was ready to prove an alibi.

Mme. Steinheil then weakened and said that if it was not Wolff, the man who committed the crime resembled him strongly.

Their suspicion turned upon Mme. Steinheil herself, and at 6 o'clock it was announced that she would be locked up in the prison Lazerie under a warrant of arrest. No charge, however, was specified. Wolff was also held, but not on a warrant.

### SENSATIONAL RUMORS.

The end of the day brought a crop of sensational rumors. It was said that Minister of Justice Briand had ordered an investigation of the open charges that Mme. Steinheil had been the mistress of M. Leydet, the examining magistrate in the case, and that M. Leydet had been instrumental in stifling the investigation. Chief of Detectives Hamard was credited with the statement that Wolff had practically established his alibi and that open suspicion had been cast upon Mme. Steinheil, Coullaud, the man arrested several days ago on suspicion, was released.

The local newspapers published extracts throughout the day giving, under flashing headlines, the details of the woman's statement and her subsequent examination. Behind the interest in

## A HARD CASE

Imagine a man so low with kidney disease that he had to sit up night and day. He even had to sleep sitting up, being unable to lay in his bed or stand on his feet. Yet such was the final condition of W. R. Marquis, the well-known business man of Bartow, Fla.

He went to a sanitarium in Memphis, where he was attended by three physicians. They gave up the case and advised that he go home.

On his return he heard of and sent for the new emollient treatment. The fourth week the heart and dropsy began to mend and the fourth month he was walking all over the town without cane or crutches, and he permits this reference.

No matter what kidney disease is called—whether kidney trouble, Nephritis or Bright's Disease—it is inflammation of the kidneys, and the old-time rattle kidney medicines are kidney excitants, you can see why they failed in his case as they have in yours.

Palmer's Renal Compound is the first successful renal emollient thus reducing renal inflammation, and kidney disease is now curable for the first time. Even serious supposed incurable forms yield as above.

the crime itself lies the more or less thinly-veiled intimation that France is on the verge of a scandal involving high personages, and the failure of the police to clear up the mystery had led to the open assertion that their lack of energy is due to powerful representations, dating back to the death in Paris, in 1899, of Felix Faure, at one time president of the republic.

### THE CRIME.

The crime in question was committed the night of May 31.

Mme. Jany was murdered at the same time as Steinheil. The latter was a portrait painter and a grand-nephew of Melsionier. The assassination of the woman, however, is supposed to have been incidental to the killing of Steinheil. He was the man it was desired to put out of the way.

Steinheil, his wife and Mme. Jany lived together. The wife was found bound and gagged in bed, and at first she declared that she had been thus treated by three men and a woman, all unknown to her. Alexander Wolff, the man accused by Mme. Steinheil, is the son of a woman who was formerly employed in the Steinheil family as a cook. He and his mother, whose name is Mariette, were at once arrested. It transpired, however, that Mme. Steinheil was not the first person to accuse Wolff.

Wagner, told the police a few days ago, after the crime, that Wolff had suddenly come around with a pocketful of gold. The night of the crime he was not present in his usual haunts, but the morning after, when he read an account of the tragedy in a newspaper, he appeared to be greatly excited, and swore that he would have vengeance on the assassins.

Mme. Steinheil repeated her statement.

ment to the newspapermen and to M. Hamard, chief of detectives, this morning. She was hysterical and sobbed out her story. In many respects her statements were conflicting. She said that Wolff committed the murder from motives of robbery, but that he spared her on account of her daughter. She said she had kept silent up to the present time because of Wolff's threats to charge her with having incited him to the murders if she denounced him. She declared emphatically and repeatedly that Wolff was nothing to her and that she was not in any way a party to the crime. She did say, however, that she had hated her husband and that she had a lover in whose eyes she wanted to justify herself.

"I hoped to justify myself before a man whose love I have now lost forever," she cried.

This man is said to be a French nobleman and in his identity is believed to be the key to this romantic tragedy.

There was a series of dramatic conferences at the palace of justice throughout the morning. The parties to the interview were Mme. Steinheil and her daughter; Marthe; Alexander Wolff and his mother; and the man Coullaud. Each was subjected separately to a close examination by M. Hamard and M. Leydet.

Mme. Marie Steinheil has been devoted to her mother from the beginning, but today she was in the peculiar condition of distress. After the ordeal at the palace of justice she was completely prostrated.

Red Lodge, Mont., Miners Assess Themselves for Their Support.

Red Lodge, Mont., Nov. 26.—In order to provide for the widows and orphans of the victims of the recent mine disaster, when ten men lost their lives, each miner here has been assessed \$3. There are over 1,100 miners in the camp and the assessment will amount to about \$3,000.

### MONTANA PIONEER DEAD.

Bozeman, Mont., Nov. 26.—Mrs. Hillard, one of Montana's earliest pioneers, who has lived in different parts of the state most of the time during the last 50 years, died on a farm near here at midnight last night. She was a widow of J. Hillard, a forty-niner, who lost his life in the first gold rush into California. Mrs. Hillard was 84 years of age.

### GUILTY OF MANSLAUGHTER.

Vermillion, S. D., Nov. 26.—Mrs. Christina Clark, accused of the murder of her divorced husband, was today found guilty. The jury returned a verdict of manslaughter in the second degree.

### LOWER DUTIES ON METALS.

Washington, Nov. 26.—From the testimony offered before the ways and means committee at the tariff hearing yesterday, it is evident that some reduction, possibly 10 to 20 per cent, will be made in the duties on iron, steel and metal products when the new tariff bill is framed.

### OREGON SENATORIAL CASE.

Senator Fulton Wants President-Elect Taft to Take Hand in It.

Washington, Nov. 26.—Senator Fulton's mission to Hot Springs was to ask President-elect Taft to take a hand in the Oregon senatorial situation. Leading Republicans in Oregon are very strongly against the election of a Democrat to the senate, regardless of the fact that in the recent primaries Gov. Chamberlain defeated the Republican candidate. It is argued that under such a primary law a declaration in favor of Gov. Chamberlain might at some time result in changing the complexion of the senate. Strong pressure, therefore, is being brought upon the legislature to make a Republican. If Mr. Taft and Mr. Hitchcock took the position that a Republican should be chosen, it is said this would go a long way toward accomplishing that result.

### COLDS AND CROUP IN CHILDREN.

"My little girl is subject to colds," says Mrs. Wm. H. Serig, No. 41 Fifth St., Wheeling, W. Va. "Last winter she had a severe cold and a terrible cough, but I cured her with Chamberlain's Cough Remedy without the aid of a doctor. My little boy has been troubled many times from having the croup by the timely use of this syrup. As soon as he shows any signs of croup, I give him Chamberlain's Cough Remedy for three or four days, which prevents the attack." This remedy is for sale by all druggists.

### STATE OF ANARCHY REIGNS AT PORT AU PRINCE

New Orleans, Nov. 26.—According to a cable dispatch received early today by the Post-Office from St. Thomas, W. I., private cable advices received there from Port au Prince are to the effect that the censored dispatches sent from Hayti only give a faint idea of the reign of terror now existing on that island.

The dispatch continues: "Anarchy reigns throughout Hayti and the country is literally running with blood. Private cables received from Port au Prince state that wholesale executions are in progress, both by the government forces and the revolutionists. Persons who are suspected of sympathy with the insurgents are being summarily shot, by order of President Norde Alexis. The same course is being followed by the revolutionists, who have control of the southern portion of the republic."

"Foreigners in Hayti are making frantic appeals to their governments for protection, and the French representative has cabled for ships. The German minister, it is said, has cabled a similar message to Berlin."

"It is the general opinion in St. Thomas that intervention by the United States is necessary."

### UTAH DIVORCE RATE SHOWING A DECREASE

Washington, Nov. 26.—A higher divorce rate in the United States than in any of the foreign countries where statistics are available is announced by the census bureau, which in a bulletin just issued, says that at least one marriage in 12 in this country ultimately terminates in divorce. The report covers the 20 years from 1887 to 1906, inclusive. In that time there were 12,832,044 marriages and 945,625 divorces, against 28,716 divorces for the preceding 20 years. Divorce is now two and a half times as common, compared with the married population, as it was 40 years ago. Utah and Connecticut are the only two states showing a decreased divorce rate.

### PASTOR ENTERED PROTEST AND STOPPED PICTURE SHOW

New York, Nov. 27.—Calvary M. E. church of the Rev. C. O. Goddell is pastor, and it is with an unpleasant Thanksgiving episode on its program that a picture entertainment was in progress there last evening when suddenly the pastor's voice was heard in the

darkened edifice protesting against a picture of the burning of Rome in which women were shown arrayed in lights. The picture, declared Mr. Goddell, was unfit for the children in the audience to see.

After a moment of hesitation, the operator threw on the scene a highway robbery scene. At this there was another protest and the show was declared off. Those who had paid 25 cents entrance fee were disgruntled and a hand, ordering the dissatisfied ones to leave the church.

Free admission was promised to the next exhibition but the complaints continue. As a last resort the picture was taken down and the dissatisfied ones to leave the church.

### MEETING OF ORGANIZED DEMOCRATIC CLUBS CALLED

New York, Nov. 27.—With the announcement of taking such action as may be necessary looking toward party success in 1917, William C. Lillier, chairman of the National Democratic league, has called a meeting of representatives of all regularly organized Democratic clubs to be held in Washington, D. C., on Dec. 9 and 10 next. Mr. Lillier said that the proposed meeting has not been called in the interest of Mr. Bryan or any other individual.

### MURDER AND SUICIDE.

Chicago, Nov. 27.—Edmund McCabe, an engineer, went home while intoxicated last night and ordered his wife, who had prepared a Thanksgiving dinner, to go out and "bring some beer and be quick about it." She was lying in bed, and being frightened, pulled the bedclothes tighter about herself. The husband then fired two shots from a revolver, one bullet entering the woman's body below the heart, the other penetrating her side. He then shot himself through the heart and fell dead. The woman is unconscious at a hospital, but may recover.
